Cosmic Alignment C. Countess, 2004-06 Cosmic Alignment with the Cosmic Mind and the Cosmic Pattern clearly outlines
1 That the structure of the Universe is parallel to and resembles the structure of the Mind as if the Universe is a universal mind and our minds miniature Universes
2 A universal pattern of expansion contraction that pervades the Universe the Mind and Society
3 An alignment of the Universe as a whole and the Individual Interestingly enough there has been a recent growing interest in a Cosmic Alignment that coincides with this one and is scheduled to reach its peak Dec 21 2012 ushering in great change for better or worse depending on ones point of view This has been featured on The History Channel and the subject is also all over the web One only has to Google Cosmic Alignment to bring it up Also the 2006 Nobel Prize in Physics was awarded to two physicist for their discovery of a Cosmic Pattern and Alignment World renown physicist Stephen Hawking called it perhaps the greatest discovery of the millennium or perhaps all time This is no mere coincidence in the negative sense of seemingly but not really related but is in fact an affirmation of the timeliness and correctness of the subject of the book for they are all one and the same Cosmic Pattern and Alignment There is nothing more powerful than an idea whose time has come Victor Hugo influential French poet and social activist This is an Idea whose time has definitely come The Social Philosophical and Scientific implications are tremendous Drastic change is coming ready or not But it doesn't have to be all negative and won't be with a better understanding of this Cosmic Alignment and Pattern This book will shed much light on that much needed understanding which is a must for every human being on the planet When you read this book you will find that I am correct Conrad J Countess

of social enlightenment Awakening Earth does present the promising view that humanity is roughly halfway through seven major transformations in culture and consciousness required to build a planetary civilization that can endure into the deep future
