Community Health Nursing Barbara Walton Spradley, 1981 *Community Health Nursing* Im Barbara Walton Spradley, 1990-03 **Community/Public Health Nursing Practice** Frances A. Maurer, Claudia M. Smith, 2012-10-01 Focusing on practical need to know information, Community Public Health Nursing Practice helps you learn how to apply the nursing process at the community and family level. It features an engaging, easy to understand writing style as well as assessment tools, detailed case studies, and clinical examples that demonstrate how key concepts apply to real world practice. Additional resources on the companion Evolve website expand and enhance content within the text. Practical features including Case Studies, Ethics in Practice, and The Nursing Process in Practice illustrate real world applications of key community public health nursing concepts. A complete unit on the community as client helps you understand how the assessment, diagnosis, planning, intervention, and evaluation steps of the nursing process apply to the community as opposed to an individual. A chapter devoted to community assessment provides a complete assessment tool and shows you how the tool applies to two different types of communities. UNIQUE! A chapter on screening and referral promotes population focused practice, which is the crux of community public health nursing. A separate unit on the family emphasizes the importance of viewing the family as a singular client. A complete discussion of the Minnesota Wheel helps you better understand this widely accepted framework for community public health nursing practice. Helpful sections such as Focus Questions, Chapter Outlines, Key Ideas, and Learning by Experience and Reflection help you pinpoint essential information.
