Community And Class In American Education 1865 1918:

Community and Class in American Education, 1865-1918 Patricia Albjerg Graham, 1974 **Community and Class in American Education, 1865-1918** Patricia Albjerg Graham, 1974-01-01 **Sextus Julius Africanus und die byzantinische Chronographie** Gelzer, 1880 *Schooled to Order* David Nasaw, 1981 Argues that as public schools became integral to the maintenance of American lifestyles they increasingly reflected the primary tensions between democratic rhetoric and the reality of a class divided system **Handbook of Research on School Violence in American K-12 Education** Crews, Gordon A., 2018-10-12 In recent years the United States has seen a vast increase in bloodshed stemming from violence within the education system Understanding the underlying factors behind these atrocities may be the first step in preventing more brutality in the future The Handbook of Research on School Violence in American K 12 Education provides emerging research exploring the theoretical and practical aspects of the phenomena of school violence through the lens of social science and humanities perspectives Featuring coverage on a broad range of topics such as preventative measures cyberbullying minority issues risk factors and dealing with the traumatic aftermath of such events this book is ideally designed for researchers students psychologists sociologists teachers law enforcement school counselors policymakers and administrators seeking current research on the interconnectedness between families schools bullying and subsequent violence **The Problem of College Readiness** William G. Tierney, Julia C. Duncheon, 2015-03-30 Though more students are entering college many drop out especially those who are low income and or of color To address this problem educational stakeholders have focused on the concept of college readiness or the preparation a student needs to succeed in college However what it means to be college ready and how to help more students become ready are questions without clear answers By way of historical and contemporary analyses this book uses California as a case study to demonstrate how the state has endeavored to make postsecondary opportunity accessible for all students The contributors also explore the challenges that remain and address what states and schools can do to improve college readiness and completion **The Legacy of Black Women in Librarianship** Nicole A. Cooke, 2025-04-23 Black women have historically been hidden figures in librarianship yet their passion courage and tenacity paved the way for future generations of knowledge workers Profiling more than a dozen librarians book champions activists and pioneers of the profession from across the country this powerful work of archival storytelling will inspire readers both inside and outside of the library field These personal histories of advocacy and resilience span the entire 20th Century stretching from rural South Carolina and Florida to urban centers like New York and Los Angeles profile better known figures such as Augusta Baker and Eliza Atkins Gleason as well as many who have yet to receive their due grapple with the toxic legacy of segregation in library education universities public libraries schools and other institutions showing how these persevering Black women dared to strive and work towards more equitable futures include an inspiring Afterword by Dr Aisha Johnson Jones an educator and revelator of Southern intellectual history

will encourage LIS students and newer librarians of all backgrounds to see themselves reflected in the profession's long and rich heritage and shed light on how librarianship can become ever more diverse and community centered

The Encyclopedia of New York State Peter Eisenstadt, 2005-05-19 The Encyclopedia of New York State is one of the most complete works on the Empire State to be published in a half century. In nearly 2,000 pages and 4,000 signed entries, this single volume captures the impressive complexity of New York State as a historic crossroads of people and ideas, as a cradle of abolitionism and feminism, and as an apex of modern urban, suburban, and rural life. The Encyclopedia is packed with fascinating details from fields ranging from sociology and geography to history. Did you know that Manhattan's Lower East Side was once the most populated neighborhood in the world, but Hamilton County in the Adirondacks is the least densely populated county east of the Mississippi? New York is the only state to border both the Great Lakes and the Atlantic Ocean; the Erie Canal opened New York City to rich farmland upstate and to the west. Entries by experts chronicle New York's varied areas, politics, and persuasions with a cornucopia of subjects from environmentalism to higher education to railroads, weaving the state's diverse regions and peoples into one idea of New York State. Lavishly illustrated with 500 photographs and figures, 120 maps, and 140 tables, the Encyclopedia is key to understanding the state's past, present, and future. It is a crucial reference for students, teachers, historians, and business people for New Yorkers of all persuasions and for anyone interested in finding out more about New York State.

AHA Perspectives, 1984

Juvenile Delinquency Christopher A. Mallett, Miyuki Fukushima Tedor, 2025-08-12 Juvenile Delinquency: Pathways and Prevention, Second Edition, explores the pivotal roles that family, trauma, mental health, and schools have on juvenile delinquency while examining opportunities for prevention and intervention. Authors Christopher A. Mallett and Miyuki Fukushima Tedor draw from years of experience working with juvenile offenders to shed light on the nature of delinquency and the diverse pathways to juvenile delinquency while offering evidence-based techniques for preventing and rehabilitating youthful offenders. Each chapter features interactive and critical thinking sections alongside special interest boxed features designed to move students beyond memorization while guiding them to develop informed recommendations for better practices and policies.

Women & Men Dana Vannoy, Robin Ann Sheets, 1977

The Westchester Historian, 1986

The International Who's Who, 1989-90, 1989

The Future of Educational Studies George W. Noblit, Beth Hatt-Echeverria, 2003 Annotation: This book represents a millennial point of reflection in the history of educational studies and its future. The trajectory of educational studies is especially interesting due to shifts that have occurred concerning knowledge and identity, particularly how they encounter one another. The chapters are largely drawn from presentations made at the American Educational Studies Association. They reflect educational studies on the ground as practiced by members in the field and represent the future of educational studies: the redefinition of disciplines, the link between ideas and practice, and a critique of the assumptions within taken-for-granted knowledge. The Future of Educational Studies provides an excellent overview of educational studies and current examples of the range of

work being done in the field **Taking Sides** ,1985 **Women at Michigan** Ruth Bordin,1999-03-23 Revisits the opportunities and obstacles that have faced women students faculty and administrators at the University of Michigan through the decades Trad Amern Educ Cremin,1979-03-08 The first lecture dealing with the period from the beginnings of colonization to the achievement of independence is derived essentially from American Education The Colonial Experience which was published in 1970 My theme there is the successful transplantation of European educational institutions to the New World and their gradual modification under novel conditions The second lecture dealing with the first century of nationhood is drawn from American Education The National Experience which has been fully drafted but not yet published My theme there is the development of an authentic American vernacular in education expressly intended to advance a popular paideia compounded of democratic hopes evangelical pieties and millennial expectations And the third lecture dealing with the period since Reconstruction is based on American Education The Metropolitan Experience which has been substantially sketched but not yet fully drafted My theme there is the transformation and proliferation of American educative agencies under the influence of industrialization urbanization technological innovation and transnational expansion As in the larger work I have defined education broadly as the deliberate systematic and sustained effort to transmit evoke or acquire knowledge attitudes values skills or sensibilities as well as any outcomes of that effort And I have given particular attention in the lectures to the changing configurations of education at different times in American history and to the various ways in which individuals have interacted with those configurations The more general theory underlying all this is explicated in the note on problematics and sources appended to the lectures and is further elaborated in Public Education which may be regarded as a companion to the present volume Preface **National Union Catalog** ,1978 Includes entries for maps and atlases American Book Publishing Record Cumulative, 1950-1977: Title index R.R. Bowker Company. Department of Bibliography,1978 History of Education Society Bulletin ,1976
