Orientation to Counseling J. Vincent Peterson, Bernard Nisenholz, 1999 The field of counseling continues to become an increasingly significant part of the health industry of America In late 1996 Congress passes a bill which helped to include mental health services with other health services This bill legislatively formalized the tendency that was already sweeping the nation And as counseling is gaining greater acceptance larger numbers of people are choosing to enter this field This book introduces the field and tenets of counseling and provides an up to date look at the current issues surrounding counseling It also is tailored to the eight required categories for accreditation and licensure content areas specified by the National Board for Certified Counselors This book takes a personal approach to introducing readers to the field of counseling Believing that human development is multi sided the authors recognize physical cognitive behavioral social emotional and spiritual development The book includes sections on stress management career choices responsibilities of counselors learning counseling skills theory and practice and specific foundation areas like group family school and community Also included throughout the text is a great attention to multicultural issues Counselors and psychologists

Counseling Mary Thomas Burke, Judith G. Miranti, 1995 Although spirituality is gaining increased interest in counseling counselors are reluctant to incorporate the spiritual dimension into their practice This text explores spirituality in counseling so as to encourage counselors to consider their own spirituality and to facilitate the enhancement of spiritual wellness for their clients The chapters present a balance of practical and theoretical concerns Some of the theoretical issues covered here include the interplay of spirituality religion and counseling theories behind spiritual wellness the cross cultural

issues presented by religious values approaching clients of different religious background the spiritual and ethical beliefs of humanists the spiritual journey and observers perceptions of how one counselor handled religious issues Articles which explore some of the more practical concerns in counseling examine feminist therapy the spiritual journey of gays and lesbians interreligious group encounters views held by counselors and clergy about depressive religious ideation multicultural awareness of religious beliefs and practices the spiritual needs of the dying and the counselor s role in right to die decisions It is hoped that the information here will be useful to neophytes researchers and practitioners Practitioners should also be challenged to explore their own spiritual dimensions RJM *Counseling Families* David L.
