## Como Una Alondra Skylark:

*Asilvestrados* Isabella Tree,2023-05-29 En *Asilvestrados* Isabella Tree cuenta la historia del experimento Knepp un proyecto pionero de rewilding en West Sussex que utiliza animales de pastoreo en libertad para crear nuevos hábitats para la fauna. Wilding es sobre todo una inspiradora historia de esperanza. Obligados a aceptar que la agricultura intensiva en la pesada arcilla de sus tierras en Knepp era económicamente insostenible Isabella Tree y su marido Charlie Burrell dieron un espectacular salto de fe decidieron dar un paso atrás y dejar que la naturaleza se hiciera cargo. Gracias a la introducción de ganado vacuno, ponis, cerdos y ciervos en libertad representantes de los grandes animales que antaño vagaban por Gran Bretaña el proyecto de 3 500 acres ha experimentado un extraordinario aumento del número y la diversidad de la fauna en poco más de una década. Especies extremadamente raras como tortolitas ruiseñores, halcones peregrinos, pájaros carpinteros menores y mariposas emperador propiamente se reproducen ahora en Knepp y las poblaciones de otras especies se están disparando. Las tierras agrícolas degradadas de los Burrell se han convertido de nuevo en un ecosistema funcional lleno de vida por sí mismo.

*The Cambridge History of the Romance Languages: Volume 2, Contexts* Martin Maiden, John Charles Smith, Adam Ledgeway,2013-10-24 What is the origin of the Romance languages and how did they evolve? When and how did they become different from Latin and from each other? Volume 2 of *The Cambridge History of the Romance Languages* offers fresh and original reflections on the principal questions and issues in the comparative external histories of the Romance languages. It is organised around the two key themes of influences and institutions, exploring the fundamental influence of contact with and borrowing from other languages, including Latin, and the cultural and institutional forces at work in the establishment of standard languages and norms of correctness. A perfect complement to the first volume, it offers an external history of the Romance languages combining data and theory to produce new and revealing perspectives on the shaping of the Romance languages.

*Handbook of Western Palearctic Birds, Volume 1* Hadoram Shirihai, Lars Svensson,2018-08-27 The first volume in this incredible series on western palearctic birds. This unique and spectacular handbook is the most complete and comprehensive photographic guide to the passerines of the Western Palearctic. Written by two of the world's most respected ornithologists, Hadoram Shirihai and Lars Svensson, it contains the most up to date information available on bird identification, covering all aspects of plumage, moult, ageing and sexing, with sections on voice and other identification criteria and detailed taxonomic notes. This first volume covers larks, hirundines, pipits and wagtails, bulbuls, accentors, robins, chats, wheatears, thrushes, prinias and cisticolas and warblers. The exceptional text is backed up by a remarkable collection of almost 2 500 photographs featuring a comprehensive range of plumages that illustrate every race and morph of each species in the region. This stunning handbook will be the definitive reference for the region for years to come; no birder's shelf will be complete without it.
