Step By Step Entry Level Remote Jobs For Dads:

The Economics of Gender Equality in the Labour Market Meltem İnce Yenilmez, Gül Ş. Huyugüzel Kışla, 2021-03-07

This book evaluates the global labour market in the context of gender equality and the associated policies and regulations particularly in developing markets to recommend measures for encouraging gender equality. It exposes the barriers that women employees encounter as well as some of the societal and workplace policies they specifically are subject to. Important themes within this topic include participation rates, the looming gap in hourly pay, availability of part time and full time positions, value and social status associated with jobs held by men and women. The book examines how global gender policy objectives such as gender equality in careers, gender balance in decision making and gender dimensions in research can be incorporated into policy frameworks. The book analyzes the gendered nature of assumptions, processes and theories. The juxtaposition between family and work, tradition and modernity and dependency and autonomy clearly still seems to be misunderstood. Therefore the book asks whether work improves women's positions in society and/or changes their roles in their families. The authors explore and uncover the connections among employment, entrepreneurship, migration, economies and gender, global labour markets and provide helpful solutions to the perceptions surrounding women's status, risks and inequality that limit their economic participation. This insightful read provides comprehensive details on a variety of themes and encourages further research on policies that are key to promoting gender equality. The book will appeal to postgraduate students and researchers of labour and feminist economics, the economics of gender, women's studies and sociology.

Leaving Kanchan Bhaskar, 2025-07-30

Raised by two loving parents in New Delhi, India, Kanchan Bhaskar has always been taught that marriage means companionship, tenderness and mutual respect, so when she enters into an arranged marriage, this is the kind of partnership she anticipates with her new seemingly wonderful husband. But after they marry, she quickly discovers that his warmth is deceptive; that the man beneath the bright, charming facade is actually a narcissistic, alcoholic and violent man. Trapped in a nightmare, Kanchan pleads with her husband to seek help for his issues, but he refuses. Meanwhile, Indian law is not on her side, and as the years pass, she finds herself with three children. To protect three children, she fears she will lose custody if she leaves. Almost overnight, she finds herself transformed into a tigress who will do whatever it takes to protect her cubs, and she becomes determined to free them from their toxic father. But it's not until many years later, when the family of five moves from India to the United States, that Kanchan is presented with a real opportunity to leave him, and she takes it. Chronicling Kanchan's gradual climb out of the abyss, little by little, day by day, *Leaving* is the empowering story of how buoyed by her deep faith in a higher power and single-minded in her determination to protect her children best, she fought relentlessly to build a ramp toward freedom from her abuser. In this memoir, Kanchan clearly lays out the tools and methods she utilized in her pursuit of liberation and reveals how belief in self and belief in the Universe can not only be weapons of escape but also beautiful foundations for a triumphant purpose-driven life.
