### **Introduction to Citizenship for Young People in the Commonwealth** Helen Yanacopulos, Sabhita Raju, 2004-01-01

This book teaches young people about the concept and practice of citizenship and how it relates to the Commonwealth. It will help young people to understand how citizens' rights and responsibilities have developed, evaluate those developments, and see how they can participate in defining and using citizens' rights now and in the future. *Educating "Good" Citizens in a Globalising World for the Twenty-First Century* MURRAY PRINT, Chuanbao Tan, 2016-12-14. What is needed to be a good citizen for the twenty-first century? And how can schools and curricula address this question? This book addresses these questions and what it means to be a good citizen in the twenty-first century by exploring this concept in two different but linked countries. China is a major international power whose citizens are in the midst of a major social and economic transformation. Australia is transforming itself into an Asian entity in multiple ways and is influenced by its major trading partner, China. Yet both rely on their education systems to facilitate and guide this transformation as both countries search for good citizens. The book explores the issue of what it means to be a good citizen for the 21st century at the intersection between citizenship education and moral education. The issue of what constitutes a good citizen is problematic in many countries, and how both countries address this issue is vitally important to understanding how societies can function effectively in an increasingly interconnected world. The book contends that citizenship education and moral education in both countries overlap on the task of how to educate for a good citizen. Three key questions are the focus of this book: 1. What is a good citizen in a globalizing world? 2. How can good citizenship be nurtured in schools? 3. What are the implications of the concept of good citizen in education, particularly the school curriculum? Murray Print PhD and Chuanbao Tan PhD are professors from the University of Sydney, Australia, and Beijing Normal University, China, respectively. Both are national leaders within their respective countries and they have brought together a group of leading Australian and Chinese citizenship educators to explore these key questions.

**Respectable Citizens - Shady Practices** Susann Karstedt, Stephen Farrall, 2020-03-30. *Respectable Citizens Shady Practices* seeks to explore a previously neglected aspect of crime in modern society: namely, those crimes that are committed by otherwise respectable citizens in the market arena. The book delves into the grey zone where illegal, unfair, unethical, and shady practices coalesce from the retailers who see themselves as victims of customers who take unfair and often illegal advantage of generous offers, to the consumers sold useless insurance and financial packages and defrauded by small print clauses. The authors outline the contours of the contemporary moral economy driven and shaped by technological innovation as much as new economic policies and ask: is a predatory society emerging from the central sphere of consumption? *Crown Powers, Subjects and Citizens* Christopher Vincenzi, 1998-01-01. Crucial decisions are often made under the royal prerogative in relation to defence, foreign policy, immigration, the secret services, and the management of the Civil Service without prior Parliamentary approval, adequate political accountability, or

effective judicial review On this basis ministers withhold passports override statutes and legislate in the Council of Ministers of the European Community This text examines the historical development and the legal and political scope of prerogative powers and Crown immunities as they affect the exercise of rights by citizens and non citizens It traces the changing relationship between individual and state from subjecthood and allegiance to the Crown in a secretive state to participating in legal and political citizenship in an open society and a widening British and European context It addresses issues of key importance in the current constitutional debate about political and legal accountability citizenship and human rights
