Quick Ai Podcast Editor In Usa

Benjamin Pollack

Quick Ai Podcast Editor In Usa:

Podcasting Jeremy Wade Morris, 2024-05-31 Podcasting burst onto the media landscape in the early 2000s. At the time, there were hopes it might usher in a new wave of amateur and professional cultural production and represent an alternate model for how to produce, share, circulate, and experience new voices and perspectives. Twenty years later, podcasting is at a critical juncture in its relatively young history: a moment where the early ideals of open standards and platform-neutral distribution are giving way to services that prioritize lean-back listening and monetizable media experiences. This book provides an accessible and comprehensive account of one of digital media's most vibrant formats. Focusing on the historical changes shaping podcasts as a media format, the book explores the industrial, technological, and cultural components of podcasting alongside case studies of various podcasts, industry publications, and streaming audio platforms (e.g., Spotify, Google, and Apple Podcasts). Jeremy Wade Morris argues that as streaming platforms push to make podcasting more industrialized, accessible, user-friendly, and similar to other audio media like music or audiobooks, they threaten podcasting's early, though always unrealized, promises. This is the go-to introduction for students and researchers of media communication and cultural studies, as well as readers who enjoy making and listening to podcasts.

Inner Entrepreneur Grant Sabatier, 2025-03-11 From the creator of *Millennial Money* and the international bestselling author of *Financial Freedom* comes a comprehensive blueprint detailing how to start, build, buy, scale, and sell a business that expands your life. There's never been a better time to become an entrepreneur. As wages stagnate and traditional jobs lose their luster, people are eager to be their own bosses and to step out of the grind. But where to begin? What are the real opportunities? How do you avoid becoming consumed by your business with no room for yourself? Or even better, how do you use your business to create more peace and freedom in your life? Grant Sabatier has been through it all, and in this hands-on guide, he takes you through each step of the process, from finding the business that works for you to scaling as big as you want to selling your business all without writing a business plan, needing investors, or sacrificing the things that are most important in your life. After all, you run your business. It should not run you. Unlike *get rich quick* books, *Inner Entrepreneur* is truly comprehensive. This book will give you the keys to building wealth but will also help you every step of the way, leaving no topic unexplored and offering resources and inspiring stories from people who have been there before you. Whether you're just starting out or you're a seasoned pro looking for advice on your next move, *Inner Entrepreneur* will help you build a business and a life you love. AI Roman V.

Yampolskiy, 2024-02-23 Delving into the deeply enigmatic nature of Artificial Intelligence (AI), *AI: Unexplainable, Unpredictable, Uncontrollable* explores the various reasons why the field is so challenging. Written by one of the founders of the field of AI safety, this book addresses some of the most fascinating questions facing humanity, including the nature of intelligence, consciousness, values, and knowledge. Moving from a broad introduction to the core problems, such as the unpredictability of AI outcomes or the difficulty in explaining AI decisions, this book arrives at more complex questions of ownership and control.

conducting an in depth analysis of potential hazards and unintentional consequences The book then concludes with philosophical and existential considerations probing into questions of AI personhood consciousness and the distinction between human intelligence and artificial general intelligence AGI Bridging the gap between technical intricacies and philosophical musings AI Unexplainable Unpredictable Uncontrollable appeals to both AI experts and enthusiasts looking for a comprehensive understanding of the field whilst also being written for a general audience with minimal technical jargon

Generative Artificial Intelligence and Creativity Matthew J. Worwood, James C. Kaufman, 2025-11-21 GENERATIVE ARTIFICIAL INTELLIGENCE AND CREATIVITY PRECAUTIONS PERSPECTIVES AND POSSIBILITIES explores the dynamic relationship between generative Artificial Intelligence genAI and creativity This book brings together global scholars from diverse fields to explore the transformative impact of genAI on human creativity As technological advancements in genAI continue to accelerate this book navigates through the complexities of understanding and harnessing its potential *Generative Artificial Intelligence and Creativity* not only dissects the fundamental principles underlying genAI's contribution to creativity but also addresses the paradoxical impact of genAI on human creative industries This book serves as a unique guide for anyone seeking to comprehend the implications of genAI on the future of human creativity Outlines how AI could broaden the scope of human creativity by introducing new tools and methodologies Examines how AI can enhance the seven transdisciplinary creativity skills Discusses the impact of robots in stimulating creativity in children and adults highlighting the potential risks and benefits Reviews generative AI's impact on education and possible impacts equity

Podcasting in a Platform Age John L. Sullivan, 2024-01-25 Podcasting in a Platform Age explores the transition underway in podcasting by considering how the influx of legacy and new media interest in the medium is injecting professional and corporate logics into what had been largely an amateur media form Many of the most high profile podcasts today however are produced by highly skilled media professionals some of whom are employees of media corporations Legacy radio and new media platform giants like Google Apple Amazon and Spotify are also making big and expensive moves in the medium by acquiring content producers and hosting platforms This book focuses on three major aspects of this transformation formalization professionalization and monetization Through a close read of online and press discourse analysis of podcasts themselves participant observations at podcast trade shows and conventions and interviews with industry professionals and individual podcasters John Sullivan outlines how the efforts of industry players to transform podcasting into a profitable medium are beginning to challenge the very definition of podcasting itself

The Making of China's Artificial Intelligence and Cyber Security Policy Suisheng Zhao, 2025-08-08 The rise of digital technology particularly artificial intelligence AI has transformed societies and international politics China has responded to the transformation and strived to become one of the global leaders What is China's approach toward the objective Who are the major players and stakeholders in the making of digital policy How has the Chinese state worked with various stakeholders To what extent has digital technology influenced China's

authoritarian governance How has Chinese society responded to digital authoritarianism Can China prevail in shaping global digital rulemaking This edited volume seeks answers to these important questions Divided into three parts Part I examines how the central state has become a leading player and coordinated with various stakeholders such as academic institutions corporations and local governments in making digital technology policy Part II analyses how the Chinese party state used digital technology to strengthen authoritarian governance and how society has responded to digital authoritarianism Part III explores China's attempt to shape global digital rulemaking in competition with the US and other Western countries This book is aimed at scholars researchers policymakers and students with an interest in digital technology international relations Chinese politics and authoritarian governance It will also appeal to those studying AI digital governance and global power dynamics The chapters in this book were originally published in the Journal of Contemporary China and come with a new introduction
