Community Power Structure Floyd Hunter, 2017-11-01 In this study of busy complex Regional City and it is a real city the author has analyzed the power structure from top to bottom He has searched out the men of power and under fictitious names has described them as they initiate policies in their offices their homes their clubs They form a small stable group at the top of the social structure Their decision making activities are not known to the public but they are responsible for whatever is done or not done in their community Beneath this top policy group is a clearly marked social stratification through which decisions sift down to the substructures chosen to put them into effect The dynamic relations within the power structure are made clear in charts but the real interest lies in the author's report of what people themselves say The African American community is also studied with its own power structure and its own complicated relations with the large community The method of study is fully described in an Appendix The book should be of particular value to sociologists political scientists city planning executives Community Council members social workers teachers and research workers in related fields As a vigorous and readable presentation of facts it should appeal to the reader who would like to know how his her own community is run *Community Power Structure* is not an expos It is a description and discussion of a social phenomenon as it occurred It is based on sound field research including personal observation and interviews by the author

Community Power Structure Floyd Hunter, 1979 Community Studies Colin Bell, Howard Newby, 2021-10-17

Originally published in 1971 this was the first text on community studies which analysed the major empirical work in this field in a comparative perspective It is concerned both with the sociology of community and the sociology of community studies It takes both the findings of individual studies and the research process itself as significant sociological data in their own right and it asks continually how do we know what we know about communities *Community Studies* is then not only a contribution to that particular field but also to our understanding of the interaction between theory and method in sociology Studies are analysed from North and Latin America Britain and Western Europe and India Two central problems stratification and power are considered at greater length This book would prove to be an invaluable introduction not only for students of sociology but also for architects planners and all those who had an interest in the community at the time Its authors were and had been actively engaged in field research in this area *Community Development Review*, 1963

between these assets and the needs of the communities *The Mystery of Power* Herbert Kaufman, Victor Jones, 1954
