Post-Heroic Leadership Miha Škerlavaj, 2022-01-03 This pioneering new book sets out to categorize context, process, and outcomes of post-heroic leadership. Complexities of modern business environment along with fundamental functioning of human psychology require us to make a paradigm shift in the way we perceive and practice effective leadership. The author argues that in order for businesses to succeed in the times to come, leaders need to move away from ego-centered leadership toward post-heroic leadership, a leadership that emphasizes servant and shared practices, puts task and collective front and center, and leaves ego in the background. Providing a deeper understanding of the post-heroic leadership across industries and disciplines, the book starts by elaborating on the zeitgeist and need for a new type of leadership. It highlights the process and elements of post-heroic leadership in action, such as post-heroically leading change, developing culture of trust with feedback, and sustainable and responsible post-heroic leadership. Finally, the book focuses on the outcomes of post-heroic leadership, including resilience and innovation. Featuring mini case studies from leaders in healthcare, family entertainment, ICT, haute cuisine, and manufacturing, to name a few, this book provides a thorough understanding of this new wave of leadership and a platform for further research.
