**100 Ideas for Secondary Teachers: Literacy Across the Curriculum** Graham Tyrer, 2018-02-22 No matter what you teach there is a 100 Ideas title for you The 100 Ideas series offers teachers practical easy to implement strategies and activities for the classroom Each author is an expert in their field and is passionate about sharing best practice with their peers Each title includes at least ten additional extra creative Bonus Ideas that won't fail to inspire and engage all learners

As Ofsted says Literacy is a shared responsibility across the curriculum in secondary schools But for subject teachers and school leaders outside of the English department this can seem a daunting task 100 Ideas for Secondary Teachers Literacy Across the Curriculum contains all sorts of strategies and ideas for ensuring that pupils are developing competency in reading and writing in every subject from maths to PE without putting pressure on teachers time and resources The perfect quick reference pocket book this collection of creative and original ideas from English expert Graham Tyrer has something for everyone ensuring all teachers and school staff are able to support students in gaining confidence in literacy By picking and choosing relevant ideas busy teachers can develop both short and long term strategies for cross curricular teaching that really work have an impact on whole school learning and help every pupil reach their potential

Small Steps, Big Changes Chris Confer, Marco Ramirez, 2023-10-10 During the past two decades Chris Confer and Marco Ramirez have worked to deepen and improve mathematics instruction at schools around the country Wherever they go they find the raw ingredients for success already present The potential for positive change lies within each school Abundance is present in the form of capable children teachers coaches and principals Potential energy what can be transforms into kinetic energy what will be only when a force is accurately applied to move a school in the right direction In Small Steps Big Changes Eight Essential Practices for Transforming Schools Through Mathematics the authors identify eight tested principles that transform what can be an overwhelming process into a set of comprehensible and concrete steps Each phase of the change process is brought to life through the stories and perspectives of teachers coaches and principals stories that will strike familiar chords for every educator When teachers make sense of math students learn to make sense of math and that can profoundly change the entire culture of a school In one vivid illustration the authors tell the story of Pueblo Gardens Elementary School in Tucson Arizona where Marco as principal and Chris as instructional coach worked alongside a group of dedicated teachers A few years into the change process Pueblo Gardens a school with 96 percent of its students at the poverty level and a high percentage of English language learners had 94 percent of students meeting or exceeding state standards in third grade mathematics Over time other grades achieved similarly high scores And once the test scores rose they were sustained at high levels

Literacy and Learning in the Content Areas Sharon Kane, 2017-07-05 The 3rd Edition of Literacy Learning in the Content Areas helps readers build the knowledge motivation tools and confidence they need as they integrate literacy into their middle and high school content area classrooms Its unique approach to teaching content

area literacy actively engages preservice and practicing teachers in reading and writing and the very activities that they will use to teach literacy to their own students in middle and high school classrooms. Rather than passively learning about strategies for incorporating content area literacy activities, readers get hands-on experience in such techniques as mapping, webbing, anticipation guides, booktalks, class websites, and journal writing and reflection. Readers also learn how to integrate children's and young adult literature, primary sources, biographies, essays, poetry, and online content communities and websites into their classrooms. Each chapter offers concrete teaching examples and practical suggestions to help make literacy relevant to students' content area learning. Author Sharon Kane demonstrates how relevant reading, writing, speaking, listening, and visual learning activities can improve learning in content area subjects and at the same time help readers meet national content knowledge standards and benchmarks.
