Community And Local Governance In Australia:

Community and Local Governance in Australia Paul Smyth, Tim Reddel, Andrew Jones, 2005 This book examines the resurgence in Australia of locality based social policy concerned with the spatial dimensions of disadvantage after the political failures of the market oriented approach to regional reform The book proposes that these trends are leading to a new post competition policy regime in Australia that mirrors global policy trends Australian Local Government Brian Dollery, Neil Marshall, 1997 The last few years have seen unprecedented change taking place in the Australian local government arena In all states the functions and responsibilities of local authorities have been subjected to extensive reform New legislation has redefined the role of councillors Local governments have been required to introduce more efficient and effective management practices and become more open and responsive to their constituencies The scope of traditional regulatory practices has been altered and councils forced to develop a competitive environment for the provision of services The place of local authorities in the intergovernmental landscape has also changed Different forms of interaction between Commonwealth state and local government are evolving along with the emergence of new funding strategies to encourage a regional focus This is the first book to offer a detailed discussion of the reforms that have taken place and at the same time provide an informative and readable analysis for practitioners and students of government politics and public sector management *Local Government in a Global World* Emmanuel Brunet-Jailly, John F. Martin, 2010-01-01 Contributors provide insights into key themes impacting local governance in two federations with much in common historically culturally and politically Australia and Canada These essays examine changes in the Australian and Canadian systems through four thematic lenses citizen participation in government systems the restructuring and reform of local governments the use of performance measures and management systems in the administration of local governments and the relations of local governments within higher levels of governments **OECD Rural Studies Linking Indigenous Communities with Regional Development in Australia** OECD, 2020-12-14 Indigenous Australians play an important role in the development of regional economies Compared to the non Indigenous population Indigenous peoples are more likely to be located in predominantly rural regions However significant gaps in socio economic outcomes with non Indigenous Australians remain and these gaps are larger in rural regions The report provides three key recommendations to improve economic outcomes for Indigenous Australians **Divided we Fall: An Insider's Perspective on Local Government Amalgamations** Dr Ian Tiley, 2012-12-11 Recent Australian local government structural reform has manifested as council amalgamations and predominantly as imposed merger processes This book examines council amalgamations across Australia over the past two decades and uncovers the case of council amalgamation in the NSW Clarence Valley Council CVC since 2004 The case of forced amalgamation of four general purpose and two county councils could have been a recipe for chaos instead this book describes the gains and the challenges Writing from deep seated knowledge of local government this book details the net

positive economic outcomes and financial benefits against measurable indicators and describes the impacts on local democracy Based on detailed research this long term local government insider perspective will be of value to all those interested in driving change through local government reform *The Theory and Practice of Local Governance and Economic Development* Mark Considine, Sylvain Giguere, 2008-02-14 One of the key issues for the prosperity of our societies in a globalised economy is to connect public policies together to achieve maximum results Policy makers and practitioners in key public and private agencies need to learn how to collaborate to create joint decision processes to evaluate the effects of new governance partnerships and to become more efficient in the use of engagement tools This book develops a conceptual map for this new area of practice and provides leading cases from different OECD countries to help practitioners plan for this form of innovation **Australian National Bibliography** ,1978 **Partnership Protocols** ,1990 *Local Government in Australia* Donald M.
