Communication And Culture In War And Peace:

Communication and Culture in War and Peace Colleen Roach, 1993-02-01 Roach provides an excellent account of the contributions of feminist peace researchers to the analysis of cultural militarism and its twin cultural violence against women Altogether this book is a worthy enterprise that will help both activists and scholars gain a more in depth understanding of the barriers to change erected by the media's use of information technology and will be useful in developing scenarios and strategies for the creative use of that technology for peaceful social transformation Elise Boulding in Media Development Does the media have a perverse fascination with war and violence Do television newspapers and magazines neglect the forces of peace in favor of the more dramatic war machines thereby amplifying the guns rather than muting them If so how does media coverage reflect the culture for which it works By exploring the role of both culture and mass media this volume fills a crucial void in the study of war and peace Outstanding scholars provide a history and overview of critical mass media research and investigate emerging issues dealing with the ongoing debate over communication in war and peace Several chapters deal specifically with the role of communication culture in the Gulf War while others discuss more general themes including the military industrial communication complex cultural imperialism and transnational control of communication Many of the essays offer a uniquely feminist reading of war and peace a perspective typically unacknowledged in mainstream communication work This timely book also weaves peripheral concerns like multiculturalism international communication law women and peace and communication technology into the primary themes of media and war The research and practical information given here will be useful for courses in peace and conflict studies international mass communication and intercultural communication Professionals in international relations negotiations and the media will find this book to be both fascinating and illuminating Original research on the coverage of disarmament stories and peace issues in Canadian dailies and Vincent Mosco's excellent blueprint for converting the military machine to a peace system give Roach's work practical and positive dimensions Abstracts at the beginning of the chapters full bibliographies and a preface by the father of peace studies Johan Galtung add to the importance of this book Recommended for anyone interested in the use minuses of mass media to cover up explain promote governmental efforts to keep situations tense and warlike Choice Communication and Culture in War and Peace provides a strategic road map for scholarly and citizen action This is tightly edited passionately and convincingly argued and a broadly conceived book It fills a large gap and is likely to be a widely used seminal resource and text for some time to come George Gerbner Professor of Communication and Dean Emeritus University of Pennsylvania

historical research approaches on the issue of the psychosocial foundations of war and peace with particular emphasis on the importance of the making and unmaking of enemies Annotation copyrighted by Book News Inc Portland OR The Cumulative Book Index, 1994 A world list of books in the English language *A Short History of War and Peace* George Herbert Perris, 1911 **The Discourses of War and Peace** Thelma McCormack, Robert K. Turner, David Pitt, 1989 Drawing parallels between tribal behavior and international relations to demonstrate that societies are not inherently aggressive but are led into conflict when pride or in group pressures push people to fight this profound look at the chilling reality of cold war and its arsenal of nuclear destruction offers valuable new insights into how prejudices and stereotypes contribute to what may seem like an inexorable drift to war Yet the authors conclude that war is not inevitable as they offer suggestions for an end to the arms race in the nuclear age Based on original research this is a long overdue contribution to the study of war and peace in our time and a text for newly emerging courses on the subject **Ten Years of War and Peace** Archibald Cary Coolidge, 1927 *Studies in Witchcraft, Magic, War, and Peace in Africa* Beatrice Nicolini, 2006 This collection of essays offers opportunities towards a better understanding of African societies and their historical role in numerous political and military conflicts and also within peace building processes This book broadens the focus from invocations of the supernatural in military and political mobilizations to rituals of healing in post conflict societies **The Political Economy of War and Peace** Richard K. Ashley, 1980 Responding to the debate stimulated by cultural materialist and new historicist claims that the early modern self was fragmented by forces in Elizabethan England Sherwood argues that the self was capable of unified subjectivity demonstrating that the intersection of Protestant vocation and Christian civic humanism was a stabilizing factor in the early modern construction of self Provided by publisher **Guides to Library of Congress Subject Headings and Classification on Peace and International Conflict Resolution** Judith A. Kessinger, 1990 A unique two in one resource for librarians and scholars Guides provides easy access to complex multidisciplinary information on peace and international conflict The first part of this extremely useful work presents Library of Congress LC headings for relevant subject areas in the humanities social sciences law and military science To make the researcher s task as easy as possible these headings are organized into three sections topics place names and wars and other armed conflicts The second part brings together the classification schedules needed to catalog and locate all kinds of materials related to peace studies Both parts offer the same thorough coverage within carefully selected subject areas and will save students librarians and scholars many hours of painstaking work Created to aid both researchers and collection developers in the rapidly growing field of peace and security studies the book uses familiar LC terminology and structure It was prepared by the Jeannette Rankin Library Program of the

United States Institute of Peace with the cooperation of the Library of Congress Office of Subject Heading Policy This volume is based on the twelfth edition of the Library of Congress Subject Headings plus the additions through October 1989 and on the LC classification schedules through 1988 *Peace and Communication* Tapio Varis, 1986 *Teaching the Sociology of Peace and War* John MacDougall, 1991
