The Communist Movement Fernando Claudín,1975 *The Communist Movement* Fernando Claudin,1975 **The Communist Movement** Fernando Claudín,1975 **The Decline Of The World Communist Movement** Heinz Timmermann,2019-07-11 International Communism today is split on a number of ideological and political issues and is incapable of the kind of unified action implied by the term movement So argues Heinz Timmermann in this assessment of the current state of world Communism Dr Timmermann discusses the historical concept of a world Communist movement in connection with the USSR and China Focusing on Communism in the West he examines such diverse groups as the Communist parties in Italy France Portugal Cyprus Chile and Japan Communist parties in the West are increasingly adjusting their policies to better fit their own cultures and the author links this independence to the emphasis the Soviet Union s Communist Party has been placing on the specifically Russian character of the October Revolution and Soviet state interests Apparently Moscow is now showing some flexibility in its response to tendencies toward differentiation and pluralism within the system of Communist parties Gorbachev is less concerned with ideological orthodoxy than with Communists effectively supporting Soviet foreign policy The author argues that by acceding to the concept of unity in diversity Gorbachev is signaling that the Soviet leadership is willing to look beyond the myth of a world Communist movement *Joseph Stalin* Helen Rappaport,1999-12-13 To get to the top Joseph Stalin outmaneuvered Lenin Trotsky Kirov and a legion of equally ruthless revolutionaries This accessible and easy to read reference work reveals the more personal side of the Machiavellian mastermind who not only orchestrated the Great Terror but also forged the USSR into a world power Joseph Stalin A Biographical Companion offers balanced coverage and makes use of new information from Soviet archives while at the same time avoids mind numbing communist jargon and terminology Also included are scores of rare illustrations some never before published in the West **The Soviet Union in World Politics** Geoffrey Roberts,2005-08-08 The Soviet Union in World Politics provides an introductory history of Soviet foreign policy and international relations from 1945 to the end of the Cold War and the break up of the USSR The book summarizes historical and political controversies about Soviet foreign policy and brings the latest research to bear on these debates The Soviet Union in World Politics interprets the latest evidence available from the Soviet archives and includes summaries of the main events in Soviet Policy from 1917 1945 a framework for student discussion of relevant issues guides to further reading and research exploration of the role of ideology in the Cold War discussion of Stalin s role in the formulation of policy **Dictionary of Politics** Walter John Raymond,1992 **The Promise of Eurocommunism** Carl Marzani,1980 *The Communist Movement: The zenith of Stalinism* Fernando Claudín,1975 **The Role of the Third International (Comintern and Cominform) in Latin America, 1935-1951** Alice Margherite Fracaro,1952 **World War II in Europe** David T. Zabecki,2015-05-01 World War II defined the 20th century and shaped many events from the decolonization of Africa to the rise and fall of the Berlin Wall This encyclopedia

offers a focused overview of this complex and volatile era the circumstances that led up to war the underlying causes its unfolding and consequences Organized for quick and precise access More than 1300 entries by 150 experts are arranged in six sections for easy reference and consultation All the key ideas events actions weapons individuals and organizations that played vital roles in the war are covered from the Axis Pact to the Arab League from the OSS to the Africa Korps from the Chetniks to the Jedburghs from the battle of Kursk to Operation Mincemeat from Bill Donovan to Otto Skorzeny from Gestapo to SMERSH from Georgi Zhukov to Jean Leclerc from the 88 gun to the Norden Bombsight Covers important neglected subjects The Encyclopedia puts special emphasis on the often neglected operations in Eastern Europe and Russia A key section inspects and rates all the major weapons with handy tables for easy comparison And in recognition of the first large scale participation of women in the war the volume thoroughly documents their individual and unit contributions to the Allied effort Finally the encyclopedia discusses battlefield realities that explain for example why the airborne drops at Normandy succeeded and the ones at Arnheim failed A bibliography glossary maps photographs and weapons and data tables enhance the coverage Also includes 16 maps

Changes Socialist Monthly, 1981 *The Communist Movement: Crisis of the Communist International* Fernando Claudín, 1975 **The American Communist Movement** Harvey Klehr, John Earl Haynes, 1992 In *The American Communist Movement Storming Heaven Itself* Harvey Klehr and John Earl Haynes trace the turbulent history of American communism as both political party and social movement Drawing on a wealth of research they follow the party's fortunes from its origin in the aftermath of the Russian Revolution through its heyday during the Depression years to the gradual decline in the post World War II era The authors examine the effect of the party's ideas on groups more in the mainstream of American politics as well as the influence of communist popular front culture on American culture in general While duly acknowledging the idealism of many American communists the authors also take a clear eyed look at the disturbing aspects of the American communist movement its subservience to Moscow its penchant for conspiratorial machinations its bitter internal disputes and purges its always latent and sometimes virulent totalitarianism

Red Spies in America Katherine Amelia Siobhan Sibley, 2004 The most detailed study of Soviet military industrial espionage during the 1930s 1940s and 1950s spying aimed specifically at acquiring restricted information and materials relating to American industry technology and science

The Communist Parties of Italy, France and Spain Peter Lange, Maurizio Vannicelli, 2021-06-29 First published in 1981 *The Communist Parties of Italy France and Spain* presents a comparative and integrative overview of the development of three Communist parties in the postwar Europe Through the systematic presentation of the most important documents of the Communist parties the book provides an access to the basic declarations and positions to illustrate the strategic and ideological evolution of these three parties in the advanced industrial democracies Eurocommunism the editors argue cannot be usefully understood as a phenomenon which suddenly appeared and equally as rapidly disappeared in the 1970s Rather it is a process of adaptation and change which

characterizes the development of all three parties since World War II The explicitly comparative organisation of the documents into five basic themes general strategy alliances party organization international policy policy toward the communist movement allows the reader both to follow any single party in a specific policy area or to compare the parties in response to major domestic or international events of significance Rich in archival material this book will be an invaluable resource to scholars and researchers of European Politics comparative politics comparative communism and modern European history **Historical Abstracts** ,1999 *Congressional Record* United States.
