## **The Secret of Directional Investing**

James P. Pinkerton, 2024-05-28 To know the trend, spot the trend, or shape the trend is to make money. The trend is your friend; investors know that. But the biggest money comes from the biggest events. The more delta, the more alpha. In that spirit, *The Secret of Directional Investing* offers a new way of thinking about investing, steeped in culture and history. Focusing on megatrends, this book points out ways to profit from an understanding of two kinds of trends: those that can be spotted and those that can be shaped. There's money in both. The Romans weren't kidding when they said *Audentes Fortuna iuvat*. Fortune favors the bold. *The Secret of Directional Investing* is a bold look at investments and potential investments.
