Desire Change Heather Davis, 2017-06-26 In the resistance to the violence of gender based oppression vibrant but often ignored worlds have emerged full of nuance humour and beauty Correcting an absence of writing about contemporary feminist work by Canadian

artists Desire Change considers the resurgence of feminist art thought and practice in the past decade by examining artworks that respond to themes of diversity and desire Essays by historians artists and curators present an overview of a range of artistic practices including performance installation video textiles and photography Contributors address the desire for change through three central frames how feminist art has significantly contributed to the complex understanding of gender as it intersects with sexuality and race the necessary critique of patriarchy and institutions as they relate to colonization within the Canadian nation state and the ways in which contemporary critiques are formed and expressed Heavily illustrated with representative works Desire Change raises both the stakes and the concerns of contemporary feminist art with an understanding that feminism is always and necessarily plural

About Imaginary Borders Stefanie Dalvai,2020-12-15 Diploma Thesis from the year 2020 in the subject English Language and Literature Studies Linguistics grade 1 University of Innsbruck language English abstract Othering is a language process which does not only occur in spoken language but also in written Nowadays such a negative portrayal and creation of the perfect other is often happening in a rather hidden and indirect manner This paper explores whether Donald J Trump indulged in the act of Othering in his Tweets and whether this happened in a direct or indirect way The findings lead to an understanding whether Othering is

being accepted in politics or not What comes as a blessing has also its downsides as not only positive but also negative opinions are omnipresent on the internet This is due to the possibility to upload almost everything as not every website has a way to censor inappropriate content Furthermore having a filter for written or pictured hate crime does not prevent it from happening as it is not always straight forward and hateful messages can come in disguise An uncountable number of these more or less hidden hate crimes are a sort of Othering as people tend to put themselves in opposition to others to create a sense of solidarity with those who share sameness and to have some excuse to keep up power relationships With this it becomes clear that language itself in the case of this paper explicitly the written one is a powerful tool to exert authority and domination on others especially when used by people in power like politicians Therefore the question this paper tries to answer is how written discourse in the Tweets of Trump creates the feeling of separation and dominance that underlies the act of Othering and whether this reflects a direct or indirect and with this more subtle and normalized use of power discourse In this thesis only those people Trump constantly portrays as dangerous foreigners intruders therefore not Americans are included in the analysis by looking at how he structures his discourse around them These include Mexicans and Muslims both to be found under the umbrella term of illegal immigrants **Investors Chronicle** ,2007
