Can 100% remote work attract more qualified candidates?** Huong Hoang Thien, 2023-05-25 Master s Thesis from the year 2023 in the subject Leadership and Human Resources Recruiting grade 1 0 language English abstract What will happen if there aren t enough talents to fill the market in the future due to the demographical change This study focuses on the potential of offering 100% remote work to counteract the workforce shortage in Germany An empirical study has been conducted as an online survey to gain an overview of Germany s 100% remote job market In a fast changing world digital transformation has become an evitable process for companies to adapt to new technologies and market trends The digital transformation in Germany has been significantly impacted by the COVID 19 pandemic positively and negatively On the one hand the pandemic forced German companies to embrace new technology more quickly and adapt to remote work However on the other hand it pointed out Germany s weaknesses in digital infrastructures and cybersecurity Additionally

many German companies face a shortage of workers due to digital transformation Another reason that causes workforce shortage is demographical change Companies cannot operate their business correctly increase revenue or drive innovations to survive in a competitive market without suitable candidates Furthermore the digital revolution shaped the current digital generations as potential workers exhibit different digital behaviors and preferences Therefore companies must know them and their work preferences to fill the workforce shortage gap Remote working as a sub trend of the mega trend New Work has become the new standard for workers especially since the pandemic However there aren't any specific regulations regarding remote work in Germany yet In general remote work provides workers e.g. more freedom and a better work life balance Nevertheless remote work also has the downside such as workers experiencing isolation and loneliness due to the lack of social contact with co-workers less productivity outside of the office etc For companies offering remote work gives them complete access to the talent pools including freelancers as external workers reducing costs due to fewer offices being more attractive to job seekers But on the other side remote leadership has become a big challenge for leaders Furthermore companies have to deal more with cyber security When everything's going remotely companies have become an easier target of cyber attacks

*Ambitious Like a Mother* Lara Bazelon, 2022-04-19 In this captivating and radical look at work life balance Lara Bazelon reframes our understanding of working women and shows how prioritizing your career benefits mothers kids and society at large In this singular cultural moment mothers have unparalleled opportunities to succeed at work while continuing to face the same societal impediments that held back our mothers and grandmothers We still encounter entrenched gender bias in the workplace and are expected to shoulder the lion's share of labor and burdens at home while being made to feel as if we're never doing enough All the while we're told that the perfect work life balance is possible if only we try hard enough to achieve it It's time to change the conversation about work life and balance Work and life are inextricably intimately intertwined We need to celebrate what we do give our children even and especially in moments of imbalance rather than apologizing for what we don't In this way we can model for our children how we use our talents to help others and raise awareness about the issues closest to our hearts We can embrace the personal fulfillment and financial independence that pursuing meaningful work can bring as a way of showing our children how to live happy purpose driven lives Bazelon argues not only that we can but that we should Being ambitious at work and being a good mother to our children are not at odds these qualities mutually reinforce each other Backed up by research and filled with personal stories from Bazelon's life as well as that of her mother and the many other women she interviewed across the cultural and financial spectrum *Ambitious Like a Mother* is an anthem a beacon for all to recognize and celebrate the pioneering women who reject the false idols of the Selfless Mother and Work Life Balance and a call to embrace your own ambitions and model your multiplicities for your children
