Written straight from experience, this is not a "quit your job and get rich" fantasy. It's raw, honest, and packed with value. No fluff. No clickbait. Just the blueprint I wish I had when I started. What you'll learn: How to get started with free tools, no subscription needed. Where and how to find clients and freelance work. How to build a portfolio from scratch, even if you've never done a job. Real tips on handling pricing, revisions, and getting paid. Who it's for: Anyone who wants to learn a skill and make side income with no startup costs. Students, 9 to 5ers, unemployed folks, or anyone with a laptop and an internet connection. People who want to build something now instead of waiting. Note: The first half of the book covers more of the technical steps and tools you'll need to get started, while the second half dives into my story, how I learned everything from scratch and developed a formula that actually works.
