What is Community Justice? Todd R. Clear, David R Karp, 2002-01-28 Past methods of probation and parole supervision have largely relied on caseworkers who monitor their clients as well as they can But as numbers of clients increase studies indicate that this model is ineffectual The time has come to significantly rethink the approaches to community supervision As described in What Is Community Justice the aim of the new efforts is to explicitly integrate the community and the criminal justice process in probation programs There are five key goals that this book addresses to achieve this end The building of partnerships between community supervision agencies and the community Expanding the client definition to include the victim of crime the family of the offender and the community itself Focus on places agencies must take into account important local differences in neighborhoods Preventing problems between the community and the client rather than reacting to them Adding value to community life This book addresses the specific ways of achieving these goals by presenting six case studies of probation programs that represent a practical side of the community justice ideal What emerges is a provocative and enlightening new approach to the problems of probation and parole

Community Justice Todd R. Clear, Eric Cadora, 2003 Part of the Wadsworth Contemporary Issues in Crime and Justice series this text is a formative work that discusses the concepts of community within the context of justice policy and programs This philosophy ties together a number of influential changes in the system the success of problem solving policing the expansion of community courts experiments in neighborhood probation and the influence of restorative justice Clear and Cadora analyze how these changes in the system are a dramatic shift that illuminates how concerns for social justice merge with criminal justice innovations to provide new solutions to many system ills under the banner of Community Justice

Dammer, 2000 A thoroughly modern approach to community based corrections this comprehensive and logically organized book presents in a balanced fashion all the alternatives to institutionalization including electronic monitoring house arrest day treatment boot camp and fines The book also emphasizes the human aspects of this growing field
