Cosmic Entity A Timeless Perception Of The Universe:

Cosmic Entity Mark A. Strain,2004 Sometime in the distant past some fourteen billion years ago all that is and all that was burst into creation in a tumultuous event Time and space had no meaning before this genesis event that sparked creation Cosmic Entity describes how space and time the universe came from nothing a perfect balance of positive and negative energy All matter that exists today from the rings of Saturn to the dirt beneath your feet was created from the seething fireball when the infant universe was less than one second old This raw material existed in the form of protons or hydrogen Cosmic Entity explains how the elements were formed how matter is synthesized within the cores of stars and how supernovae exploding stars serve to create even heavier elements and seed the galaxies with this raw material A billion or so years after creation give or take an eon the universe expanded and cooled enough for interesting structures beautiful spiral and elliptical islands of stars called galaxies to form from the sea of matter Galaxies grouped together into clusters and colossal super cluster walls of galaxies evident today

Both One and Many Oliver Griebel,2024-04-16 Meister Eckhart might have liked it Indeed many one thinking is the idea that there is the one ultimate origin coherence spirit of it all but not without a multitude and diversity emerging within which is the evolving universe with planets like Earth with its biosphere and humankind with you and me living in it The Many One is thought of as the whole of the cosmos complementing and entangled with all its parts as beings inside Being and Being inside beings as the Creator and his co creating creatures The both one and many idea takes a strong stance against any ultimate either or reduction against isms of all sorts Being unity

and plurality and duality all at once the Many One is neither monistic nor pluralistic nor dualistic in any way Inside this broad frame it is open for many specific approaches not least those represented in this volume which are cosmic holism cultural spiritual evolution thought Higher We integral thinking the Metaphysics of Adjacency panentheism process theology and transpersonal participatory thinking However the many one idea also chimes in with approaches not sampled here like Roy Bhaskar s Critical Realism Edgar Morin s Complex Thought or metamodernism *Reading the Universe Through Science, Religion and Ethics* South African Science and Religion Forum.
