Cosmosophy Vol I:

Cosmosophy - Volume Two Rudolf Steiner, 1997-09 11 lectures Dornach October 21 November 13 1921 CW 208 The modern materialistic worldview is a product of fear and anxiety This fear lives on in the outer actions of human beings in the social structure in the course of history Why did people become materialists why would they admit only the outer that which is given in the material existence Because they were afraid to descend into the depths of the human being Rudolf Steiner With these words Steiner describes the relationship between inner and outer realities In a sense deeper than normally recognized the mind body split is the result of a fear to penetrate the mind the inner human being This lack of inner courage rebounds on society and civilization producing the terrible conditions modern humanity finds itself surrounded by And real healing will not come until we can summon the courage to penetrate the hidden inner mysteries These themes and many more are explored in these insightful lectures

The Mystery of the Resurrection in the Light of Anthroposophy Sergei O. Prokofieff, 2010 We live today at a time when the full mystery of the Resurrection body can become manifest to human beings out of the inspirations of Michael This was accomplished by Rudolf Steiner not just in a theoretical sense but also practically and came about through the establishing of a path accessible to all human beings which leads to a union with the forces of the Resurrection body Sergei Prokofieff approaches the deepest mysteries of the Turning Point of Time the Christ event through Rudolf Steiner's spiritual research At its heart stands the question of the restoration of the phantom of the physical body and its transformation into the resurrected body of Christ through the Mystery of Golgotha The author draws a broad and differentiated picture of the tasks and possibilities that the Easter event as well as Ascension and Pentecost present both for the individual and humanity The final chapter considers the mystery of Easter Saturday through which the two polar aspects of the Mystery of Golgotha death and resurrection interconnect also explaining the relationship between the Earth Spirit and the interior of the Earth An appendix tackles the phenomenon of stigmatization from a spiritual scientific perspective

The Cycle of the Year as a Path of Initiation Sergei O. Prokofieff, 2014-03-12 In ancient times humanity possessed an innate knowledge of the spiritual foundations of existence Such knowledge could be acquired through inwardly accompanying the cycle of the year and its connected great seasonal festivals But this instinctive knowledge had to be lost in order for human beings to discover individual freedom In our time as Sergei O Prokofieff demonstrates in this comprehensive work this knowledge must be found anew through the free light filled consciousness of the fully developed human personality Tracing the spiritual path of the yearly cycle Prokofieff penetrates to the deeper esoteric realities of the seven Christian festivals of Michaelmas Christmas Epiphany Easter Ascension Whitsun and St John's Tide Basing his research on the work of the twentieth century initiate Rudolf Steiner he reveals how these festivals are spiritual facts that exist independently of religious traditions and cultural customs Working with the festivals in an esoteric sense can provide a true path of initiation ultimately enabling an experience of the Being of the Earth Christ The journey of study through this

book can thus lead the reader to an experience of the modern Christian Rosicrucian path along which it is possible to take the first steps towards life in partnership with the course of cosmic existence

The Spiritual Origins of Eastern Europe

Sergei O. Prokofieff, 2016-03-21

And however paradoxical it may seem today the Grail mood is in the fullest sense to be found in Russia And the future role that Russia will play in the sixth post Atlantean epoch rests firmly upon this unconquerable Grail mood in the Russian people Rudolf Steiner Although Eastern Europe has been part of the Christian world for more than a thousand years its spiritual identity remains a mystery This mystery says Sergei Prokofieff can only fully be solved by looking behind external events and seeking spiritual meta historical dimensions of reality In illuminating the maya of outer history Prokofieff reveals the forces that have been at work to hinder the progress of mankind the materialistic Brotherhoods of the West and the occult aspects of both Jesuitism and Bolshevism These adversary groups have created a karma of materialism that the eastern Slavic peoples have taken upon themselves out of their exalted willingness for sacrifice Prokofieff shows how from the earliest times the future conscience of humanity flowed from hidden mystery centres in Hibernia to the eastern Slavic peoples As a result qualities of compassion patience and willingness for sacrifice developed in their souls creating a truly Christian Grail mood Despite incalculable suffering from the persecutions of the Mongol hordes to the Bolshevik experiment of the last century this quality has become an unconquerable force Will humanity be able to use the present opportunity granted by this sacrifice to fulfil the primary purposes of the present cultural epoch Can the future mysteries of the Holy Grail be fulfilled In this momentous work breathtaking in its scope and detail the author attempts a truly esoteric approach penetrating to the spiritual wellsprings of Eastern Europe in the light of Rudolf Steiner's research

The Electronic Doppelganger Rudolf Steiner, 2016-07-22

Large temptations will emanate from these machine animals produced by people themselves and it will be the task of a spiritual science that explores the cosmos to ensure all these temptations do not exert any damaging influence on human beings In an increasingly digitised world where both work and play are more and more taking place online and via screens Rudolf Steiner's dramatic statements from 1917 appear prophetic Speaking of intelligent machines that would appear in the future Steiner presents a broad context that illustrates the multitude of challenges human beings will face If humanity and the Earth are to continue to evolve together with the cosmos and not be cut off from it entirely we will need to work consciously and spiritually to create a counterweight to such phenomena In the lectures gathered here edited with commentary and notes by Andreas Neider Rudolf Steiner addresses a topic that he was never to speak of again the secret of the geographical or the ahrimanic doppelganger The human nervous system houses an entity that does not belong to its constitution he states This is an ahrimanic being which enters the body shortly before birth and leaves at death providing the basis for all electrical currents that are needed to process and coordinate sense perceptions and react to them Based on his spiritual research Rudolf Steiner discusses this doppelganger or double in the wider context of historic occult events relating to spirits of darkness Specific brotherhoods seek to keep such

knowledge to themselves in order to exert power and spread materialism But this knowledge is critical says Steiner if the geographical doppelganger and its challenges are to be understood **More Precious than Light** Margarete van den Brink,2021-04-28 Relationships are built through dialogue through exploring heartfelt questions that lead to liberating personal insights This book shows how such dialogue can transform relationships and build community However true meeting and healing conversations take effort Encounter involves light and dark Relationships bring out sympathy and antipathy In an age of digital communications and internet based encounters when alienation and loneliness are very real issues this new edition of Margarete van den Brink s classic work is more vital than ever The process of inner development leading ultimately to the unification of the human self with its higher spiritual being involves a transformation in our everyday selves In this act of initiation the art of conversation plays a central role The words which people speak to each other contain a force that can work in an invigorating and life enhancing way This force which can be more precious than light itself is the highest creative principle the Word referred to in the Gospel of St John which created everything that exists Informed by the insights of anthroposophy **More Precious than Light** indicates the path towards the spirit and the lost power of the Word transforming relationships and building community True encounter can only be fostered through making real connections with our fellow human beings **Cosmosophy** Rudolf Steiner,1985 Rudolf Steiner characterizes the relationship between inner and outer realities In a sense deeper than normally recognized the mind body split is the result of a fear to penetrate the mind the inner human being This lack of inner courage rebounds on society and civilization producing the terrible conditions modern humanity finds itself surrounded by Healing will come only when we summon the courage to penetrate the hidden mysteries within These themes and many more are explored in these insightful lectures The modern materialistic world conception is a product of fear and anxiety This fear lives on in the outer actions of human beings in the social structure in the course of history Why did people become materialists why would they admit only the outer that which is given in material existence Because they were afraid to descend into the depths of the human being Rudolf Steiner **Cosmosophy Volume 1** RUDOLF STEINER 1861 1925 became a respected and well published scientific literary and philosophical scholar particularly known for his work on Goethe s scientific writings At the beginning of the twentieth century he began to develop his earlier philosophical principles into an approach to methodical research of psychological and spiritual phenomena His multifaceted genius has led to innovative and holistic approaches in medicine philosophy religion education Waldorf schools special education the Camphill movement economics agriculture biodynamics science architecture and the arts drama speech and eurythmy In 1924 he founded the General Anthroposophical Society which has branches throughout the world *The Fleeing Youth* Richard Distasi,2009-07-17 It is commonly accepted that the mission of Christ was an act that was independent of any corresponding and requisite deed on the part of humanity Though in part this is true this book asserts that the future spiritual evolution of humanity was dependent on human comprehension and understanding
