## **Commonwealth Immigrants:**

Commonwealth Immigrants Robert Barry Davison, 1964      **Commonwealth Immigrants Act, 1962** Great Britain. Home Office, 1966      **Commonwealth Immigration** Bow Group, Christopher Brocklebank-Fowler, Christopher Bland, Tim Farmer, 1965      **Migrants at Work** Cathryn Costello, Mark Freedland, 2014-10-30

There is a highly significant and under considered intersection and interaction between migration law and labour law. Labour lawyers have tended to regard migration law as generally speaking outside their purview and migration lawyers have somewhat similarly tended to neglect labour law. The culmination of a collaborative project on Migrants at Work funded by the John Fell Fund, the Society of Legal Scholars and the Research Centre at St John's College Oxford, this volume brings together distinguished legal and migration scholars to examine the impact of migration law on labour rights and how the regulation of migration increasingly impacts upon employment and labour relations. Examining and clarifying the interactions between migration law and labour law, contributors to the volume identify the many ways that migration law as currently designed divides the objectives of labour law, privileging concerns about the labour supply and demand over worker protective concerns. In addition, migration law creates particular forms of status which affect employment relations, thereby dividing the subjects of labour law. Chapters cover the labour laws of the UK, Australia, Ireland, Israel, Italy, Germany, Sweden and the US. References are also made to discrete practices in Brazil, France, Greece, New Zealand, Mexico, Poland and South Africa. These countries all host migrants and have developed systems of migration law reflecting very different trajectories. Some are traditional countries of immigration and settlement migration, while others have traditionally been countries of emigration but now import many workers. There are nonetheless common features in their immigration law which have a profound impact on labour law, for instance in their shared contemporary shift to using temporary labour migration programmes. Further chapters examine EU and international law on migration, labour rights, human rights and human trafficking and smuggling, developing cross jurisdictional and multi level perspectives. Written by leading scholars of labour law, migration law and migration studies, this book provides a diverse and multidisciplinary approach to this field of legal interaction of interest to academics, policymakers, legal practitioners, trade unions and migrants groups alike.

**The Discourse of Repatriation in Britain, 1845-2016** Daniel Renshaw, 2021-03-04

Examining responses to migration and settlement in Britain from the Irish Famine up to Brexit, *The Discourse of Repatriation* looks at how concepts of removal evolved in this period and the varied protagonists who have articulated these ideas in different contexts. Analysing the relationship between discourse and action, Renshaw explores how ideas and language originating on the peripheries of debate on migration and belonging can permeate the mainstream and transform both discussion and policy. The book sheds light both on how the migrant other has been viewed in Britain historically and contemporaneously and more broadly how the relationship between state, press and populace has developed from the early Victorian period onwards. It identifies key junctures where the concept of the removal of othered groups has

crossed over from the rhetorical to the actual and considers why this was the case Based on extensive original archival research the book reassesses modern British history through the lens of the most polarised attitudes to immigration and demographic change This book will be of use to readers with an interest in migration diaspora the development of populism and political extremes and more broadly the history of modern Britain **Immigration Policy from 1970 to the Present**

Rachel Stevens,2016-02-19 This book examines national debates on immigration asylum seekers and guest worker programs from 1970 to the present Over the past 45 years contemporary immigration has had a profound impact throughout North America Europe and Australasia yet the admission of ethnically diverse immigrants was far from inevitable In the midst of significant social change policymakers grappled with fundamental questions what is the purpose of immigration in an age of mass mobility Which immigrants should be selected and potentially become citizens and who should be excluded How should immigration be controlled in an era of universal human rights and non discrimination Stevens provides an in depth case study comparison of two settler societies Australia and the United States while drawing parallels with Europe Canada and New Zealand Though contemporary immigration history that focuses on one national setting is well established this book is unique because it actively compares how a number of societies debated vexing immigration policy challenges The book also explores the ideas values and principles that underpin this contentious area of public policy and in doing so permits a broader understanding of contemporary immigration than outlining policies alone **Citizenship and Immigration in**

**Postwar Britain** Randall Hansen,2000-06-01 In this contentious and ground breaking study the author draws on extensive archival research to provide a new account of the transformation of the United Kingdom into a multicultural society through an analysis of the evolution of immigration and citizenship policy since 1945 Against the prevailing academic orthodoxy he argues that British immigration policy was not racist but both rational and liberal In this ground breaking book the author draws extensively on archival material and theoretical advances in the social science literature **Citizenship and Immigration in Post war Britain** examines the transformation since 1945 of the UK from a homogeneous into a multicultural society Rejecting a dominant strain of sociological and historical inquiry emphasizing state racism Hansen argues that politicians and civil servants were overall liberal relative to the public to which they owed their office and that they pursued policies that were rational for any liberal democratic politician He explains the trajectory of British migration and nationality policy its exceptional liberality in the 1950s its restrictiveness after then and its tortured and seemingly racist definition of citizenship The combined effect of a 1948 imperial definition of citizenship adopted independently of immigration and a primary commitment to migration from the Old Dominions locked British politicians into a series of policy choices resulting in a migration and nationality regime that was not racist in intention but was racist in effect In the context of a liberal elite and an illiberal public Britain s current restrictive migration policies result not from the failing of its policy makers but from those of its institutions The Acts of the Parliament of the Commonwealth of Australia Passed in the Session of ...
