

Cosmonauts In Orbit

Erik Bergaust

Cosmonauts In Orbit:

Two Sides of the Moon David Scott, Aleksei Arkhipovich Leonov, Christine Toomey, 2004-10-15 Dave Scott and Alexei Leonov have each borne the enormous responsibility of commanding spacecraft and of representing their respective countries in the most fascinating and most expensive race in human history This is their transcendent recounting of that competition Neil Armstrong from the Foreword Leonov and Scott have gone to extra lengths to explain the inexplicable in *Two Sides of the Moon* And thank goodness they have Theirs was a gamble taken voluntarily and eagerly with the single minded pursuit of earning the assignment and then getting the job done Sometimes they were first Often they were best Always they were colorful And yet each time they returned neither man claimed to have come back a changed man who had gone into space and seen the spirit of the universe They came back from their missions in space having seen the spirit of themselves as even more of the human beings they were before leaving our world of air land and water Leonov the artist and Scott the engineer dreamer The two of them the Cheaters of Death Tom Hanks from the Introduction What was most significant about the lunar voyage was not that men set foot on the moon but that they set eye on the Earth Norman Cousins

Red Star in Orbit James E. Oberg, 1981 Describes the Russian space program telling of unpublicized disasters as well as recent successes **Cosmonauts in Orbit** Gene Gurney, Clare Gurney, 1972-01-01 Traces the development of Russia's space

program and provides biographical material on the cosmonauts **Who's who in Space** Michael Cassutt, 1987 Space travelers and programs including NASA astronauts civilian and military shuttle payload specialists USAF pilots in the X 15 the X 20 Dyna Soar and the Manned Orbiting Laboratory Soviet cosmonauts and international space programs and travelers

A Child's Introduction to the Night Sky (Revised and Updated), 2019-09-17 This charming exploration of the night sky featuring a star finder and glow in the dark stickers which has more than a quarter of a million young astronomers enjoying the night sky in countries around the world is now completely revised and updated *A Child's Introduction to the Night Sky* is the perfect introduction to the always fascinating world of astronomy Children ages eight and up will find out what astronomers have learned and are still discovering what astronauts and scientists explore and what they can find by gazing up into the sky at night Author Michael Driscoll explains how stars are born the achievements of the great scientists the history of space exploration the story of our solar system the myths behind the constellations how to navigate the night sky and more Whimsical color illustrations throughout and handy definitions and sidebars help engage younger readers and develop their interest Also included are a nifty star finder tool and fun glow in the dark stickers **Out of Orbit** Chris

Jones, 2011-06-01 On February 1 2003 the nation was stunned to watch the shuttle Columbia disintegrate into a blue green sky Despite the numerous new reports surrounding the tragedy the public remained largely unaware that three men U S astronauts Donald Pettit and Kenneth Bowersox and Russian flight engineer Nikolai Budarin remained orbiting the earth With the launch program suspended indefinitely these astronauts who were already near the end of a fourteen week mission

had suddenly lost their ride home Out of Orbit is the harrowing behind the scenes chronicle of the efforts of beleaguered Mission Controls in Houston and Moscow who worked frantically against the clock to bring their men safely back to Earth ultimately settling on a plan that felt at best like a long shot Given that no shuttle could come for them the astronauts only hope for a return flight became a Russian built Soyuz TMA 1 capsule latched to the side of the space station a piece of equipment roughly the equivalent of a padded box attached to a parachute with a troubled history in 1971 a malfunction in the Soyuz 11 capsule left three Russian astronauts dead and dated technology Gripping and faced paced Out of Orbit is an adventure in outer space that will keep you on the edge of your seat In a day and age when space travel is poised to become available to masses Out of Orbit vividly captures both its hazardous realities and soaring majesty *Space and Time Perception by the Cosmonaut* Alexei Leonov, Vladimir Lebedev, 2001 This is a book about the dynamics of spaceflight and the role of the cosmonaut in the man space craft system **Shuttles and Space Missions** Giles Sparrow, Judith John, Chris McNab, 2015-12-15 Shuttles and Space Missions examines topics on space exploration from early orbital missions to the first astronauts on the moon Detailed illustrations and clear charts help explain these complicated topics **Rescue in Space** Erik Bergaust, 1974 Discusses the risks of conducting space missions without rescue capability and describes rescue systems that have been considered some in cooperation with Russia *Europe in Space* Guy Collins, 1990-06-18 This book traces the development of the European space programme from its pre 1970 beginnings to the prospects for European ventures beyond the year 2000 It looks at the failure of the Europa Rocket programme and the development of the successful Ariane programme The New York Times Index , 1978 Salyut United States. Congress. Office of Technology Assessment, 1983 The Routledge Handbook of Social Studies of Outer Space Juan Francisco Salazar, Alice Gorman, 2023-07-10 The Routledge Handbook of Social Studies of Outer Space offers state of the art overview of contemporary social and cultural research on outer space International in scope the thirty eight contributions by over fifty leading researchers and artists across a variety of disciplines and fields of knowledge present a range of debates and pose key questions about the crafting of futures in relation to outer space The Handbook is a call to attend more carefully to engagements with outer space empirically affectively and theoretically while characterizing current research practices and outlining future research agendas This recalibration opens profound questions of intersectional politics race equity and environmental justice around the contested topics of space exploration and life off Earth Among the many themes included in the volume are the various infrastructures networks and systems that enable and sustain space exploration space heritage the ethics of outer space social and environmental justice fundamental debates about life in outer space as it pertains to both astrobiology and SETI the study of scientific communities the human body and consciousness Indigenous astronomical systems of Knowledge contemporary space art and ongoing critical interventions to overcome the legacies of colonialism and dismantle hegemonic narratives of outer space **Space Almanac** Anthony R. Curtis, 1989 The largest most complete and up to date almanac of

space exploration is now in its second big edition Here at your fingertips is the latest information on almost anything you want to know about who's doing what in space

Psychology and Human Performance in Space Programs Lauren Blackwell Landon, Kelley J. Slack, Eduardo Salas, 2020-10-08 In *Psychology and Human Performance in Space Programs* Extreme Application operations experts from multiple space agencies with support from spaceflight researchers outline existing and proposed operations for selecting training and supporting space crews who currently live and work on the International Space Station and who are preparing for future missions to the moon and Mars Highlighting applied psychology in spaceflight whilst acknowledging real world complexities that occur when integrating across an international multi agency collective this volume provides both historical and current perspectives toward spaceflight operations with expert contributions from NASA and international partners such as the Japanese Space Agency Russian space researchers and the Canadian Space Agency Helpfully outlining the progress that has been made so far this book includes topics such as the selection and hiring of astronauts the process of training a crew for a mission to Mars and workload and mission planning Discussing operational psychology in space and on the ground this book looks to the future of research and operational needs for future missions to Mars with an essay from astronaut Dr Don Pettit on his experiences in space and how the Mars mission will challenge us in new ways This second of two volumes will be of interest to professionals in the field of human factors and psychology in extreme environments

Salyut - The First Space Station Grujica S. Ivanovich, 2008-10-22 This remarkable book gives a comprehensive account of the longest manned space mission of the time It details for the first time the people involved and the crews assigned to operate the first space station Salyut The book portrays the selection of the crews dramatic flights and tragedy of Soyuz 11 Biographies of the Soyuz 11 cosmonauts are published for the first time in English The book relates discussions between the key personnel and investigates the causes of the tragedy The book ends with memories of all those affected by the DOS program and the tragedy of Soyuz 11 and looks forward to a continuation of the historic mission of Salyut

Russia's Cosmonauts Rex D. Hall, Shayler David, Bert Vis, 2007-10-05 With the aid of unique photographs first hand interviews and historical resources Rex Hall Dave Shayler and Bert Vis explain for the very first time how Russian citizens have been selected and trained to fly in space and how these procedures have changed during the past 40 years The authors also describe the evolution of the often overlooked ground support infrastructure and how the role of cosmonauts has changed from the very earliest days of the Gagarin era through the demise of the Soviet Union to the era of international co operation and collaboration on programmes such as the International Space Station The book will provide much important background information and insight to the operational Soviet Russian manned space programme already covered in other Springer Praxis titles but revealing information and facts not covered elsewhere and providing a unique reference source for all those who wish to understand the changing role of Russian cosmonauts in today's global space programme

Space Exploration Kim Masters Evans, 2008-10 Provides information on the history of space exploration and

the daily life of astronauts *Star-Crossed Orbits: Inside The U.S.-Russian Space Alliance* James Oberg, 2001-11-07 An insider's view into the U S Russian space program In *Star Crossed Orbits* space veteran and bestselling author James Oberg combines riveting personal memoir with top notch investigative journalism to tell the complete untold story of the U S Russian space alliance With unparalleled access to official Russian archives facilities and key individuals associated with the Russian space program he describes the strengths and weaknesses that each side of the alliance brings to the table And he reveals for the first time the full story of Russia's decaying space program and how it ultimately was saved from collapse by Western funds Praise for *Star Crossed Orbits* A unique background and base of experience underlies this remarkable book by Jim Oberg It is must reading for anyone who wishes to understand the culture with which one must deal when attempting to cooperate with Russia or counter its initiatives whether peaceful or otherwise Times change with the clock Dr H H Jack Schmitt Apollo moon walker US Senator Jim Oberg's new book is an absolute must read for those who have followed the first decades of the human exploration of space He reveals all sorts of insider information on all sides of the relationship between the U S and the Soviet Union later Russia as they attempted to forge a successful partnership in space Don't miss this one Admiral Richard Truly Space Shuttle Astronaut and former NASA Administrator *Star Crossed Orbits* is a great piece of investigative journalism Its detailed comprehensive and well documented description of the political environment that shaped the International Space Station is a service to NASA and the nation This book is a must read for program managers engineers and scientists engaged in present and future projects with Russia Gene Kranz Apollo Flight Director author of *Failure is Not An Option* Finally someone is telling it like it is about the Russian manned space program the good the bad and the ugly The Russians pulled the wool over our eyes for decades It continues even today only now America is paying for it I have relied on Jim for years because no one knows it or tells it like he does Walter Cunningham Apollo VII Astronaut first manned Apollo mission In this reasoned indictment James Oberg reveals the self delusional and cynically deceptive deals in which the US allowed Russia to be a controlling partner in constructing the International Space station He details the terrible cost in time national treasure and integrity that this caused and how despite these self inflicted barriers America's much maligned space workers successfully built it anyway Frederick C Durant III Former Assistant Director National Air and Space Museum

Salyut : Soviet steps toward permanent human presence in space. ,2008 As the other major spacefaring nation the Soviet Union is a subject of interest to the Congress in their deliberations concerning the future of U S space activities In the course of an assessment of Civilian Space Stations in 1983 the Office of Tech Assessment OTA undertook a study of the presence of Soviets in space their Salyut space stations The major element in this technical memorandum was a workshop held at OTA in Dec 1982 it was the first occasion when a significant number of experts in this area of Soviet space activities had met for extended unclassified discussion As a result of the workshop OTA prepared this report Includes Graphic Comparison of Soviet U S Space Vehicles Illustrations
