Communal Politics Facts Versus Myths:

Communal Politics Ram Puniyani, 2003-04-25 This lucid and absorbing book explores many facets of communalism and its growing threat to the social fabric of the nation Ram Puniyani argues that one of the main reasons for the ascendancy of communal politics is the misconceptions and distortions spread by those bent upon constructing an identity based on suspicion and hatred These misconceptions or myths as the author calls them are drawn from different arenas such as history and culture and are built upon a partial projection of events and facts combined with a skewed assertion of norms and practices of the other community A mountain of hatred says the author is then built upon these totally selective facts which misinform and mould common perceptions Overall this fascinating book dispels in a novel and logical manner many distortions which have been responsible for arousing communal passions and which have created an external or enemy image of religious minorities and the socially disadvantaged *Human Rights and the Third World* Subrata Sankar

Bagchi, Arnab Das, 2012-12-06 *Human Rights and the Third World* Issues and Discourses deals with the controversial questions on the universalistic notions of human rights It finds Third World perspectives on human rights and seeks to open up a discursive space in the human rights discourse to address unresolved questions citing issues and problems from different countries in the Third World 1 Whether alternative perspectives should be taken as the standard for human rights in the Third World countries 2 Should there be a universalistic notion of rights for Homo sapiens or are we talking about two diametrically opposite trends and standards of human rights for the same species 3 How far these Third World perspectives of human rights can ensure the protection of the minorities and the vulnerable sections of population particularly the women and children within the Third World 4 Can these alternative perspectives help in fighting the Third World problems like poverty hunger corruption despotism social exclusion like the caste system in India communalism and the like 5 Can there be reconciliation between the Third World perspectives and the Western perspective of human rights *International*

Handbook of Inter-religious Education Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement

whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893. This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity.

Popular Culture in a Globalised India K. Moti Gokulsing, Wimal Dissanayake, 2009-01-13 This book explores India's rich popular culture and provides illuminating insights into various aspects of the social, cultural, economic and political realities of contemporary globalised India. It is essential reading for courses on Indian popular culture and a useful resource for more general courses in the field of cultural studies, media studies, history, literary studies and communication studies.

Lives of Muslims in India Abdul Shaban, 2018-01-10 The fast consolidating identities along religious and ethnic lines in recent years have considerably minoritised Muslims in India. The wide-ranging essays in this volume focus on the intensified exclusionary practices against Indian Muslims, highlighting how amidst a politics of violence, confusing policy frameworks on caste and class lines and institutionalised riot systems, the community has also suffered from the lack of leadership from within. At the same time, Indian Muslims have emerged as a mass around which the politics of vote bank appeasement, foreigners, Pakistanis within the country and so on are innovated and played upon, making them further apprehensive about asserting their legitimate right to development. The important issues of the double marginalisation of Muslim women and attempts to reform the Muslim Personal Law by some civil society groups is also discussed. Contributed by academics, activists and journalists, the articles discuss issues of integration, exclusion and violence and attempt to understand categories such as identity, minority, multiculturalism and nationalism with regard to and in the context of Indian Muslims. This second edition with a new introduction will be of great interest to scholars and researchers in sociology, politics, history, cultural studies, minority studies, Islamic studies, policy studies and development studies as well as policymakers, civil society activists and those in media and journalism.

Hindu Extreme Right-wing Groups Ram Punyani, 2004 This book attempts to look at Hindutva's Fascist agenda unfolding in the country today.

Savarkar, Myths and Facts Shamsul Islam, 2004 This is an expose on the real Savarkar of pre-independence India based on original documents available in the archives of the Hindu Mahasabha, the RSS, the Government of India and the memoirs of revolutionaries.

RSS, School Texts and the Murder of Mahatma Gandhi Aditya Mukherjee, Mridula Mukherjee, Sucheta Mahajan, 2008-06 RSS School Texts and the Murder of Mahatma Gandhi undertakes the novel experiment of juxtaposing three apparently quite different issues: the nature of the RSS school textbooks, the murder of the Mahatma and the basic ideology of Savarkar and Golwalkar. While deeply delving into all three aspects, it brings out the deep connection between them. The book, which brings out the basic ideological underpinnings of the Hindu Communal Project, is divided into three parts. Part I discusses how this ideology is propagated among young impressionable minds through school textbooks. Part II studies the role of the Sangh combine in the murder of Mahatma Gandhi and Part III analyses the basic elements of the Hindu communal ideology as propounded by some of its founders like

Savarkar and Golwalkar The book brings home to us in a dramatic manner the great threat communalism poses to our society thus making it a must read for the general educated reader including politicians political workers social activists and journalists

Religion, Identity, and Nationhood Paramjit S. Judge, 2005 The Sikh militant movement spanned one and a half decades during which a considerable loss of life occurred in and outside Punjab In terms of its spread it almost became international in character largely due to the presence of diaspora Sikhs in most of the western world This work is based on the analysis of the speeches and messages of the leaders of the militant movement It has been argued without essentializing the problematic that the nature of discourse of the militant movement could be traced back to the construction of Sikhism in the second half of the nineteenth century The ideology of the Singh Sabha movement and its attempt at the construction of singular religious identity provided the dynamics to the Sikh community In the process the religious tradition was invented which emphasized the singular Sikh identity by paving the way for the fundamentalist discourse of separatism The composite religious tradition in Sikhism was put at the margin of the community as a result of which it became possible to construct Sikh nationhood Coupled with this construction was the attempt of the militants to purge the community from all syncretism practised by the Sikhs It has been argued that despite this construction the Sikh community has continued to observe the composite tradition though the threat of militant violence greatly reduced the eclectic space of inter subjective communitarian understanding and interaction
