

Impact of Crime on Communities

- There are several negative impacts of crime upon an area.
- High levels of crime may **damage community spirit and result in less neighbourliness**. People may simply want to 'keep themselves to themselves' for **fear of harassment**.
- Once a region with a high level of crime is labelling as a bad area, it might **become a ghetto**.
- **Unemployment** may increase as businesses no longer want to run within the community.

Communities And Crime:

Communities and Crime Pamela Wilcox, Francis T. Cullen, Ben Feldmeyer, 2018 This book provides an intellectual history that traces how varying images of community have evolved over time and influenced criminological thinking and criminal justice policy The authors outline the major ideas that have shaped the development of theory research and policy in the area of communities and crime Each chapter examines the problem of the community through a defining critical or theoretical lens the community as social disorganization as a system of associations as a symptom of larger structural forces as a result of criminal subcultures as a broken window as crime opportunity and as a site of resilience Focusing on these changing images of community the empirical adequacy of these images and how they have resulted in concrete programs to reduce crime this book theorizes about and reflects upon why some neighborhoods produce so much crime The result is a tour of the dominant theories of place in social science today *Communities and Crime* Albert J. Reiss, Michael H. Tonry, 1986 How does crime relate to the quality of life in communities What role does fear play in influencing crime patterns What is the effect of crime on a community's school's teachers and pupils How does environmental design affect crime Can household and community mobilization change crime patterns Examining the ways in which communities both affect crime and are affected by it this volume seeks to explain the wide variation of crime levels among different communities As it attempts to redress the bias toward describing crime in terms of individuals *Communities and Crime* brings concentrated attention to crime at a community level suggesting ways in which neighborhoods can change their crime patterns **Communities and Crime Reduction** Tim Hope, Margaret Shaw, 1988 **Communities, Crime and Social Capital in Contemporary China** Lena Zhong, 2013-05-13 This book explores the theoretical and empirical dimensions of community crime prevention in China examining in particular the role of social capital in a rapidly modernizing economic social and political context In doing so it provides a vivid picture of contemporary crime and crime control in China as well as analyzing the very particular Chinese approach to community crime prevention looking at such social institutions as the household registration system the neighbourhood committee the work unit and the public security bureau The particular focus of this book is on BLSCC Building Little Safe and Civilized Communities in the city of Shenshen which has been undergoing rapid change The book looks at two contrasting communities within the city looking at their different characteristics and the differing ways in which social capital operates in relation to crime and crime prevention As well as shedding light on the hitherto largely hidden subject of crime prevention in China this book also makes an important contribution to wider debates about social capital and its potential an invaluable study based on unique research *Crime, Communities, and Public Policy* Chicago Assembly, 1995 **Non-violent Models in Violent Communities** Joseph Jones, 1996 Jones criminal justice and criminology Taylor U explains what interventions work and do not work in high crime Black neighborhoods focusing on the efforts of Christian Community Development Organizations and other non violent community organizations He explores their role and

strategies in crime prevention and the role of race in leadership and service delivery His research earned Jones the Distinguished Dissertation Award from the State University of New York in Albany Double spaced Annotation copyrighted by Book News Inc Portland OR Crime, Community and Locale: The Northern Ireland Communities Crime Survey David O'Mahony, Ray Geary, Kieran McEvoy, John Morison, 2019-01-15 This title was first published in 2000 This text reports on the findings of the Communities Crime Survey a communities based survey carried out within Northern Ireland The survey asked a number of questions beyond the usual remit of local crime surveys in order to explore more fully a whole range of issues relating to the experience of living in a society where more obvious manifestations of conflict are beginning to recede and other more mundane but still important issues relating to crime and policing are coming to the fore The book aims to go behind the headlines of violence and political conflict to examine how people in a range of communities in Northern Ireland experience a whole range of factors relating to crime policing and the general experience of living within their particular communities The process of change is far from over in Northern Ireland and this book indicates how some of the central issues that must be resolved are perceived by a range of ordinary people in various urban and rural communities in religiously segregated and integrated communities and those with different levels of income and social infrastructure The experiences and attitudes gathered are important in understanding how the process of change and development in this society might be advanced and what lessons might be offered to elsewhere The survey ultimately concludes that Northern Ireland is neither a homogeneous entity nor a society that is simply divided on religious and or political grounds Rather it is a society that is divided by religion and politics but also by a number of other variables including geography gender age socio economic class and ethnic origin all of which in part influence people's experiences and attitudes towards crime and policing

NIJ Program Plan, 1993 National Institute of Justice (U.S.), 1993 **Communities, Identities and Crime** Basia Spalek, 2008 This title provides a critical and refreshing perspective on the most significant developments in relation to equality and diversity issues that feature in the policies and practices of all criminal justice agencies **Crime and Disorder in Community Context** Rebecca Wickes, Lorraine Mazerolle, 2021 Community dynamics shape the way communities function Areas that suffer from high levels of crime and disorder often experience decreased social capital declining property values slow economic development and high levels of fear of victimization among residents Changing the dynamics that foster crime problems across urban communities is a challenge for policy makers police residents and local stakeholders Drawing on unique longitudinal data at the community level *Crime and Disorder in Community Context* entwines current ecological theories of crime with key debates on the relevance of community in contemporary urban life to examine the spatial and temporal relationships between community structure community social capital informal social control and the occurrence of crime and disorder Community Criminology Ralph B. Taylor, 2015-01-09 For close to a century the field of community criminology has examined the causes and consequences of community crime and delinquency

rates Nevertheless there is still a lot we do not know about the dynamics behind these connections In this book Ralph Taylor argues that obstacles to deepening our understanding of community crime links arise in part because most scholars have overlooked four fundamental concerns how conceptual frames depend on the geographic units and or temporal units used how to establish the meaning of theoretically central ecological empirical indicators and how to think about the causes and consequences of non random selection dynamics The volume organizes these four conceptual challenges using a common meta analytic framework The framework pinpoints critical features of and gaps in current theories about communities and crime connects these concerns to current debates in both criminology and the philosophy of social science and sketches the types of theory testing needed in the future if we are to grow our understanding of the causes and consequences of community crime rates Taylor explains that a common meta theoretical frame provides a grammar for thinking critically about current theories and simultaneously allows presenting these four topics and their connections in a unified manner The volume provides an orientation to current and past scholarship in this area by describing three distinct but related community crime sequences involving delinquents adult offenders and victims These sequences highlight community justice dynamics thereby raising questions about frequently used crime indicators in this area of research A groundbreaking work melding past scholarly practices in criminology with the field s current needs Community Criminology is an essential work for criminologists *NIJ Program Plan* National Institute of Justice (U.S.),1993 Design Out Crime Ian Colquhoun,2004 In a modern world crime and vandalism are commonplace and the need to design buildings and their environments to reduce the potential for crime has become ever more critical This book offers a set of best practice guidelines through accessible case studies and illustrations **Crime Prevention Through Environmental Design** Garland F. White,2006 This book argues that the level of social and physical capital in communities can influence the amount of crime Communities are conceived as varying across positive weak or negative levels of social and physical capital Negative social and physical capital produce higher levels of disorder and crime Conversely positive social and physical capital enables residents to lower social problems in communities Weak social and physical capital allows more disorder because the community s defenses against crime and disorder are not strong enough to combat these problems The general perspectives include broken windows defensible space hot spots collective efficacy social disorganization underclass gang communities the post industrialized communities and routine activities theory The ameliorative programs include the weed and seed program the moving to opportunity program community policing and empowerment zones Community Justice John R. Hamilton Jr.,Todd R. Clear,John R Hamilton, Jr.,Eric Cadore,2010-12-08 Community Justice discusses concepts of community within the context of justice policy and programs and addresses the important relationship between the criminal justice system and the community in the USA Taking a bold stance in the criminal justice debate this book argues that crime management is more effective through the use of informal as opposed to formal social control It demonstrates how an increasing number of

criminal justice elements are beginning to understand that the development of partnerships within the community that enhance informal social control will lead to a stabilization and possibly a decline in crime especially violent crime and make communities more liveable Borrowing from an eclectic toolbox of ideas and strategies community organizing environmental crime prevention private public partnerships justice initiatives Community Justice puts forward a new approach to establishing safe communities and highlights the failure of the current American justice system in its lack of vision and misuse of resources Providing detailed information about how community justice fits within each area of the criminal justice system and including relevant case studies to exemplify this philosophy in action this book is essential reading for undergraduate and postgraduate students of subjects such as criminology law and sociology

Crime and Justice in America Leonard Territo, James Halsted, Max Bromley, 1998 A comprehensive introduction to criminal justice with a focus on the human perspective Coverage of violent crimes in America such as mass murders carjackings hate crimes and domestic violence has been increased Each chapter presents cases articles summaries issue papers and discussions

Encyclopedia of Criminology J. Mitchell Miller, Richard A. Wright, 2013-12-17 This three volume work offers a comprehensive review of the pivotal concepts measures theories and practices that comprise criminology and criminal justice No longer just a subtopic of sociology criminology has become an independent academic field of study that incorporates scholarship from numerous disciplines including psychology political science behavioral science law economics public health family studies social work and many others The three volume Encyclopedia of Criminology presents the latest research as well as the traditional topics which reflect the field's multidisciplinary nature in a single authoritative reference work More than 525 alphabetically arranged entries by the leading authorities in the discipline comprise this definitive international resource The pivotal concepts measures theories and practices of the field are addressed with an emphasis on comparative criminology and criminal justice While the primary focus of the work is on American criminology and contemporary criminal justice in the United States extensive global coverage of other nations justice systems is included and the increasing international nature of crime is explored thoroughly Providing the most up to date scholarship in addition to the traditional theories on criminology the Encyclopedia of Criminology is the essential one stop reference for students and scholars alike to explore the broad expanse of this multidisciplinary field

Crime and Planning Derek J. Paulsen, Ph.D., 2012-11-07 The form and layout of a built environment has a significant influence on crime by creating opportunities for it and in turn shaping community crime patterns Effective urban planners and designers will consider crime when making planning and design decisions A co publication with the American Planning Association Crime and Planning Building Socially Sustainable Communities presents a comprehensive discussion of the interconnections between urban planning criminal victimization and crime prevention An introduction into the main concerns at the intersection of criminology and community planning the book first provides an overview of crime patterns It then explores major issues within planning and their impact on crime Critical topics discussed

include connectivity mixed use developments land use and zoning transit oriented design and pedestrian trails greenways and parks The remaining chapters explore Crime prevention theories Crime prevention as a central component of sustainability How to incorporate social sustainability and planning guidelines into local planning decisions Policy discussion of issues such as zoning How tools such as smart growth and form based codes relate to crime and crime prevention Examples of how planning decisions can impact crime patterns in both a residential and retail setting and what has already worked in real world communities As communities continue to grapple with foreclosure sprawl and infill redevelopment a sound understanding of how the built environment impacts crime is of increasing importance This book provides planners with the tools and knowledge necessary to minimize the impact of crime on communities with the goal of creating socially sustainable communities **The New Criminal Justice** John Klofas,Natalie Kroovand Hipple,Edmund

McGarrell,2010-02-25 Criminal Justice in the United States is in the midst of momentous changes an era of low crime rates not seen since the 1960s and a variety of budget crunches also exerting profound impacts on the system This is the first book available to chronicle these changes and suggest a new emerging model to the Criminal Justice system emphasizing collaboration across agencies previously viewed as relatively autonomous a focus on location problems and local solutions rather than a widely shared understanding of crime or broad application of similar interventions a deep commitment to research which guides problem assessment and policy formulation and intervention Ideal for use in graduate as well as undergraduate capstone courses **Policing Communities** Ronald W. Glensor,Kenneth J. Peak,Mark E. Correia,2000 Introduces students to the field of Community Oriented Policing and Problem Solving COPPS This book emphasizes the role that the community plays in developing effective strategies for controlling and preventing crime methods the police are using to examine the context of crime and procedures that agencies are using to implement COPPS
