Computer Education for Teachers Vicki F. Sharp, 2008-11-03 Computer Education for Teachers Integrating Technology into Classroom Teaching is designed to introduce future teachers to computer technology in a meaningful practical fashion It is written for undergraduate and graduate students who want an up to date readable practical concise introduction to computers for teachers Inquiries of Pedagogical Shifts and Critical Mindsets Among Educators Gierhart, Aaron R., 2024-02-19 Pedagogical research faces a challenge in acknowledging and integrating the valuable insights provided by narrative inquiries particularly those centered around educators tipping points Despite the richness of these narratives in understanding pedagogy there exists a bias towards traditional quantitative research methods leading to limited recognition and acceptance of qualitative studies This lack of acceptance poses a barrier to leveraging the authentic experiences of educators for designing effective professional development and teacher education opportunities The key challenges include the undervaluation of narrative inquiries concerns about generalizability the need to balance authenticity with research rigor and the restricted influence on professional development due to the limited integration of narratives into the research base

Addressing these challenges is crucial for fostering a more holistic understanding of pedagogical development and improving the quality of teacher education. *Inquiries of Pedagogical Shifts and Critical Mindsets Among Educators* delves into unexplored pedagogy through a compendium of original research studies. The focus is on narrative inquiries, case studies, and phenomenological investigations offering a nuanced understanding of pedagogical shifts and critical mindsets among P-16 educators. Inspired by Novoa's conceptualization of Tipping Points, the book unfolds the narratives and lived experiences that propel educators toward transformative shifts in their teaching methodologies.

AI Business for Everyone by Michael T. Murphy, AI income strategies that actually work for YOUR life. This 1,000-page manual guide delivers hyper-personalized passive income roadmaps for 15 demographics: parents, retirees, freelancers, everyone. With 2,100 ready-to-use prompts, case studies exposing costly pitfalls, and aggressive 30-day action checklists, you'll build your 1,000 monthly automated income while others just read about AI. While others debate whether AI will take their jobs, smart individuals across every demographic are quietly building automated income streams generating thousands monthly. This isn't another generic "make money with AI" guide assuming everyone's a tech-savvy twenty-something. This is the first truly democratized roadmap to AI wealth crafted for YOUR specific situation. Whether you're a stay-at-home parent squeezing work between school runs, a retiree navigating technology, a burned-out freelancer seeking leverage, or an influencer fighting algorithm changes, this 1,000-page manual guide delivers hyper-personalized strategies for your unique circumstances. Each of fifteen demographic-focused chapters weaponizes your specific advantages and turns perceived limitations into competitive edges. What sets this guide apart is relentless practicality. This isn't theoretical exploration; it's a bootcamp. Every chapter demands action through implementation checklists leaving zero room for procrastination. You'll launch micro-businesses during naptime, automate client work during lunch breaks, and build passive income streams aligned with your lifestyle constraints. At its heart lies an arsenal of 2,100 battle-tested prompts categorized by industry and demographic needs. These aren't generic templates; they're precision-engineered tools transforming ChatGPT and Claude into your personal workforce. From healthcare practitioners needing HIPAA-compliant content to pet entrepreneurs dominating Instagram, every prompt delivers immediate monetizable results. Through detailed case studies, you'll witness actual people, not gurus, building sustainable AI businesses. Meet the seventy-year-old launching an AI consulting firm, the exhausted mom automating her way to 3,000 monthly, the weekend hobbyist whose Chrome extension generates 5,000 monthly. Crucially, you'll learn their failures and costly mistakes too. This isn't success theater; it's unvarnished truth about building AI income. Every chapter follows an aggressive thirty-day timeline transforming overwhelming possibilities into daily actions: Week one, tool setup and niche selection; Week two, minimum viable product; Week three, testing and refinement; Week four, launch and scale. The structure pushes you from zero to revenue through forced accountability and relentless momentum. Specialized sections address challenges facing regulated industries and creative professionals. Healthcare practitioners monetize expertise while maintaining ethical boundaries. Artists discover
