## **Cosmic Christianity And The Changing Countenance Of Cosmology:**

Cosmic Christianity Willi Sucher, 1993 Cosmic Christianity describes the relationship between the earthly and supra earthly cosmic worlds by showing the relationship between the cosmos as expressed in the movements of the stars and the activities of Christ during his three years of ministry on Earth The gesture of each astrological planet during those years is worked out and correlated with specific acts of the Christ as recorded in the Gospels The apparent looping movements of Mercury for example are connected with the seven signs of St John s gospel The author goes on to explore the many ways in which these healing acts which have been inscribed in the heavens continue to work in evolution through the events of history and through our individual human lives By studying this we begin to understand our responsibility for developing the new Christian mysteries and consequently renewing the starry cosmos Sucher presents a real foundation for modern star wisdom Topics include the evolution of cosmology the origins of the planetary symbols our new relationship to the stars as revealed in human lives and historical events and the role of the Archangel Michael in our individual relationship to the stars This is an excellent place to begin one s study of the stars and their meaning for both our individual lives and for the world To purchase other books by Willi Sucher please visit the Astrosophy Research Center where you will find some of his most important works on star wisdom Included are Isis Sophia I Introducing Astrosophy Isis Sophia II Outline of a New Star Wisdom Isis Sophia III Our Relationship With the Stars Drama of the Universe Living Universe Studies in Astrosophy Practical Approach I Star Journals One Practical Approach II Star Journals Two Practical Approach III Letters **Speaking to the Stars** Jonathan Hilton, 2023-04-05 A New Star Wisdom developed by Willi Sucher from the insights of Rudolf Steiner the great paradox is that the loss of direct spiritual perception of the gods was necessary in evolution so that human beings could fulfill their great task in world evolution According to Rudolf Steiner this task is that we become beings of freedom and of the love that is born out of that freedom This means that the experience of separation from the divine unique to humanity among all beings has the possibility not the predetermination to establish something new in the cosmos a rank of beings who freely choose to participate with the divine plan out of the love born from that freedom from the book Based on the author s comprehensive video course on star wisdom astrosophy this book presents a thorough introduction to star wisdom as inaugurated by the spiritual philosopher Rudolf Steiner and the pioneer of astrosophy Willi Sucher whose work and methods Jonathan Hilton has studied practiced and developed for many years Beginning with the basics Hilton takes the reader through an introductory course on astrosophy from understanding and working with the zodiac and planetary spheres to actual chart construction and to the spiritual significance and deeper meaning behind practical astrosophy and its potential for one s own inner development In the process he also brings a historical perspective and carefully draws important distinctions between today s popular astrology and the esoteric basis for an approach to star wisdom as viewed and developed through spiritual science Also included in this course on astrosophy are numerous statements from the works of
