The Subjects of Ottoman International Law Lâle Can, Michael Christopher Low, Kent F. Schull, Robert Zens, 2020-10-13
The core of this edited volume originates from a special issue of the Journal of the Ottoman and Turkish Studies Association JOTSA that goes well beyond the special issue to incorporate the stimulating discussions and insights of two Middle East Studies Association conference roundtables and the important work of additional scholars in order to create a state of the field volume on Ottoman sociolegal studies particularly regarding Ottoman international law from the eighteenth century to the end of the empire It makes several important contributions to Ottoman and Turkish studies namely by introducing these disciplines to the broader fields of trans imperial studies comparative international law and legal history Combining the best practices of diplomatic history and history from below to integrate the Ottoman Empire and its subjects into the broader debates of the nineteenth century trans imperial history this unique volume represents the exciting work and cutting edge scholarship on these topics that will continue to shape the field in years to come **A Treatise on Northern Ireland, Volume I** Brendan O'Leary, 2019-04-11 This brilliantly innovative synthesis of narrative and analysis illuminates how British colonialism shaped the formation and political cultures of what became Northern Ireland and the Irish Free State A Treatise on Northern Ireland Volume I provides a somber and compelling comparative audit of the scale of recent conflict in Northern Ireland and explains its historical origins Contrasting colonial and sectarianized accounts of modern Irish history Brendan O Leary shows that a judicious meld of these perspectives provides a properly political account of direct and indirect rule and of administrative and settler colonialism The British state incorporated Ulster and Ireland into a deeply unequal Union after four re conquests over two centuries had successively defeated the Ulster Gaels the Catholic Confederates the Jacobites and the United Irishmen and their respective European allies Founded as a union of Protestants in Great Britain and Ireland rather than of the British and the Irish nations the colonial and sectarian Union was infamously punctured in the catastrophe of the Great Famine The subsequent mobilization of Irish nationalists and Ulster unionists and two republican insurrections

amid the cataclysm and aftermath of World War I brought the now partly democratized Union to an unexpected end aside from a shrunken rump of British authority baptized as Northern Ireland Home rule would be granted to those who had claimed not to want it after having been refused to those who had ardently sought it The failure of possible federal reconstructions of the Union and the fateful partition of the island are explained and systematically compared with other British colonial partitions Northern Ireland was invented in accordance with British interests to resolve the hereditary animosities between the descendants of Irish natives and British settlers in Ireland In the long run the invention proved unfit for purpose Indispensable for explaining contemporary institutions and mentalities this volume clears the path for the intelligent reader determined to understand contemporary Northern Ireland *The Army Quarterly and Defence Journal* ,1996 *A Treatise on Northern Ireland* Brendan O'Leary,2019 The first volume of the definitive political history of Northern Ireland *The Canadian Historical Review* ,1941 Annual Statement of the Sea-borne Trade of British India with the British Empire and Foreign Countries India. Commercial Intelligence Department,1915 Annual Statement of the Sea-borne Trade and Navigation of British India with the British Empire and Foreign Countries ,1916 **The Times Literary Supplement Index** ,1978 **Annual Statement of the Foreign Sea and Air-borne Trade of India** India.
