## **Community Stewardship:**

Community Stewardship Ndeh Sanjou-Tadzong, 2021-10-01 Ours is a world that is constituted and reinvented through the personal and shared stories we tell In the spirit and understanding that each and every one of us however big or small has a story to tell I am pleased to share with you this modest account of myself who rose from very humble beginnings into community stewardship It is only one story from one vantage point which I hope will contribute to the dynamism and quest for recreation in eternity that makes our world what it is a melting pot of experiences My idea is to expose and share my personal experience with others and hopefully leave them with a thing or two to take along in their own life journeys This approach is a school from where people s minds are tickled with new ideas and sooner or later develop their intellectual and human capacities as caring and sharing beings Through the story of my life I want to create an awareness for people to stay focused on some basic principles or virtues of life such as belief and faith in the forces big and small that shape our affairs in ways we can only marvel at The story is also an invitation to cherish virtues such as hard work honesty empathy justice love and respect trust confidence transparency and accountability These virtues are indispensable for in our quest and commitment to peaceful coexistence and to unity in our creative diversity as humans of various races and cultures Let us accept and emulate shining examples Let s reject all forms of animosity hatred jealousy greed blackmail corruption embezzlement but bow down in reverence to all that is noble good and accepted by all and sundry This in essence if my modest message in Community Stewardship

Justice Ideal Todd R Clear, 2018-03-05 Over the past quarter century U S politicians have responded to the public s fear of crime by devoting ever more resources to building and strengthening the criminal justice apparatus which as a result has grown tremendously in size and cost Policymakers have also taken steps to toughen procedures for dealing with suspects and criminals and broaden legal definitions of what constitutes crime which has led to the incarceration under harsher than ever conditions of a record high percentage of the U S population Yet public confidence in the criminal justice apparatus is if anything lower than ever before and fear of crime continues to be high In recent years some activists scholars criminal justice officials and politicians have begun to call for a reexamination of get tough crime policies A more sensible approach to crime they argue would focus on community justice that is on building healthy communities in which criminality cannot take root and on making citizens and criminal justice into partners rather than adversaries In this thought provoking study Todd Clear and David Karp provide both a broad theoretical analysis of this ideal and a close examination of a range of attempts to put it into practice in communities throughout the country They conclude that by making the criminal justice system and the public into partners rather than adversaries community justice strategies for dealing with crime are both more effective and more resource efficient than the failed get tough approach
