Political ecologies of the far right Irma Kinga Allen, Kristoffer Ekberg, Ståle Holgersen, Andreas Malm, 2024-05-28. This volume engages with the alarming convergence of far right thinking and the ecological crisis in contemporary society. Growing out of the first international conference on political ecologies of the far right, the volume gathers crucial insights from authorities in the field as well as promising early career researchers. With cases ranging from ethnographical accounts of fossil fuel populist protest, historical analysis of the evangelical support for fossil fuels to interrogations of the settler colonial identities and material conditions defended by far right actors around the world, the book provides scholars, students, and activists with ways to understand and counter these developments. An electronic edition of this book is freely available under a Creative Commons CC BY-NC-ND licence.

Deep Learning in Personalized Healthcare and Decision Support Harish Garg, Jyotir Moy Chatterjee, 2023-07-20. Deep Learning in Personalized Healthcare and Decision Support discusses the potential of deep learning technologies in the healthcare sector. The book covers the application of deep learning tools and techniques in diverse areas of healthcare such as medical image classification, telemedicine, clinical decision support system, clinical trials, electronic health records, precision medication, Parkinson disease detection, genomics, and drug discovery. In addition, it discusses the use of DL for fraud detection and internet of things. This is a valuable resource for researchers, graduate students, and healthcare professionals who are interested in learning more about deep learning applied to the healthcare sector. Although there is an increasing interest by clinicians and healthcare workers, they still lack enough knowledge to efficiently choose and make use of technologies currently available. This book fills that knowledge gap by bringing together experts from technology and clinical fields to cover the topics in depth. Discusses the application of deep learning in several areas of healthcare including clinical trials, telemedicine, and health records management. Brings together experts in the intersection of deep learning, medicine, healthcare, and programming to cover topics in an interdisciplinary way. Uncovers the stakes and possibilities involved in realizing personalized healthcare services through efficient and effective deep learning technologies.

Easy Adobe Photoshop Elements 3 Kate Binder, 2005. Sure, the digital camera you bought is great. It has a 1GB memory stick, can take short movies, and fits in your pocket. The Implications of new Technology, particularly Artificial intelligence (AI) for International Politics Malam Wasai, 2023-09-18 Submitted Assignment from the year 2023 in the subject Politics General and Theories of International Politics language English abstract Greater scrutiny is necessary because AI will have a significant impact on international relations such as putting new topics on the international agenda challenging geostrategic

relations serving as a tool for diplomats and negotiators and creating new opportunities and concerns about protecting human rights. Scholars and diplomats have found it helpful to think about the different things that affect international relations by breaking them down into three levels of analysis: individual, state, and international. State level analysis examines the foreign policy behavior of states in terms of state characteristics. For example, some scholars say that all democracies behave a certain way; they don't fight with other democracies.

Artificial intelligence impact governance As AI continues to evolve and permeate various aspects of our lives, its implications for AI and how it impacts businesses are significant. AI artificial intelligence refers to machines that can perceive, synthesize, and infer information. It is the science and engineering of intelligent machines that can mimic human intelligence to perform tasks and then on the information they collect, improve themselves. Based AI is designed to significantly enhance human capabilities and contributions, making it a valuable business asset.
