**Community Development and Urban Deprivation** Marjorie Mayo, 1974      **Deprivation, State Interventions and Urban Communities in Britain, 1968-79** Peter Shapely, 2017-08-16 Focusing on a series of policy initiatives from the late 1960s through to the end of the 1970s this book looks at how successive governments tried to address growing concerns about urban deprivation across Britain It provides unique insights into policy and governance and into the socio economic and cultural causes and consequences of poverty Starting with the impact of redevelopment policies immigration and the rise of the inner city this book examines the pressures and challenges that explain the development of policy by successive Labour and Conservative governments It looks at the effectiveness and limits of different community development approaches and at the inadequacies of policy in tackling urban deprivation In doing so the book highlights the restricted impact of pilot projects and reform of public services in resolving deprivation as well as the broader limits of social planning and state welfare Crucially it also plots the shift in policy from an emphasis on achieving statutory service efficiencies and rolling out social development programmes towards an ever greater stress on regeneration and support for private capital as the solution to transforming the inner city      **Study Group on Community Development and Urban Deprivation**

Filner,2001 Community development is a complex approach to reducing poverty and empowering citizens It involves thousands of Americans whose intentions are noble and often successful Community developers have built affordable housing created jobs and attracted businesses Importantly community developers have enacted these changes with a strong commitment to citizen participation developed in the mid sixties Since its creation community development has evolved from a few participatory and civil rights

orientated organizations to a growth oriented incorporated set of institutions In the process community development has become a central feature of urban public policy and receives widespread support Despite the strengths of community development and its participatory character a deeper examination of citizen based empowerment and economic development programs suggests that there are limits to community development While poor citizens are involved in community organizations property owners and others consistently overpower them due to wealth and access disparities Participation without the benefits of wealth does not necessarily translate into more political power In addition economic growth does not necessarily lead to greater economic equality Growth often undermines equality by forcing poor citizens to support projects with only limited benefits Large downtown projects for example primarily benefit wealth developers and those who work downtown Community developers must support these projects because their main sources of funding the Low Income Housing Tax Credit program LIHTC and Tax Increment Financing schemes TIF depend on large development projects Community developers are therefore structurally forced to support the very kinds of growth that create economic and political inequalities Community development has therefore become incorporated in the growth regime through which power structurally limits the freedom of low wealth citizens The component chapters explore how community development evolved from a participatory effort to mitigate poverty inspired by civil rights activists and the New Left into an incorporated set of institutions committed to growth
