*School Shop*, 1984 *Tractors and their Power Units* D. Smith, 2012-12-06 At the time of the writing of the fourth edition of this textbook the agricultural economy in the United States and Canada was depressed The prices paid to farmers for their grain crops were very low and consequently most farmers in North America could not afford to buy a new tractor when needed there fore the sales of tractors and other farm machines were much below normal The farmer who was the victim of the depressed economy was forced to make do Instead of purchasing a new tractor when the old one needed to be replaced the farmer usually purchased a used or second hand tractor or repaired the old one In a strict sense tractors usually do not wear out instead they become obsolete The farmer who owns an obsolete tractor would prefer to replace it with one having more power more speeds more conveniences a better hydraulic system lower operating cost or all of the above But

farmers in the United States Canada and other industrial nations will continue to want to purchase tractors that have all of the features including microprocessors found on other vehicles    **VocEd** ,1984    El-Hi Textbooks and Serials in Print ,2006    Industrial Education ,1982    **National 4-H Club News** ,1982    *County Agents* ,1982    **Subject Guide to Books in Print** ,1993    Books in Print Supplement ,1994    **Scientific and Technical Books and Serials in Print** ,1989    **Agriculture Teachers Directory** ,1989    **Ohio Curriculum Materials, 1987 Catalog** ,1987    **The Agricultural Education Magazine** ,1986    **Technical Writing for Industry** Larry A.
