Community Control And The Urban School:

Community Control and the Urban School Mario D. Fantini, Marilyn Gittell, Richard Magat, 1970 **Curriculum, Community, and Urban School Reform** B. Franklin, 2010-03-01 This book asserts that efforts to reform schools particularly urban schools are events that engender a host of issues and conflicts that have been interpreted through the conceptual lens of community The Rise and Fall of an Urban School System Jeffrey Mirel, 1999 The updated edition of the difficulties faced by the Detroit public schools and the historical reasons that led to the present situation *Equal Educational Opportunity 1971: Compensatory education and other alternatives in urban schools* United States. Congress. Senate. Select Committee on Equal Educational Opportunity, 1970 The City Alan S. Berger, 1978 **California. Court of Appeal (1st Appellate District). Records and Briefs** California (State)., The Containment Michelle Adams, 2025-01-14 Splendid Adams's book explores class as well as race with a richness and sophistication that recall J Anthony Lukas's 1985 masterpiece *Common Ground* Jeffrey Toobin *The New York Times Book Review* Passionate and well researched Louis Menand *The New Yorker* The epic story of Detroit's struggle to integrate schools in its suburbs and the defeat of desegregation in the North In 1974 the Supreme Court issued a momentous decision In the case of *Milliken v Bradley* the justices brought a halt to school desegregation across the North and to the civil rights movement's struggle for a truly equal education for all How did this come about and why In *The Containment* the esteemed legal scholar Michelle Adams tells the epic story of the struggle to integrate Detroit schools and what happened when it collided with Nixon appointed justices committed to a judicial counterrevolution Adams chronicles the devoted activists who tried to uplift Detroit's students amid the upheavals of riots Black power and white flight and how their efforts led to federal judge Stephen Roth's landmark order to achieve racial balance by tearing down the walls separating the city and its suburbs The metropolitan remedy could have remade the landscape of racial justice Instead the Supreme Court ruled that the suburbs could not be a part of the effort to integrate and thus upheld the inequalities that remain in place today Adams tells this story via compelling portraits of a city under stress and of key figures including Detroit's first Black mayor Coleman Young and Justices Marshall Rehnquist and Powell The result is a legal and historical drama that exposes the roots of today's backlash against affirmative action and other efforts to fulfill the country's promise *Controlling Public Education* Kathryn A. McDermott, 1999 Most Americans believe that local school districts are the only means by which citizens may exercise control over public education Kathryn McDermott argues to the contrary that existing local institutions are no longer sufficient for achieving either equity or democratic governance Not only is local control inequitable it also fails to live up to its reputation for guaranteeing public participation and citizen influence Drawing upon democratic theory and the results of field research in New Haven Connecticut and three suburbs McDermott contends that our educational system can be made more democratic by centralizing control over funding while decentralizing most authority over schools to the level of schools themselves while

enacting public school choice controlled for racial balance To many people in Connecticut and elsewhere the tension between equal opportunity for all students and local control of public education seems impossible to resolve In 1996 the Connecticut Supreme Court ruled in *Sheff v O'Neill* that local control produces unconstitutional segregation of public schools Nearly all of the state's 169 towns operate their own public schools and like the towns they serve the schools are generally homogeneous with respect to race and socioeconomic class In the *Sheff* ruling the court declared that making school districts coterminous with town lines is the single most important factor contributing to the present concentration of racial and ethnic minorities in the Hartford public school system At the same time the court also acknowledged that the town based school system presently furthers the legitimate nonracial interests of permitting considerable local control and accountability in educational matters In Connecticut and elsewhere it has often seemed necessary to choose between local control and equity in public education and local control has almost always won McDermott argues that rather than seeing local control and equity as conflicting goals policymakers should regard them as equally important components of democracy in public education In her view a truly democratic system of education should both encourage citizen participation in school governance and contribute to the formation and maintenance of a social order in which equality of opportunity prevails over hierarchies of privilege Centralizing distribution of resources and using controlled choice to end racial isolation would provide greater equality of opportunity while decentralizing management of schools would expand citizen participation McDermott's conclusions break new ground in our understanding of local school governance itself and call into question the conventional wisdom about local participation These findings should interest those who study school governance and reform especially in an urban setting as well as policy makers administrators teachers students and citizens eager to improve their schools

Community Control of Schools Henry M. Levin, 1970 **Desegregation, Problems and Practices**, 1978 *Sextus Julius Africanus und die byzantinische Chronographie* Gelzer, 1880 Community Control of the Urban School Yvonne Marie Smith, 1973
American Education Richard Wynn, Joanne Lindsay Wynn, 1977 Community and School Mary A. Vance, 1984 *City Schools and City Politics* John Portz, Lana Stein, Robin R. Jones, 1999 An explanation of why some US cities are better at educational reform than others It relates education to politics showing how the whole village can be mobilized to better educate tomorrow's citizens It is based on an 11 city study of civic capacity and urban education **School & Society** James McKeen Cattell, Raymond Walters, 1969 Bibliography on Organizational Change in Schools Philip Julian Runkel, Ann Burr, 1977 **An Introduction to the Foundations of Education** Allan C. Ornstein, Daniel U. Levine, 1981 **Library of Congress Catalogs** Library of Congress, 1976 **California Law Review**, 1979
