Cosmic Consciousness:

Cosmic Consciousness Richard Maurice Bucke, 1901-10-05 This classic study in the evolution of the human mind is a pioneering work as valuable today as when it was first published in 1901 At that time it was enthusiastically acclaimed by both William James and P D Ouspensky It has long been accepted as a landmark in the field of mysticism In reviewing the mental and spiritual activity of the human race Dr Bucke discovers that at intervals certain individuals have appeared who are gifted with the power of transcendent realization or Illumination Their experiences constitute a definite advance in man's relation with the Infinite Moreover the author shows from available records that this transfiguring endowment of Illumination is on the increase and he gives full details of practically all the cases on record up to the time when the book was written

Cosmic Consciousness Richard Maurice Bucke, 2000-12 In one of the classic books on the mystical experience Bucke outlines the development of various faculties in the history of man and the growth of an individual He believes we are witnessing a continuous psychical revolution and that people like Buddha and Jesus to name a couple are the forerunners of the beings who will eventually inhabit the earth What Is Cosmic Consciousness? Gopi Krishna, 2004-01-01

Cosmic Consciousness Richard M. Bucke, 2007-12-01 Wildly arrogant stunningly bombastic and undeniably fascinating This 1901 work the masterpiece of an eclectic genius whose life encompassed medical science mystical transcendence and prospecting for gold posits a higher form of sentience that only a few humans have ever achieved among them Jesus Buddha Mohammed Dante William Blake and the author himself of course As Bucke shares his metaphysical experience of the cosmic consciousness and offers evidence for the few instances in history of its occurrence it may as well be frankly stated at once that the view of the present editor is that Francis Bacon wrote the Shakespeare plays and poems the reader may well be moved to throw this bizarre and highly intriguing book furiously across the room if the reader can put it down at all that is Canadian mystic and doctor RICHARD MAURICE BUCKE 1837 1902 was a pioneer in the medical treatment of mental illness his famous friendship with Walt Whitman was the subject of the 1992 movie Beautiful Dreamers He also wrote Man's Moral Nature 1879 and an 1883 authorized biography of Whitman Cosmic Consciousness Ali Nomad, 2017-09-25 Man is essentially a spiritual being The source of this spiritual Omniscience we may not in our finite intelligence fully cognize because full cognition would preclude the possibility of finite expression The destiny of man is perfection Man perfected becomes a god Only the gods are immortal we are told Let us consider what this means supposing it to be an axiom of truth Mortality is subject to change and death Mortality is the manifest stage upon which man in his life plays many parts Immortality is what the word says it is godhood recognized in the mortal I or Om the more general term stands for the Changeless Birthless Deathless Unnamable Power that holds the worlds in space and puts intelligence into man Biologists even though they were to succeed in reproducing life by chemical processes from so called lifeless sterilized matter making so high a form of manifestation as man himself yet could never name the power by which they accomplished it Always there

must remain the Unknowable the Absolute **Cosmic Consciousness** Elizabeth Clare Prophet, Mark Prophet, 1976 Mark L Prophet walked before us as a friend on the spiritual path He illustrated Truth as a day to day experience of God that can come to all His tender lessons will lead you to a new dimension of awareness cosmic consciousness The author also shares teachings on the Divine Mother the presence of love the eternality of being and the aura as an expanding egg of cosmic consciousness Includes a guided meditation for nourishing the heart and the soul Cosmic Consciousness Richard Maurice Bucke, 2011-01-27 This work published in 1901 is the culmination of a lifetime of research and contemplation in which Richard Maurice Bucke 1837 1902 expounds his theory of the development and evolution of consciousness in living things He uses his own experiences those of contemporaries such as Tennyson and of historical figures such as Francis Bacon as evidence for moments of higher consciousness and intellect known as cosmic consciousness Bucke s theory is of three states of progressive consciousness attained through evolution The Simple Consciousness of animals Self Consciousness of man to understand his place in the universe and Cosmic Consciousness where man might grow to understand the life and order of the cosmos This pinnacle of understanding is a progression assisted by evolution that Bucke hopes will one day come to all men A thought provoking book at any time full of optimism for the intellectual future of the human race *Cosmic Consciousness* Richard Maurice Bucke, 2025-02-17 Richard Maurice Bucke s Cosmic Consciousness is a profound exploration into the nature of human consciousness and its potential for evolution Bucke s work is not just a dry academic treatise it s a passionate personal quest to understand a higher state of awareness that he believes is the next step in human development The book is dedicated to his son Maurice who died tragically and the inscription reflects the author s deep grief and his hope for a life beyond the physical realm This personal context frames the entire work giving it an emotional depth and urgency

Cosmic Consciousness Richard Maurice Bucke, 1923 *Cosmic Consciousness: An Introduction* Dr. Richard Maurice Bucke, 2008-09-29 There is an ages old unexplained mystery of genius and enlightenment Many people talk of seeing the light as a temporary intense affair where all the world s knowledge and understanding is unveiled to an individual in a brief moment outside of time He carefully researched and compiled all the illuminated individuals he could find As a trained M D and psychiatrist working in a mental institution he was in a unique position Bucke provides three dozen very consistent examples of cosmic consciousness Some of these were contemporary case histories which he collected Bucke proposed that these enlightened figures are evolutionary jumps the predecessor of a more advanced species Jesus Buddha Mohammed Dante William Blake Shakespeare and others were included Bucke proposed that these enlightened figures are evolutionary jumps the predecessor of a more advanced species Get Your Copy Now *Richard Maurice Bucke's Cosmic Consciousness* Jeff Carreira, 2021-06 A fresh look at a modern spiritual classic This is an edited updated and interpreted edition of Richard Maurice Bucke s spiritual classic Cosmic Consciousness A Study in the Evolution of the Human Mind Bucke originally published his magnificent treatise in 1901 and it has been read admired and even revered ever since In this

edition you will find the same insights and inspirations of the original text written in modern language and edited with modern sensibilities The purpose here is not to improve upon the original but to make its great wisdom more accessible to readers and spiritual seekers of today When Jeff Carreira first encountered the book Cosmic Consciousness he found a vision of conscious evolution that rang deeply resonant with his own spiritual experiences while contextualizing them within a vast narrative of universal history Of course the language and ideas of even a work as great as this can become dated with time Languages change new ideas develop and many readers find the original text difficult to approach Often the wisdom of spiritual classics is simply incorporated into the books and insights of present day authors with minimal reference to the original source This edition offers a different possibility It attempts to preserve the wisdom and logical flow of the original book in a creatively edited and interpreted text that can be freshly appreciated by a new audience This edition of Cosmic Consciousness is offered to honor the spirit and brilliance of the original

Cosmic Consciousness Richard Maurice Bucke, 1923 This work is the magnum opus of Bucke's career a project that he researched and wrote over many years In it Bucke described his own experience that of contemporaries most notably Whitman but also unknown figures like C P and the experiences and outlook of historical figures including Buddha Jesus Paul Plotinus Muhammad Dante Francis Bacon and William Blake Bucke developed a theory involving three stages in the development of consciousness the simple consciousness of animals the self consciousness of the mass of humanity encompassing reason imagination etc and cosmic consciousness an emerging faculty and the next stage of human development Among the effects of this progression he believed he detected a lengthy historical trend in which religious conceptions and theologies had become less and less fearful A classic work

Cosmic Consciousness and Human Excellence Mahmoud Masaeli, Rico Sneller, 2019-01-29 Cosmoconsciousness or cosmic consciousness is a term used to characterize a transcendence of the limits of self consciousness As an ultra state of illumination of the mind the roots of the conception are embodied in the quest for a spiritual connection with multi dimensional cosmos This quest searches for spiritual development as a pathway to human excellence and can be associated

with the mystics of ancient wisdom as well as contemporary psycho spiritual analysts After its emergence in the late 19th century cosmic consciousness rapidly became a source of inspiration for transpersonal psychology moral therapy and a thoughtful link to mystical quantum physics By encouraging a spiritual way of perceiving the real world cosmic consciousness also provides a source of inspiration for human excellence as the central idea of global ethics In this perspective the world cannot be changed for the better without changing individual consciousness Global concerns including ecological issues violence and acts of terrorism materialistic gratification and hedonism could not be addressed effectively unless people s consciousness is changed Cosmic consciousness by the very perception of the inner life has the potential to struggle with global concerns and hence it holds a promise of human excellence This book discusses cosmic consciousness against the backdrop of the emergence of the rational and autonomous conception of the self and the modern psychological depiction of selfhood It places the idea of cosmic consciousness at the centre of contemporary arguments on the nature of consciousness

Cosmic Consciousness M. D. Richard Maurice Bucke, 2011-03 Cosmic Consciousness A Study in the Evolution of the Human Mind is Richard Bucke s theory that our mental states are evolving and that to date we have experienced three stages in the development of consciousness the simple consciousness of animals the self consciousness of the vast majority of humans reason self awareness imagination etc and in some cases cosmic consciousness a mystical state of being beyond self consciousness and the next stage of human development Bucke hypothesized that cosmic consciousness is slowly beginning to appear in humans and will eventually spread widely throughout the human race He posited that certain notable individuals throughout history have demonstrated that they have attained cosmic consciousness In the book he cites examples such as Jesus Buddha Mohammed Dante St Paul Francis Bacon William Blake and his close friend Walt Whitman Whitman an American poet and journalist described cosmic consciousness as ineffable light light rare untellable light beyond all signs descriptions and languages At the age of thirty five Bucke found himself in this elevated mental state and he describes in the third person the manifestations leading up to it 1 The person suddenly without warning has a sense of being immersed in a flame or rose colored cloud or perhaps rather a sense that the mind is itself filled with such a cloud of haze 2 At the same instant he is as it were bathed in an emotion of joy assurance triumph salvation 3 Simultaneously or instantly following the above sense and emotional experiences there comes to the person an intellectual illumination quite impossible to describe Like a flash there is presented to his consciousness a clear conception a vision in outline of the meaning and drift of the universe He does not come to believe merely but he sees and knows that the cosmos which to the self conscious mind seems made up of dead matter is in fact far otherwise is in very truth a living presence He sees that instead of men being as it were patches of life scattered through an infinite sea of non living substance they are in reality specks of relative death in an infinite ocean of life He sees that the life which is in man is eternal as all life is eternal that the soul of man is as immortal as God is that the universe is so built and ordered that without any peradventure all things work

together for the good of each and all that the foundation principle of the world is what we call love and that the happiness of every individual is in the long run absolutely certain He goes on to say The person who passes through this experience will learn in the few minutes or even moments of its continuance more than in months or years of study and he will learn much that no study ever taught or can teach After reading Bucke s writings P D Ouspensky the respected Russian Philosopher echoed his comments in his book *Tertium Organum* Cosmic Consciousness is a third form which is as far above Self Consciousness as is that above Simple Consciousness The prime characteristic Cosmic Consciousness is as its name implies a consciousness of the cosmos that is of the life and order of the universe Along with the consciousness of the cosmos there occurs an intellectual enlightenment or illumination which alone would place the individual on a new plane of existence would make him almost a member of a new species

Cosmic Consciousness: A Study in the Evolution of the Human Mind (Hardcover) Richard Maurice Bucke, 2018-07-24 Richard M Burke s astonishing treatise on the human mind discusses and attempts to explain mystical experiences in the context of evolutionary change in the brain During his mid thirties Burke underwent a feeling of revelation and felt distinctly enlightened for a short time Although the period of enlightenment passed it had an immense impact upon Burke s outlook steering his personal and professional life in a directions he had never before envisioned He found the experience a permanent boon to his well being and was able to work and enjoy life more than he formerly had This book attempts to explain the various mystical feelings of enlightenment which humans have experienced over the millennia of recorded history Burke s opinion is that these phenomena are becoming commoner over time and represent an evolution of the human mind He postulates that these experiences will become commoner as centuries go by and become accepted as an ordinary then eventually as a necessary part of human life *Is Collective Cosmic*
