Community Of The Cross Moravian Piety In Colonial Bethlehem:

Community of the Cross Craig D. Atwood, 2010-11-01 Bethlehem Pennsylvania was a unique colonial town It was the first permanent outpost of the Moravians in North America and served as the headquarters for their extensive missionary efforts It was also one of the most successful communal societies in American history Bethlehem was founded as a congregation of the cross where all aspects of personal and social life were subordinated to the religious ideal of the community In Community of the Cross Craig D Atwood offers a convincing portrait of Bethlehem and its religion Visitors to Bethlehem such as Benjamin Franklin remarked on the orderly and peaceful nature of life in the community its impressive architecture and its high culture However many non Moravians were embarrassed or even offended by the social and devotional life of the Moravians The adoration of the crucified Jesus especially his wounds was the focus of intense devotion for adults and children alike Moravians worshiped the Holy Spirit as Mother and they made the mystical marriage to Christ central to their marital intimacy Everything even family life was to be a form of worship Atwood reveals the deep connection between life in Bethlehem and the religious symbolism of controversial German theologian Nicholas von Zinzendorf whose provocative and erotic adoration of the wounds of Jesus was an essential part of private and communal life Using the theories of Ren Girard Mary Douglas and Victor Turner Atwood shows that it was the Moravians liturgy and devotion that united the community and The Theology of the Czech Brethren from Hus to inspired both its unique social structure and its missionary efforts **Comenius** Craig D. Atwood, 2009 Examines the history and development of Moravian theology from its origins in the Hussite movement to the work of Comenius Explores the theology of the Unity of the Brethren within the context of the Protestant Reformation Provided by publisher Christian Congregational Music Monique Ingalls, Carolyn Landau, Tom Wagner, 2016-05-23 Christian Congregational Music explores the role of congregational music in Christian religious experience examining how musicians and worshippers perform identify with and experience belief through musical praxis Contributors from a broad range of fields including music studies theology literature and cultural anthropology present interdisciplinary perspectives on a variety of congregational musical styles from African American gospel music to evangelical praise and worship music to Mennonite hymnody within contemporary Europe and North America In addressing the themes of performance identity and experience the volume explores several topics of interest to a broader humanities and social sciences readership including the influence of globalization and mass mediation on congregational music style and performance the use of congregational music to shape multifaceted identities the role of mass mediated congregational music in shaping transnational communities and the function of music in embodying and imparting religious belief and knowledge In demonstrating the complex relationship between traditional and contemporary sounds and local and global identifications within the practice of congregational music the plurality of approaches represented in this book as well as the range of musical repertoires explored aims to serve as a model for future congregational music scholarship A Harmony of the Spirits Patrick M. Erben, 2013-06-10 In early Pennsylvania translation served as a utopian tool creating harmony across linguistic religious and ethnic differences Patrick Erben challenges the long standing historical myth first promulgated by Benjamin Franklin that language diversity posed a threat to communal coherence He deftly traces the pansophist and Neoplatonist philosophies of European reformers that informed the radical English and German Protestants who founded the holy experiment Their belief in hidden yet persistent links between human language and the word of God impelled their vision of a common spiritual idiom Translation became the search for underlying correspondences between diverse human expressions of the divine and served as a model for reconciliation and inclusiveness Drawing on German and English archival sources Erben examines iconic translations that engendered community in colonial Pennsylvania including William Penn s translingual promotional literature Francis Daniel Pastorius s multilingual poetics Ephrata s angelic singing and transcendent calligraphy the Moravians polyglot missions and the common language of suffering for peace among Quakers Pietists and Mennonites By revealing a mystical quest for unity Erben presents a compelling counternarrative to monolingualism and Enlightenment empiricism in eighteenth century America Books on Early American History and <u>Culture</u>, 2001–2005 Raymond D.
