British Universities Past and Present Robert Anderson,2006-09-27 This book is both a concise history of British

universities and their place in society over eight centuries and a penetrating analysis of current university problems and policies as seen in the light of that history It explains how the modern university system has developed since the Victorian era and gives special attention to changes in policy since the Second World War including the effects of the Robbins report the rise and fall of the binary system the impact of the Thatcher era and the financial crises which have beset universities in recent years A final chapter on the past and the present shows the continuing relevance of the ideals inherited from the past and makes an important contribution to current controversies by identifying a distinctively British university model and discussing the historical relationship of state and market

Zoning China Luzhou Li, 2024-02-06 An examination of cultural zoning in China considers why government regulation of online video is so much more lenient than regulation of broadcast television In *Zoning China* Luzhou Li investigates why the Chinese government regulates online video relatively leniently while tightly controlling what appears on broadcast television Li argues that television has largely been the province of the state even as the market has dominated the development of online video Thus online video became a space where people could question state media and the state's preferred ideological narratives about the nation history and society Li connects this relatively unregulated arena to the second channel that opened up in the early days of economic reform piracy in all its permutations She compares the dual cultural sphere to China's economic zoning the marketized domain of online video is the cultural equivalent of the Special Economic Zones which were developed according to market principles in China's coastal cities Li explains that although the relaxed oversight of online video may seem to represent a loosening of the party state's grip on media the practice of cultural zoning in fact demonstrates the state's strategic control of the media environment She describes how China's online video industry developed into an original creative force of production and distribution that connected domestic private production companies transnational corporations and a vast network of creative labor from amateurs to professional content creators Li notes that China has increased state management of the internet since 2014 signaling that online and offline censorship standards may be unified Cultural zoning as a technique of cultural governance however will likely remain
