Communist Politics In North Korea:

Communist Politics in North Korea Ilpyong J. Kim, 1975 From the John Holmes Library collection *North Korea under Communism* Cornell Erik, 2005-07-08 After the collapse of the Soviet world North Korea alone has continued on the rigid communist way in spite of its economic consequences leading the state beyond ruin to famine What are the reasons behind this peculiar choice of direction Why did the leaders in Pyongyang pursue a policy abandoned not only by the Soviet Union but also by China and Vietnam The author of this book spent three years as head of the embassy of Sweden in Pyongyang Until a few years ago it was the only Western embassy in North Korea His unique experiences are related with descriptions of day to day life and with analyses of economic political and ideological conditions A picture is drawn of a society and a political order that defy both human nature and common sense **The ^AReal North Korea** Andrei Lankov, 2013-04-10 In *The Real North Korea* Lankov substitutes cold clear analysis for the overheated rhetoric surrounding this opaque police state Based on vast expertise this book reveals how average North Koreans live how their leaders rule and how both survive *Crisis in North Korea* Andrei Lankov, 2005-01-01 Through his access to Soviet archival material made available only a decade ago contemporary North Korean press accounts and personal interviews Andrei Lankov presents for the first time a detailed look at one of the turning points in North Korean history the country's unsuccessful attempts to de Stalinize in the mid 1950s **Capsule Facts for the Armed Forces**, 1968 North Korea Han S. Park, 1996 Unlike most of the Soviet established socialist regimes North Korea has not experienced and fundamental changes as a result of the demise of the Soviet Union However while it plays an important role and presents a difficult strategic challenge in the international arena little is known about the North Korean system To better understand North Korea we must try to understand the cognitive processes and perceptions of its people To this end North Korea Ideology Politics Economy features first hand balanced accounts from a diverse group of contributors representing ten countries including the former Soviet Union China Poland Czechoslovakia Hungary Bulgaria Germany Japan Canada and the United States *The Foreign Policy of North Korea* Byung Chul Koh, 1969 Communist North Korea United States. Department of the Army, 1971 **Origins of North Korea's Juche** Jae-Jung Suh, 2012-12-07 For over five decades North Korea has outlived many forecasts of collapse despite defects in its system Origins of North Korea's Juche Colonialism War and Development edited by Jae Jung Suh argues that it has survived because of Juche a unique political institution built on the simple notion of self determination whose meanings and limits have been shaped by Koreans experiences with colonialism war and development amidst surrounding superpowers that have complicated their aspirations and plans The authors in this volume collectively provide an historical institutionalist account of North Korean politics organized around the concept of Juche commonly translated as self reliance but best understood as subjecthood or being a master of one's own fate focusing on its role as a response to North Korea's experiences with colonialism the Korean War and economic development The contributors further discuss how Juche

circumscribes the evolutionary path that North Koreans can take as they negotiate contemporary challenges North Korea as it is now is best understood in terms of Juche which embodies the cumulative effect of its historical experiences and responses and its future potential and trajectory as enabled and constrained by its conception of Juche This collection provides fascinating insights into the politics and history of one of the world s most mysterious nations **North Korea Today** Robert A. Scalapino,1983 North Korea's Political and Economic Structure Philip Rudolph,1959 **North Korea's Foreign Relations** Wayne S. Kiyosaki,1976 North Korea Hy-Sang Lee,2000-11-30 As perennial famine and material shortages call into question the tenability of North Korea s military authoritarian government the international community has struggled to reconcile contradictory humanitarian economic and political goals in formulating foreign policy and aid responses to the secretive Pyongyang regime In a historical analysis drawing heavily on primary sources Lee attacks the problem at its root the assumption of policy makers that Pyongyang s belligerence and intractability is an attempt to secure autonomy and national legitimacy in the eyes of the world Rather Lee argues close review of the available evidence demonstrates convincingly that forced reunification with South Korea is the only discernible goal of the Pyongyang government and that the key strategy of the reunification program is a war of attrition against the U S military presence in the South Lee begins with a summary history and moves on to examine the formation of the North Korean communist state in the wake of World War II The implementation of state programs in the 1950s and 1960s follows including the drive towards industrialization the emergence of the Juche ideology and collectivization of agriculture Remaining chapters focus on the recent history of North Korea and offer concluding analysis and remarks **Kim Il Sung in the Khrushchev Era** Balázs Szalontai,2005 Concentrating on the years 1953-64 this history describes how North Korea became more despotic even as other Communist countries underwent de Stalinization The author s principal new source is the Hungarian diplomatic archives which contain extensive reporting on Kim Il Sung and North Korea thoroughly informed by research on the period in the Soviet and Eastern European archives and by recently published scholarship Much of the story surrounds Kim Il Sung his Korean nationalism and eagerness for Korean autarky his efforts to balance the need for foreign aid and his hope for an independent foreign policy and what seems to be his good sense of timing in doing in internal rivals without attracting Soviet retaliation Through a series of comparisons not only with the USSR but also with Albania Romania Yugoslavia China and Vietnam the author highlights unique features of North Korean communism during the period Szalontai covers ongoing effects of Japanese colonization the experiences of diverse Korean factions during World War II and the weakness of the Communist Party in South Korea The Guerilla Dynasty Adrian Buzo,2018-02-19 Throughout the 1990s North Korea has operated under a skeptical international eye due largely to the countrys rigorous self imposed isolation its on going confrontation with South Korea a controversial nuclear arms program and the near total collapse of its economy North Koreas leaders have chosen to face the world with its Stalinist political culture and ideological framework intact for better or

worse and by most reports almost exclusively for the worst. How did this situation come to be and what are its consequences? In *The Guerilla Dynasty* Adrian Buzo gives us an accessible up to date and rigorously researched account of the political economic and foreign policy developments in North Korea since 1945. *From Stalin to Kim Il Sung* Andreï Nikolaevich Lan'kov, 2002 Andrei Lankov traces the formation of the North Korean state and the early years of Kim Il Sung's rule when the future Great Leader and his entourage were consolidating their power base. Surveying the situation in North Korea after 1945 Lankov explores the internal composition of the ruling elite the role of the Soviets and the uneasy relations between various political groups. He also focuses on how in 1956 Kim Il Sung defeated the only known attempt to oust him and thereby established absolute personal rule beyond either Soviet or Chinese control. **The Pueblo Incident** Mitchell B. Lerner, 2002 Mitchell Lerner now examines for the first time the details of this crisis and uses the incident as a window through which to better understand the limitations of American foreign policy during the Cold War. Drawing on thousands of pages of recently declassified documents from President Lyndon Johnson's administration along with dozens of interviews with those involved Lerner provides the most complete and accurate account of the Pueblo incident to date. **BOOK JACKET**

What's Left? What's Right? Muriel Seltman, 2014-03-28 What's Left What's Right is Muriel Seltman's political autobiography. Muriel and her husband were two idealists who joined the Communist Party of Great Britain in 1952 hoping to change the world. They went to work abroad initially in North Korea and then in China where they unexpectedly experienced the early part of the Cultural Revolution. Muriel describes the motivations experiences and struggles she and her husband faced explaining the ideas vs reality of Communism as she saw them acted out offering a unique and detailed first hand account of life in North Korea and China during this tumultuous time. Readers interested in history Marxism Communism or the Chinese Cultural Revolution will find this memoir to be of interest. Weaving together their time as British Communists as well as their experiences in China and North Korea this book gives an overview of Communism in action. This is a revised edition of *What's Left What's Right* which was originally published in 2010. *North Korea* Han S. Park, 2002 **North Korea through the Looking Glass** Kongdan Oh, Ralph C. Hassig, 2004-05-13 Fifty five years after its founding at the dawn of the cold war North Korea remains a land of illusions. Isolated and anachronistic the country and its culture seem to be dominated exclusively by the official ideology of Juche which emphasizes national self reliance independence and worship of the supreme leader General Kim Jong Il. Yet this socialist utopian ideal is pursued with the calculations of international power politics. Kim has transformed North Korea into a militarized state whose nuclear weapons ballistic missiles and continued threat to South Korea have raised alarm worldwide. This paradoxical combination of cultural isolation and military first policy has left the North Korean people woefully deprived of the opportunity to advance socially and politically. The socialist economy guided by political principles and bereft of international support has collapsed. Thousands perhaps millions have died of starvation. Foreign trade has declined and the country's gross domestic product has recorded negative growth every

year for a decade Yet rather than initiate the sort of market reforms that were implemented by other communist governments North Korean leaders have reverted to the economic policies of the 1950s mass mobilization concentration on heavy industry and increased ideological indoctrination Although members of the political elite in Pyongyang are acutely aware of their nation s domestic and foreign problems they are plagued by fear and policy paralysis North Korea Through the Looking Glass sheds new light on this remote and peculiar country Drawing on more than ten years of research including interviews with two dozen North Koreans who made the painful decision to defect from their homeland Kongdan Oh and Ralph C Hassig explore what the leadership and the masses believe about their current predicament Through dual themes of persistence and illusion they explore North Korea s stubborn adherence to policies that have failed to serve the welfare of the people and consequently threaten the future of the regime Featuring twenty nine rare and candid photos taken from within the closely guarded country North Korea Through the Looking Glass illuminates the human society of a country too often mischaracterized for its drab uniformity not a state but a community of twenty million individuals who have through no fault of their own fallen on exceedingly hard times
