Labor Market Tightness in Advanced Economies Mr. Romain A Duval, Romain Duval, Yi Ji, Longji Li, Myrto Oikonomou, Carlo Pizzinelli, Mr. Ippei Shibata, Alessandra Sozzi, Marina M. Tavares, 2022-03-31 Two years after the onset of the COVID 19 pandemic a puzzle has emerged in several advanced economies unfilled job vacancies have increased sharply even though employment has yet to fully recover This note sheds light on three contributing factors namely barriers to returning to work changing worker preferences away from certain types of jobs and sectoral and occupational job mismatch The note also assesses the impact of labor market tightness on wage growth showing that it has been large for low pay jobs but milder overall Bringing disadvantaged groups of workers into the labor force including by controlling the pandemic itself would ease labor market pressures while amplifying the recovery and making it more inclusive *Innovations and Social Media Analytics in a Digital Society* Maria José Sousa, Célio Gonçalo Marques, 2022-06-15 Recent advances in digitization are transforming healthcare education tourism information technology and some other sectors Social media analytics are tools that can be used to measure innovation and the relation of the companies with the citizens This book comprises state of the art social media analytics and advanced innovation policies in the digitization of society The number of applications that can be used to create and analyze social media analytics generates large amounts of data called big data including measures of the use of the technologies to develop or to use new services to improve the quality of life of the citizens Digitization has applications in fields from remote monitoring to smart sensors and other devices Integration generates data that need to be analyzed and visualized in an easy and clear way that will be some of the proposals of the researchers present in this book This volume offers valuable insights to researchers on how to design innovative digital analytics systems and how to improve information delivery remotely Regional review on status and trends in aquaculture development in Latin America and the Caribbean – 2020 Wurmman, C. Soto, D., Norambuena, R., 2022-01-06 This document reviews the development of the aquaculture industry in the Latin America and the Caribbean region over the past decade In 2018 aquaculture production in the region amounted to an estimated 3.1 million tonnes of aquatic products excluding seaweeds worth USD 17.2 billion at first sale This food sector is vastly concentrated in a few countries with the combined output from Brazil Chile Colombia Ecuador and Mexico representing over 85 percent of the total regional production Atlantic salmon rainbow trout tilapia whiteleg shrimp and the Chilean mussel collectively contributed 80.4 percent and 85.9 percent of the regional production by volume and value respectively Marine aquaculture has been the dominant production environment in the region for the past two decades accounting for 70.1 percent of the farmed output in 2018 Production models vary widely with a concentration of large scale companies in Chile while primarily small and or medium size operations in Brazil Peru and several other countries Introduced species remain top on the list among those farmed such as tilapia and the different salmonids both of which have contributed to local livelihoods and employment Tilapia farming has contributed significantly to food security in many

countries of the region while the largest proportion of farmed salmons have been destined to the export markets Production prospects remain promising however the industry requires in general better governance the adoption at all levels of appropriate technologies and best practices and renewed efforts to guarantee environmental sustainability and social acceptance as well as competitiveness and foresight to deal with climate and market changes The small island developing states SIDS face additional challenges including limited expertise high production costs poor seed supplies as well as extreme and destructive weather events The report discusses issues that require wider regional attention for the aquaculture sector to grow Key recommendations focus on governance related improvements highlighting the need for solid sectoral development plans support policies and effective rules and regulations The promotion of a stronger cooperation among the countries in the region as well as further afield on technical matters species diversification and equal support to small and large scale farming operation are identified as key elements to foster investment and help the region gain a solid position among world aquatic food producers
