Palliative Care for Chronic Cancer Patients in the Community Michael Silbermann, 2020-10-29 The new global cancer data suggests that the global burden has risen to 18.1 million new cases per year and 9.6 million cancer deaths per year A number of factors appear to be driving this increase in particular a growing and aging global population and an increase of exposure to cancer risk factors linked to social and economic development For rapidly growing economies the data suggests a shift from poverty or infection related cancers to those associated with lifestyles more typical in

industrialized countries There is still large geographical diversity in cancer occurrence and variations in the magnitude and profile of the disease between and within world regions There are specific types of cancer that dominate globally lung female breast and colorectal cancer and the regional variations in common cancer types signal the extent to which societal economic and lifestyle changes interplay to differentially impact on the profile of this most complex group of diseases Unfortunately despite advances in cancer care a significant proportion of patients at home experience sub optimal outcomes Barriers to successful treatment outcomes include but are not limited to access to oncologists in the primary health centers non adherence lack of experienced oncology and palliative care nurses in the community inadequate monitoring and the lack of training of family and pediatric physicians Telemedicine approaches including telephone triage education telemonitoring teleconsultation and status tracking through mobile applications have shown promise in further improving outcomes in particular for chronic cancer patients following their hospitalization Lessons can be learned from existing hospices in North America the United Kingdom Australia Centers of Excellence in African Uganda and modern community services in India Kerala An important goal of this book is to describe and encourage professionals to develop new community programs in palliative care which include training and empowering physicians and nurses in the community on the principles of palliative care The Middle East Cancer Consortium MECC together with the American Society of Clinical Oncology ASCO and the American Oncology Nursing Society ONS have conducted multiple courses ranging from basic palliative care to more specialized training in palliative care for multiple nationalities in Europe Asia and Africa Our experience clearly indicates that to promote such activities one needs strong leadership and confirmed political will to support the endeavor The new book will emphasize the importance of having a core of multiple stakeholders including community leaders government NGOs and media to be actively involved in advocating for the cause and generating public awareness This text will provide the reader with a comprehensive understanding of the outside of the hospital treatment of cancer patients by medical paramedical and volunteer personnel In doing so this text will encourage the creation of new palliative care services improving upon the existing ones and stimulate further research in this field Part 1 of the text will begin with an overview of the current state of affairs of services provided to cancer patients while being cared for by primary health centers It will also review the current literature regarding medical and psychological based therapy options in the community for cancer patients at different stages of their disease Part 2 will address the unique role of the community nurse within the framework of the multidisciplinary team treating the patient in the attempt to provide optimal evaluation and care in very challenging situations such as with terminal patients Part 3 will provide insightful models of this new discipline and serve as a valuable resource for physicians nurses social workers and others involved in the care of cancer patients The book will take a multidisciplinary approach integrating clinical and environmental data for practical management to enhance the efficacy of treatment while relieving suffering Part 4 will also discuss the application of modern technological approaches to track

symptoms quality of life diet mobility duration of sleep and medication use including pain killers in chronic cancer patients in the community Part 5 of the book will also be devoted to modes of developing a collaborative program between governmental and non governmental organization sectors This includes volunteer workers in close collaboration with medical professionals for providing emotional and spiritual support nursing care nutritional support and empowering family caregivers Such a model makes palliative care in the community a people s movement thus transferring part of the responsibility and ownership to the community *Public and Community Health Nursing Practice* Demetrius James Porche,2003-11-20 Click Additional Materials for downloadable sample chapter This text is needed very badly especially with advanced practice Most graduate nursing programs focus on primary care and an important component of primary care is community health and public health issues This book contains much needed information required for advanced nursing practice in primary care I know of no other text so complete Jacqueline Rhoads Louisiana State University Health Sciences Center A very comprehensive approach to public health community health I feel that the content and direction are very much needed Clair P Millet APRN MN CNS Louisiana Office of Public Health Public health practice focuses on the prevention of disease and disability as a means of promoting the health of individuals and their communities Achieving this is dependent on nurses and public health practitioners implementing the core functions of practice assessment assurance and policy development Because the public health workforce is composed of individuals from a number of disciplines with varying areas of expertise there is a clear need for a thorough examination of the core competencies necessary for successful public health based on community needs Developed as an advanced text for students in public and community health nursing *Public and Community Health Nursing Practice* presents a comprehensive summary of the core functions of population based practice This practice is the cornerstone of the Healthy People 2010 national objectives and the foundation upon which the health of a given community may be ensured The book s population based approach theoretical content and emphasis on evidence based research are perfectly suited for faculty and students in nursing public health and behavioral medicine Author Demetrius James Porche also includes current public health and nursing practice making this a unique and indispensable reference for public and community health nurses and nursing administrators as well as practitioners in other specialties such as family or primary care nursing The book also includes appendices illustrations tables and chapter summaries that reiterate important public and community population based health nursing content Topics Covered Behavioral health and public health organizations Community health nursing leadership Community level interventions and development Cultural competence Environmental and community assessments Epidemiology Population based public health Program monitoring evaluation and improvement Program planning Public health policy law and ethics Public health research Public health systems and infrastructure Key Features Demonstrates and emphasizes the population and evidence based approach Includes Healthy People 2010 objectives with an emphasis on primary prevention and health promotion Contains abundant pedagogical features including

Community Based Nursing Care Introduction

In today's digital age, the availability of Community Based Nursing Care books and manuals for download has revolutionized the way we access information. Gone are the days of physically flipping through pages and carrying heavy textbooks or manuals. With just a few clicks, we can now access a wealth of knowledge from the comfort of our own homes or on the go. This article will explore the advantages of Community Based Nursing Care books and manuals for download, along with some popular platforms that offer these resources. One of the significant advantages of Community Based Nursing Care books and manuals for download is the cost-saving aspect. Traditional books and manuals can be costly, especially if you need to purchase several of them for educational or professional purposes. By accessing Community Based Nursing Care versions, you eliminate the need to spend money on physical copies. This not only saves you money but also reduces the environmental impact associated with book production and transportation. Furthermore, Community Based Nursing Care books and manuals for download are incredibly convenient. With just a computer or smartphone and an internet connection, you can access a vast library of resources on any subject imaginable. Whether you're a student looking for textbooks, a professional seeking industry-specific manuals, or someone interested in self-improvement, these digital resources provide an efficient and accessible means of acquiring knowledge. Moreover, PDF books and manuals offer a range of benefits compared to other digital formats. PDF files are designed to retain their formatting regardless of the device used to open them. This ensures that the content appears exactly as intended by the author, with no loss of formatting or missing graphics. Additionally, PDF files can be easily annotated, bookmarked, and searched for specific terms, making them highly practical for studying or referencing. When it comes to accessing Community Based Nursing Care books and manuals, several platforms offer an extensive collection of resources. One such platform is Project Gutenberg, a nonprofit organization that provides over 60,000 free eBooks. These books are primarily in the public domain, meaning they can be freely distributed and downloaded. Project Gutenberg offers a wide range of classic literature, making it an excellent resource for literature enthusiasts. Another popular platform for Community Based Nursing Care books and manuals is Open Library. Open Library is an initiative of the Internet Archive, a non-profit organization dedicated to digitizing cultural artifacts and making them accessible to the public. Open Library hosts millions of books, including both public domain works and contemporary titles. It also allows users to borrow digital copies of certain books for a limited period, similar to a library lending system. Additionally, many universities and educational institutions have their own digital libraries that provide free access to PDF books and manuals. These libraries often offer academic texts, research papers, and technical manuals, making them invaluable resources for students and researchers. Some notable examples include MIT OpenCourseWare, which offers free access to course materials from the Massachusetts Institute of Technology, and the Digital Public Library of America, which provides a vast collection of digitized books and historical documents. In conclusion, Community Based Nursing Care books and manuals for download

have transformed the way we access information. They provide a cost-effective and convenient means of acquiring knowledge, offering the ability to access a vast library of resources at our fingertips. With platforms like Project Gutenberg, Open Library, and various digital libraries offered by educational institutions, we have access to an ever-expanding collection of books and manuals. Whether for educational, professional, or personal purposes, these digital resources serve as valuable tools for continuous learning and self-improvement. So why not take advantage of the vast world of Community Based Nursing Care books and manuals for download and embark on your journey of knowledge?
