**Women Networks** Lucas Morgan, AI, 2025-03-04 *Women Networks* explores how strategic professional networking can be a game changer for women in business and entrepreneurship. It highlights the importance of building and leveraging strong connections to unlock career opportunities and foster growth. The book emphasizes that effective networking isn't just about collecting contacts; it's about cultivating genuine reciprocal relationships that provide access to vital resources and support. Historically, women haven't always had equal access to these networks, making strategic connection a necessity. The book champions three core pillars: strategic connection, relationship maintenance, and reciprocal support. It illustrates these concepts with real-world examples and actionable strategies. It progresses from introducing the core concepts of strategic networking to identifying key individuals and groups, maintaining meaningful relationships, and leveraging networks for career advancement and entrepreneurial growth. This approach helps readers understand how to build a diverse network that spans industries and experience levels, fostering innovation and resilience. This career guide distinguishes itself by focusing on the unique challenges and opportunities women face in networking. It provides practical advice tailored to their specific needs, with a focus on reciprocal support, mentors, and coaches. Unlike general networking guides, *Women Networks* offers a fresh perspective, making it an invaluable resource for women professionals, entrepreneurs, and students aiming for career advancement and business success.

**The return of the housewife** Emma Casey, 2025-04-08 An illuminating look at the world of cleanfluencers that asks why the burden of housework still falls on women. Housework is good for you. Housework sparks joy. Housework is beautiful. Housework is glamorous. Housework is key to a happy family. Housework shows that you care. Housework is women's work. Social media is flooded with images of the perfect housewife. TikTok and Instagram cleanfluencers produce endless photos and videos of women cleaning, tidying, and putting things right. Figures such as Marie Kondo and Mrs Hinch have placed housework with its promise of a life of love and contentment at the centre of self-care and positive thinking. And yet

housework remains one of the world's most unequal institutions. Women, especially poorer women and women of colour, do most low-paid and unpaid domestic labour. In the return of the housewife, Emma Casey asks why these inequalities matter and why they persist after a century of dramatic advances in women's rights. She offers a powerful call to challenge the prevailing myths around housework and the naturally competent woman homemaker.
