People Born In June Andrey Davydov, Olga Skorbatyuk, Kate Bazilevsky, 2017-06-23 ANTI HOROSCOPE HUMAN SOFTWARE Series of 12 books Did you know that those born on June 4 leap years or June 5 common years are not only perpetual servants by character who are flexible try to please and anticipate desires The master is laughing I m laughing the master is sad I m sad but also they will ask a great price of the master for being whoever the master wants to see They are masters of illusions lie with or without reason Or for example did you know that those people who were born on June 6th of leap years or on June 7th of common years are not only very flexible and display calmness of a Sphinx on their faces but in matrimonial relations and they always seek to have a family they act like a night cuckoos and will cuckoo anyone over unobtrusively between the pillows they will get what they want into their spouse s head And these people are essentially untamable like cats who always walk around by themselves Hence the question are you sure that you know people whom you think you know as your own self Yes of course you know them if we take word play into account You really do know them like you know yourself that is just as bad You know your own and other people s masks and roles but that is all You do not believe this Then open this book and see for yourself This book is for those people who are fed up with horoscopism who are tired of listening to nonsense about themselves and other people from psychologists or their all knowing relatives friends and acquaintances It will help you save not just some time in your life but your whole life because otherwise you will spend your entire life on something that is a priori impossible And it is impossible not because you are idiots but because Homo sapiens cannot fully know themselves and other people without an external and most importantly objective source Perhaps that is the reason why humanity was left factory instructions to each one of us the Catalog of Human Population Yes that is right There exists the Catalog of Human Population which you can open and find out everything about any person you are interested in including yourself Information about people presented in this book and in other eleven books in the series titled Anti Horoscope Human Software is from there and not from your favorite horoscope *Specifications and Drawings of Patents Issued from the United States Patent Office* United States. Patent Office, 1909 **People Born In January** Andrey Davydov, Olga Skorbatyuk, Kate Bazilevsky, 2017-05-25 ANTI HOROSCOPE HUMAN SOFTWARE Series of 12 books Did you know that for example all people born on January 4th of common years are ardent apologists of everything standard and common border guards who protect boundaries of everything that is established Or that they can torture others with kindness and wise advice Or that those born on January 28th of common years imperceptibly reform you so much that you will not recognize yourself For example did you know that all those people who were born on January 8th of common years are seemingly sincere with open souls meanwhile they have the ability to completely transform That is you never know whether a person before you is who he or she is trying to appear as And so on Hence the question are you sure that you know people whom you think you know as your own self Yes of course you know them if we take word play into account You really

do know them like you know yourself that is just as bad You know your own and other people s masks and roles but that is all You do not believe this Then open this book and see for yourself This book is for those people who are fed up with horoscopes who are tired of listening to nonsense about themselves and other people from psychologists or their all knowing relatives friends and acquaintances It will help you save not just some time in your life but your whole life because otherwise you will spend your entire life on something that is a priori impossible And it is impossible not because you are idiots but because Homo sapiens cannot fully know themselves and other people without an external and most importantly objective source Perhaps that is the reason why humanity was left factory instructions to each one of us the Catalog of Human Population Yes that is right There exists the Catalog of Human Population which you can open and find out everything about any person you are interested in including yourself Information about people presented in this book and in other eleven books in the series titled Anti Horoscope Human Software is from there and not from your favorite horoscope
