Trending Remote Jobs Usa Ideas 2025:

Big Data Applications in Labor Economics Benjamin Elsner, Solomon W. Polachek, 2024-12-10 This volume contains an Open Access chapter This volume showcases original research using Big Data to gain fresh insights into how labor markets work compiled by Solomon Polachek a pioneer in gender related labor market research and Benjamin Elsner an expert on causal inference and the economics of migration

Designing Instruction with Generative AI Brent A. Anders, 2025-09-16 Designing Instruction with Generative AI offers a novel set of tools and strategies for leveraging generative AI to create engaging and personalized learning experiences While instructional designers are a tremendous asset to higher education not all colleges or universities have the robust staff needed to support all instructors on staff or large student populations Drawing on a wealth of research professional experience and strategic insights this book equips new and seasoned teaching faculty and trainers with step by step directions on how freely accessible artificial intelligence software can assist with all aspects of the course creation and instruction process and cater to the needs of diverse learners Each chapter offers forward thinking and empirically validated ways to help faculty create and improve instructional materials course design and learning environments while supporting their digital literacies Rather than introduce AI as a means of outsourcing subject area expertise critical thinking or cognitive processes the author instead emphasizes its potential to build on traditionally honed knowledge and foundational instructional design practices From optimizing course alignment and accessibility practices to fostering active learning motivation and engagement educators will find new solutions to common teaching and learning challenges with greater efficiency in time and capacity The Open Access version of this book available at <http://www.taylorfrancis.com> has been made available under a Creative Commons Attribution Non Commercial No Derivatives CC BY NC ND 4.0 license

Global Business Mahesh Joshi, James R. Klein, 2018-08-02 In the wake of the Brexit vote and the election of Donald Trump globalization has found itself increasingly under the microscope An active international discussion is underway and the ideological viewpoint that the reversal of globalization and a return to protectionism and isolation will cure the world's ills is touted by many In the midst of the growing prominence of international interconnectivity and contradicting attention attained by skewed misinformation about global impact Global Business is a straightforward commentary on mega trends in globalization With insights and observations from academics practitioners and practical thinkers from around the world Global Business demystifies the economic social and cultural impacts of globalism and globalization and presents a balanced explanation of what is happening and how it affects everyone It highlights that technology and change are not new and explores the path taken to reach our current interconnected global state It encourages a realistic examination of where we are and invites a dialogue on where we can go together

The Regulation of Automated and Autonomous Transport Kyriaki Noussia, Matthew Channon, 2023-08-12 This book discusses various legal aspects of automated and autonomous transport The regulation of automated and autonomous transport encompasses legislation on automated cars

ships vessels and drones Questions surrounding this novel area of the law which has attracted major worldwide interest and publicity are likely to dominate our societies and everyday life in the years ahead One major challenge addressed in this book is remedying the regulatory fragmentation that can be observed around the globe concerning legislation on automated and autonomous transportation systems Written and edited by respected experts in the field including academics and practitioners alike this book seeks to fill an important gap in the literature Given its focus and scope the book will be of considerable interest to practitioners academics and policymakers judges students and secondary audiences including engineers sociologists naval architects all those involved in the automated industry and people working in AI
