The A.I. Marketer Andrew W. Pearson, 2019-04-15 We seem to be living in the age of A I Everywhere you look companies are touting their most recent A I machine learning and deep learning breakthroughs even when they are far short of anything that could be touted as a breakthrough A I has eclipsed Blockchain and Crypto as the buzzword of today Indeed one of the best ways to raise VC funding is to stick AI or ML at the front of your prospectus and ai at the end of your website Separating fact from fiction is more important than it has ever been The A I Marketer breaks down A I machine learning and deep learning into five unique use cases sound time series text image and video and also reveals how marketing executives can utilize this powerful technology to help them more finely tune their marketing campaigns better segment their customers increase lead generation and foster strong customer loyalty Today Personalization the process of utilizing mobile social geo location data web morphing context and even affective computing to tailor messages and experiences to an individual interacting with them is becoming the optimum word in a radically new customer intelligence environment The A I Marketer explains this complex technology in simple to understand terms and then shows how marketers can utilize the psychology of personalization with A I to both create more effective marketing campaigns as well as increase customer loyalty Pearson shows companies how to avoid Adobe s warning of not using industrial age technology in the digital era Pearson also reveals how to create a platform of technology that seamlessly integrates EDW and real time streaming data with social media content Analytical models and neural nets can then be built on both commercial

and open source technology to better understand the customer thereby strengthening the brand and just as importantly increasing ROI

Vampire State Ian Williams, 2024-09-05 This is the terrifying story of China's vampire economy State capitalism Socialism with Chinese characteristics A socialist market economy There have been numerous descriptions of the Chinese economy However none seems to capture the predatory at times surreal nature of the economy of the world's most populous nation nor the often bruising and mind bending experience of doing business with the Middle Kingdom Rules and agreements mean little Markets are distorted statistics fabricated foreign industrial secrets and technology systematically stolen Companies and entrepreneurs at home and abroad are bullied often with the collusion of the victims themselves The Party is in every boardroom and lab with businesses thriving or dying at its will All this is part of realising President Xi Jinping's ambition of China becoming the world's pre eminent economic technological and military power One of the Financial Times Best New Books on Economics in 2024
