AI and IA Ted Peters, 2019-09-01 Will advances in AI Artificial Intelligence or IA Intelligence Amplification lead to the extinction of the human race as we know it Or will superintelligence lead to utopia In this collection of thoughtful essays we must first get clear on the question is artificial intelligence actually intelligent or not Only with an affirmative answer could our techies proceed toward their goal the creation of a superintelligence that leads through transhumanism to a posthuman entity that would replace today's human Should today's moderately intelligent human species voluntarily go extinct to make way for a more intelligent species to succeed us in evolutionary history These scientific questions are addressed in this volume in light of their theological ethical and social implications

Your Wit Is My Command Tony Veale, 2021-09-07 For fans of computers and comedy alike an accessible and entertaining look into how we can use artificial intelligence to make smart machines funny Most robots and smart devices are not known for their joke telling abilities And yet as computer scientist Tony Veale explains in *Your Wit Is My Command* machines are not inherently unfunny they are just programmed that way By examining the mechanisms of humor and jokes how jokes actually work Veale shows that computers can be built with a sense of humor capable not only of producing a joke but also of appreciating one Along the way he explores the humor generating capacities of fictional robots ranging from B 9 in *Lost in Space* to TARS in *Interstellar* maps out possible scenarios for developing witty robots and investigates such aspects of humor as puns sarcasm and offensiveness In order for robots to be funny Veale explains we need to analyze humor computationally Using artificial intelligence AI Veale shows that joke generation is a knowledge based

process a sense of humor is blend of wit and wisdom He notes that existing technologies can detect sarcasm in conversation and explains how some jokes can be pre scripted while others are generated algorithmically all while making the technical aspects of AI accessible for the general reader Of course there s no single algorithm or technology that we can plug in to make our virtual assistants or GPS voice navigation funny but Veale provides a computational roadmap for how we might get there
