Big Data and Social Computing Xiaofeng Meng, Qi Xuan, Yang Yang, Yang Yue, Zi-Ke Zhang, 2022-12-06 This book constitutes refereed proceedings of the 7th China National Conference on Big Data and Social Computing BDSC 2022 held in Hangzhou China from August 11-13, 2022. The 24 full papers and 2 short papers presented in this volume were carefully reviewed and selected from a total of 99 submissions. International in approach, the text covers all aspects of strategic management, from growth strategy and financial management to brand and supply chain management. Fashion Management's engaging style, page design, and pedagogical framework make it accessible to students at all levels, while the authors' extensive expertise ensures that the content is always underpinned by rigorous academic research. Established key topics and significant contemporary issues, such as sustainability, the digital, and corporate social responsibility, are considered from both a theoretical and practical perspective, with real-world examples drawn from high-profile global fashion organisations. This is an ideal core textbook for those studying on undergraduate and postgraduate degree courses in fashion management and fashion marketing. The book will also be an important supplementary resource for courses in marketing, retailing, and business studies with the fashion industry, providing an effective context for students to engage with the application of theory. Accompanying online resources for this title can be found at bloomsburyonlineresources.com/fashionmanagement. These resources are designed to support teaching and learning when using this textbook and are available at no extra cost. *The Forefront of International Higher Education* Alma Maldonado-Maldonado, Roberta Malee Bassett, 2013-10-07 This book honors the academic trajectory and global impact of Philip G. Altbach, one of the most important education comparativists worldwide for over forty years. From his early writings on India and student activism to his recent work on research universities, Altbach has served as a key developer of the expansion of the field to include comparative higher education. His capacity to find support and gather the best minds around the world to organize research teams in order to explore the most relevant issues on comparative higher education has earned him international recognition. His service to the field of comparative higher education is invaluable and incomparable. This festschrift contains original pieces from colleagues and former students following a twofold discussion: the most relevant topics on comparative higher education and particular Altbach's contributions to this field of work. *GIS World*, 1995. *The Crisis of Journalism Reconsidered* Jeffrey C. Alexander, Elizabeth Butler Breese, Maria

Luengo,2016-06-13 This collection of original essays brings a dramatically different perspective to bear on the contemporary crisis of journalism Rather than seeing technological and economic change as the primary causes of current anxieties The Crisis of Journalism Reconsidered draws attention to the role played by the cultural commitments of journalism itself Linking these professional ethics to the democratic aspirations of the broader societies in which journalists ply their craft it examines how the new technologies are being shaped to sustain value commitments rather than undermining them Recent technological change and the economic upheaval it has produced are coded by social meanings It is this cultural framework that actually transforms these objective changes into a crisis The book argues that cultural codes not only trigger sharp anxiety about technological and economic changes but provide pathways to control them so that the democratic practices of independent journalism can be sustained in new forms *Resources in Education* ,1994 *Entrepreneurship* Heidi M.
