Community As Classroom:

The Community Classroom Avery Nightingale, 2024-09-05 In *The Community Classroom Learning and Growing Together* Avery Nightingale explores a transformative approach to education that transcends traditional classroom boundaries Rooted in the concept of a human centric learning environment this book delves into the experiences of sisal farmers and their children as they learn mathematics in a community based setting Nightingale emphasizes the value of social learning where knowledge is shared and applied within the very environment where life unfolds By bringing education to the farming grounds this approach challenges the conventional reliance on technology and formal classrooms offering a richer more connected experience The *Community Classroom* provides a compelling case for rethinking education in low income rural areas highlighting the potential for community driven inclusive learning to foster real change

Community Building in the Online Classroom Dominique Moyse Steinberg, 2021-06-15 This book offers theories principles and strategies for developing the online classroom as a deep and full learning community that students feel is truly about by and for them To be immediately useful it offers practical ideas for helping students to actively contribute to shaping classroom affairs toward relevance and meaning However in order to elevate the discussion beyond the primer level the book anchors those ideas in social and educational principles and theories As social learning theories posit deep and full learning occurs when our full cognitive emotional and social selves are engaged This book mitigates the challenges to such engagement in the virtual classroom arguing that a strong sense of community ownership will enhance students ability to successfully master content Although not all strategies are group based the use of groups both large and small is a primary way of helping online students to become active on their own behalf in building a learning community that meets their needs Strategies outlined here focus primarily on promoting shared authority visibility and voice and on encouraging student disclosure of needs and peer connection

Authentic Classroom Management Barbara Larrivee, 2005 It is essential for classroom teachers to be reflective It is critical that they be aware of their own biases and prejudices Larrivee does an excellent job of gently guiding the teacher through a look at his her past The first chapter creates a comfort zone with which the teacher continues to look at his her past and consequently at his her treatment of children Dr Patricia A Pintar St Mary of the Woods College *Authentic Classroom Management* addresses the basics of classroom management by narrowing the gap between theory and practice to provide realistic and collaborative management options This easy to read practical text presents a broad theoretical background while focusing on the belief that effective classroom management requires careful preparation and goes beyond learning discrete skills The text promotes a multi dimensional and reflective perspective for managing classrooms that will prepare prospective and in service teachers to successfully manage today s diverse classrooms Highlighting a comprehensive range of strategies and philosophies the text encourages alternative ways to support positive classroom behaviors Its many exercises offer opportunity for skill development through reflection and self questioning emphasizing proactive ways of

Place- and Community-based Education in Schools Gregory A. Smith, David Sobel, 2010 Place and community based education is an approach to teaching and learning that starts with the local and addresses two critical gaps in the experience of many children now growing up in the United States contact with the natural world and contact with community It offers a way to extend young people s attention beyond the classroom to the world as it actually is and to engage them in the process of devising solutions to the social and environmental problems they will confront as adults This approach can increase students engagement with learning and enhance their academic achievement Envisioned as a primer and guide for educators and members of the public interested in incorporating the local into schools in their own communities this book explains the purpose and nature of place and community based education and provides multiple examples of its practice The detailed descriptions of learning experiences set both within and beyond the classroom will help readers begin the process of advocating for or incorporating local content and experiences into their schools

Community Building in the Classroom and Its Effects on Learning Susan L. Meyer, 2000

Community Building in the Middle School Classroom Stephanie D. Smith, 2011 Middle school students are going through a number of changes as they begin the transition from childhood to adulthood They have unique social and emotional needs as they experience the changes that come with puberty The need to belong is important for all people but it is especially important for middle school students as they are becoming more independent Teachers at the middle level can support students by establishing a strong classroom community where students feel as though they belong and are encouraged by their teachers and their peers but it is especially important for middle

school students as they are becoming more independent Teachers at the middle level can support students by establishing a strong classroom community where students feel as though they belong and are encouraged by their teachers and their peers In this type of environment teachers make strong connections with each student and help the students build relationships with one another Along with the individual teachers the faculty in the school can contribute to a positive classroom community by collaborating and working toward the common goal of student learning A strong sense of community has been found to increase academic achievement and motivation to learn It helps students develop positive social skills and reduces the number of distractions in the classroom Middle school teachers should strive to create caring classroom communities to help meet the needs of their students leaf 3 *Christianizing Community Life* Harry Frederick Ward, Richard Henry Edwards, 1917 Establishing a Positive Classroom Community that is Academically Productive and Emotionally Supportive Christopher Duane Foss, 2009 The research question addressed in this capstone was how do you establish a positive classroom community that is academically productive and emotionally supportive It documents how the building of a positive community in a classroom is one of the most important processes teachers should focus on during a school year There are three essential elements that need to be addressed when building classroom community student to student relationships teacher to student relationships and the overall school atmosphere All three of these aspects are important to the success of the community The capstone addresses the definition of classroom community the importance of classroom community and the process of developing classroom community The capstone also includes a teacher manual focusing on activities and processes teachers can use to develop and strengthen student to student relationships teacher to student relationships and an overall sense of school community *The Basic School* Ernest L. Boyer, 1995-06-15 Noting that academic failure begins early and that the focus of school reform should be at the elementary level this book describes the Basic School an idea based on best practice in elementary education A Basic School pushes school reform back to the first years of formal education gives priority to language and suggests a coherent core of commonalities and identifies and implements key components of an effective school in a single institution The book is organized into four sections Section 1 describes the school as a community with a clear mission teachers as leaders and parents as partners Section 2 discusses the coherent curriculum of the Basic School which stresses 1 the centrality of literacy and language of all kinds including words numbers and the arts 2 the core commonalities of the various fields of knowledge which are organized thematically and integrated so that students see connections across the disciplines and relate what they learn to life and 3 assessment in the service of learning based on academic standards with benchmarks which enables the Basic School to be accountable to students parents and the larger community Section 3 describes the school climate for learning with 1 small class size flexible teaching schedules and various student grouping arrangements 2 enriching resources for learning including libraries and use of local zoos museums and parks and electronic tools that connect classrooms to networks of knowledge and 3 services for children that meet the needs

of the whole child by providing basic health and counseling family referrals and after school and summer enrichment programs Section 4 which describes the Basic School's commitment to character includes a discussion of seven core virtues and suggests that students should be encouraged to apply the lessons of the classroom to the world around them A separate section on Technical Notes describes school surveys referred to in the report Contains 243 notes DR *Building Character and Community in the Classroom, K-3* Ronda Howley, 1997 Offers fun and meaningful activities for students to learn to care for one another and to develop into socially responsible individuals *Community-Based Transformational Learning* Christian Winterbottom, Jody S. Nicholson, F. Dan Richard, 2020-05-14 Rooted in the work of community school collaborations this text focuses on connecting the rigors of the classroom with the ambiguity of lived community experience Community Based Transformational Learning CBTL draws on the increasing evidence that course learning conducted in an applied community setting can positively transform students professional and personal identity and creates new ways of thinking and working in university courses and pre professional experiences To illustrate the different ways to successfully implement community based learning examples are provided of experiences integrated in courses across multiple disciplines across an American university whose mission is focused on teaching Topics covered include refugee and immigration transition issues incarceration and health needs with international examples of community experiences from Jamaica Korea and Belize Qualitative and quantitative data depict how these experiences impact students and each chapter presents how community engagement has been established as an effective approach in the different disciplines including computer science and sports management The authors demonstrate how CBTL experiences can be transformative when students are provided a chance to connect the academic commitment to community aims but also provides suggestions for overcoming challenges and pitfalls in developing these experiences *The Junior High Clearing House*, 1928 *Social Class and Peer Group Status Among School Children in a Small Community* Jon A. Doerflinger, 1957 **Learning Communities In Practice** Anastasia Samaras, Anne R. Freese, Clare Kosnik, Clive Beck, 2008-10-26 Most would agree that a learning community of practice cultivates social and intellectual development in educational settings but what are the other benefits and what does a learning community actually look like in practice This book explores such questions as Are learning communities essential in education How are they designed and developed What difference do they make in learning The book contains contributions of educators who share their research and practice in designing and implementing learning communities in school university and professional network settings It presents their experiences and the how to of these educators who are passionate about building and sustaining learning communities to make a real difference for students teachers faculty and communities Combining scholarly and practitioner research the book offers practical information to teachers school and university administrators teacher educators and community educators
