*Guiding Light* Kevin George Hovey, 2019-04-18 Rev Dr Alan Tippett was arguably one of the leading missiologists of the twentieth century Through his prolific pen poignant observations and powerful insights he significantly influenced mission research and activity in the period of the 1960s to 1980s This was particularly facilitated through his research writing and teaching at the Institute of Church Growth Fuller Theological Seminary School of World Mission and his inaugural editorship of the American Society of Missiology's journal *Missiology An International Review* Yet for those who did not know Tippett's material well the very specific nature of his research and writing limited the influence of his insights For example without already knowing the pertinent content why would a missionary to Thailand think of reading Tippett's Solomon Islands Christianity However according to Doug Priest editor of a number of Tippett's posthumous publications this volume has done what even Tippett himself did not do and that is to capture the key features of his missiology in one volume So *Guiding Light* functions as an in depth overview of The Essential Alan Tippett I can attest that the nature of Tippett's material continued to inform and inspire me throughout the eleven years of the research and writing of this study Eurogames Stewart Woods, 2012-08-30 While board games can appear almost primitive in the digital age eurogames also known as German style board games have increased in popularity nearly concurrently with the rise of video games Eurogames have simple rules and short playing times and emphasize strategy over luck and conflict This book examines the form of eurogames the hobbyist culture that surrounds them and the way that hobbyists experience the play of such games It chronicles the evolution of tabletop hobby gaming and explores why hobbyists play them how players balance competitive play with the demands of an intimate social gathering and to what extent the social context of the game encounter shapes the playing experience Combining history cultural studies leisure studies ludology and play theory this innovative work highlights a popular alternative trend in the gaming community *Game Design Workshop* Tracy Fullerton, 2008-02-08 Master the craft of game design so you can create that elusive combination of challenge competition and interaction that players seek This design workshop begins with an examination of the fundamental elements of game design then puts you to work in prototyping playtesting and redesigning your own games with exercises that teach essential design skills Workshop exercises require no background in programming or artwork releasing you from the intricacies of electronic game production so you can develop a working understanding of the essentials of game design **A Cosmic Encounter** Stewart W.
