Wilkinson, 2023-03-15 *The Community in Rural America* by Kenneth P. Wilkinson is a foundational theoretical work that both defines the interactional approach to the study of the community in rural areas and frames its application to encourage and promote rural community development Recognized for its detailed theoretical construction and logic for understanding human interactions this book has been widely adopted and used by researchers extension faculty and community development practitioners for over thirty years Presenting Wilkinson's groundbreaking work in its original form with a new foreword aimed at clarifying several key concepts in interactional theory this edition of *The Community in Rural America* will appeal to new students of the community as well as established scholars in the field *The Lost City* Alan Ehrenhalt, 1996-08-23 Millions of Americans yearn for a lost sense of community for the days when neighbors looked out for one another and families were stable and secure The 1950s are regarded as the golden age of community but 1960s rebellion and 1980s nostalgia have blurred our view of what life was really like back then In *The Lost City* Alan Ehrenhalt cuts through the fog immersing us in the sights sounds and rhythms of life in America forty years ago He takes us down the streets and into the homes schools and shops of three neighborhoods in one quintessentially American city Chicago In St Nicholas of Tolentine parish on the Southwest Side we see how the local Catholic church served as the moral and social center of community life In Bronzeville the heart of the black South Side we meet the civic leaders who offered hope and role models to people hemmed in by poverty and segregation And in Elmhurst a commuter suburb bursting with new subdivisions we witness the culture of middle class conformity and the ways in which children and adults bent to the rules of the majority culture Through evocative stories and incisive analysis Ehrenhalt shows that the glue holding each neighborhood together was an unstated social compact under which people accepted limits in their lives and deferred to authority figures to enforce those limits a compact destroyed by the baby boomers rejection of authority in the 1960s Since that time an entire generation has come to believe that personal choice is the most important of life's values But Ehrenhalt argues that if we truly wish to balance the demands of modern life with a feeling of community we have a great deal to learn from the limited life of the 1950s *The Lost City* reveals the price we must pay to restore community in our lives today and the values that will make such a restoration possible *From Main Street to State Street* Park Dixon Goist, 1977 *Seeking Many Inventions*

**Commonplaces** David Mark Hummon, 1990-01-01 This book interprets popular American belief and sentiment about cities suburbs and small towns in terms of community ideologies Based on in depth interviews with residents of American communities it shows how people construct a sense of identity based on their communities and how they perceive and explain community problems e g why cities have more crime than their suburban and rural counterparts in terms of this identity Hummon reveals the changing role of place imagery in contemporary society and offers an interpretation of American culture by treating commonplaces of community belief in an uncommon way as facets of competing community ideologies He argues that by adopting such ideologies people are able to make sense of reality and their place in the everyday world
