### **Communal Utopias And The American Experience Religious Communities 1732 2000:**

*Communal Utopias and the American Experience Religious Communities, 1732-2000* Robert P. Sutton, 2003-09-30 American communalism is not a disjointed erratic almost ephemeral part of our past but an on going essential part of American history This important study begins with an examination of America s first religious utopia at Ephrata near Lancaster Pennsylvania in 1732 and traces successive utopian experiments in the United States through the following centuries The author demonstrates that the utopian communal story is an integral facet of the Puritan concept of America as a city upon a hill and a beacon light for the world where the perfect society could be built and where it could flourish After discussing the Ephrata Cloister 1724 1812 the author turns to the dozen or so Shaker communities that spread utopian communalism from New England to the Ohio Valley frontier in the antebellum years Next he examines the various Separatists as well as the Oneida Community He traces the history of the Hutterite utopias from Russia to the Great Plains and Canada between the Civil War and World War I In a chapter on California counter culture communities he analyzes the Theosophist communes at Pint Loma and Temple Home Finally he discusses modern religious utopias ranging from the Koreshian Unity at Estero Florida to Zion City near Chicago Dorothy Day s Catholic Worker Movement the Sufi Utopia in the Berkshire Mountains and the Pandanaram Settlement in Indiana

**The Archaeology of Utopian and Intentional Communities** Stacy C. Kozakavich, 2023-01-24 This volume describes and discusses historical archaeologists contributions to our understanding of intentional communities throughout American history Structured according to the scale of methodological focus from settlement patterns and landscape to the built environment to artifact studies the case studies presented in this volume will give readers a thorough introduction to archaeological research to date in this field

**American Countercultures: An Encyclopedia of Nonconformists, Alternative Lifestyles, and Radical Ideas in U.S. History** Gina Misiroglu, 2015-03-26 Counterculture while commonly used to describe youth oriented movements during the 1960s refers to any attempt to challenge or change conventional values and practices or the dominant lifestyles of the day This fascinating three volume set explores these movements in America from colonial times to the present in colorful detail American Countercultures is the first reference work to examine the impact of countercultural movements on American social history It highlights the writings recordings and visual works produced by these movements to educate inspire and incite action in all eras of the nation s history A Z entries provide a wealth of information on personalities places events concepts beliefs groups and practices The set includes numerous illustrations a topic finder primary source documents a bibliography and a filmography and an index

[Protestant Communalism in the Trans-Atlantic World, 1650-1850](#) Philip Lockley, 2016-04-29 This book explores the trans Atlantic history of Protestant traditions of communalism communities of shared property The sixteenth century Reformation may have destroyed monasticism in northern Europe but Protestant Christianity has not always denied common property Between 1650 and 1850 a range of Protestant groups

adopted communal goods frequently after crossing the Atlantic to North America the Ephrata community the Shakers the Harmony Society the Community of True Inspiration and others Early Mormonism also developed with a communal dimension challenging its surrounding Protestant culture of individualism and the free market In a series of focussed and survey studies this book recovers the trans Atlantic networks and narratives ideas and influences which shaped Protestant communalism across two centuries of early modernity *Sex and Sects* Stewart Davenport, 2022-03-17 With a revolution behind them a continent before them and the First Amendment protecting them religio sexual pioneers in antebellum America were free to strike out on their own breaking with the orthodoxies of the past Shakers followed the ascetic path Oneida Perfectionists accepted sex as a gift from God and Mormons redefined marriage in light of new religious revelations that also redefined God humankind spirit and matter Sex became a powerful way for each group to reinforce their sectarian identity as strangers in a strange land Sex and Sects tells the story of these three religiously inspired sexual innovations in America the celibate lifestyle of the Shakers the Oneida Community's system of controlled polyamory and plural marriage as practiced by the Mormons Stewart Davenport analyzes why these bold experiments rose and largely fell over the course of the nineteenth century within the confines of the new American republic Moving beyond a social scientific lens Davenport traces for the first time their fascinating shared trajectory as they emerged struggled institutionalized and declined in tandem and sheds historical light on the way in which Americans have discussed contested and redefined the institutions of marriage and family both in our private lives and in the public realm **Was the American Revolution a Mistake?** Burton Weltman, 2013-08-27 Why was George Washington dismayed by the outcome of the American Revolution Would slavery still exist if the South had not seceded from the Union in 1861 Might socialists rule America today if Teddy Roosevelt had not run for President and lost in 1912 History is full of contingencies People confront problems and debate options for solving them Then they make a choice and face the consequences of their choice Often they wonder if a different choice might have been better Was the American Revolution a mistake Was racial segregation inevitable Was the Cold War necessary Americans have repeatedly asked these sorts of questions as they examined the consequences of their choices This is a book about revisiting crucial choices people made in history and examining the consequences of those choices for them and for us It demonstrates a method of teaching history that recreates events as people experienced them and asks important questions that troubled them but that rarely appear in conventional textbooks Unlike conventional methods that often reduce history to names dates and factoids for students to memorize it is a method that brings past debates to life the losers as well as the winners points of view and makes the subject exciting In studying history as choice students examine the problems people faced their options for solving them their decision making processes and the choices they made Then students evaluate the consequences of those choices both for people in the past and us today They explore what might have happened if different choices had been made Finally students relate the consequences of those past choices to problems we face today and the

choices we need to make History as choice is a practical and practicable method It has been designed to satisfy the curriculum goals of the National Council for the Social Studies and the book explains how it can be used to satisfy any state or local curriculum standards The book also identifies and illustrates resources that can be used with this method from data bases to popular music and explains how teachers can gradually integrate it into their courses In the first part of the book the method of history as choice is explained using the question of whether the American Revolution was a mistake as a case in point The second part of the book explores thirteen other questions about significant issues and events in American history as additional examples of how one might teach history as choice **City of Refuge** Michael J. Lewis, 2016-11-14 A

fascinating exploration of the urbanism at the heart of Utopian thinking The vision of Utopia obsessed the nineteenth century mind shaping art literature and especially town planning In *City of Refuge* Michael Lewis takes readers across centuries and continents to show how Utopian town planning produced a distinctive type of settlement characterized by its square plan collective ownership of properties and communal dormitories Some of these settlements were sanctuaries from religious persecution like those of the German Rappites French Huguenots and American Shakers while others were sanctuaries from the Industrial Revolution like those imagined by Charles Fourier Robert Owen and other Utopian visionaries Because of their differences in ideology and theology these settlements have traditionally been viewed separately but Lewis shows how they are part of a continuous intellectual tradition that stretches from the early Protestant Reformation into modern times Through close readings of architectural plans and archival documents many previously unpublished he shows the network of connections between these seemingly disparate Utopian settlements including even such well known town plans as those of New Haven and Philadelphia The most remarkable aspect of the city of refuge is the inventive way it fused its eclectic sources ranging from the encampments of the ancient Israelites as described in the Bible to the detailed social program of Thomas More's *Utopia* to modern thought about education science and technology Delving into the historical evolution and antecedents of Utopian towns and cities *City of Refuge* alters notions of what a Utopian community can and should be

**The World Turned Inside Out** Lorenzo Veracini, 2021-09-21 A history and theory of settler colonialism and social control Many would rather change worlds than change the world The settlement of communities in empty lands somewhere else has often been proposed as a solution to growing contradictions While the lands were never empty sometimes these communities failed miserably and sometimes they prospered and grew until they became entire countries Building on a growing body of transnational and interdisciplinary research on the political imaginaries of settler colonialism as a specific mode of domination this book uncovers and critiques an autonomous influential and coherent political tradition a tradition still relevant today It follows the ideas and the projects and the failures of those who left or planned to leave growing and chaotic cities and challenging and confusing new economic circumstances those who wanted to protect endangered nationalities and those who intended to pre-empt forthcoming revolutions of all sorts including civil and social wars They

displaced and moved to other islands and continents beyond the settled regions to rural districts and to secluded suburbs to communes and intentional communities and to cyberspace This book outlines the global history of a resilient political idea to seek change somewhere else as an alternative to embracing or resisting transformation where one is     **Quarterly of the Oregon Historical Society** Oregon Historical Society,2004     **Oregon Historical Quarterly** Oregon Historical Society,2009     **BYU Studies** Brigham Young University,2005 A voice for the community of LDS scholars     *America, History and Life* ,2005 Article abstracts and citations of reviews and dissertations covering the United States and Canada

**Encyclopedia of the New American Nation** Paul Finkelman,2006 Presents a three volume encyclopedia of the history of the new American nation and contains over six hundred alphabetically arranged articles covering major events and issues from 1754 to 1829     *The Worlds of Joseph Smith* John Woodland Welch,2006     **Articulating Rights** Alison Marie Parker,2010 In this original study of six notable reformers Alison Parker skillfully illuminates the connections between the gradual transformation of reform strategies over the course of the nineteenth century and the political ideas of the reformers themselves Parker argues that American women s political thought evolved from an emphasis on reform through moral suasion and local control into an endorsement of expanded federal power and a strong central state This book reveals Fanny Wright Sarah Grimk Angelina Grimk Weld Frances Watkins Harper Frances Willard and Mary Church Terrell to be political thinkers who were engaged in re conceptualizing the relationship between the state and its citizens Collectively and individually black women made a significant contribution to the shift toward an activist central state by strongly supporting a federal government with expanded authority to protect and enforce civil rights Offering profiles of two black reformers Parker explores the complex role that race played in the political thought and strategies in both black and white women reformers Paying particular attention to the ways in which women s ideas about the state and citizenship factored into their struggles for racial and sexual equality Parker illuminates the wide ranging and creative ways in which they engaged in politics For scholars interested in nineteenth century women race or reform in American history this significant study offers a fresh take on these vital topics     *Eden Within Eden* James J. Kopp,2009 Oregon has been the home of nearly three hundred communal experiments since the Aurora Colony was established in 1856 *Eden Within Eden* is the first book to survey the state s utopian history from religious and Socialist groups of the nineteenth century to ecologically conscious communities of the twenty first century James J Kopp examines Oregon s communal history in the context of the state as a destination for those seeking new beginnings and in the framework of utopian and communal experiences across America *Eden Within Eden* provides rich detail about utopian communities some realized some only planned many of which reflect broader social political economic and cultural aspects of Oregon s history From the dawn of communal groups in Oregon the German Christian colony at Aurora to Oregon s most infamous communal experiment Rajneeshpuram this study examines the range of attempts to establish ideal communities in the state These include the Jewish agrarian colony of New Odessa in the 1880s

as well as the new pioneers of the 1960s and later who captured the spirit of the counterculture as well as growing concerns about the environment The book explores other areas of Oregon s utopian heritage as well including literary works and idealistic city planning There has been no comparable book published on Oregon s communal history and few such comprehensive examinations of other states The appendix is a rich compilation that will guide individuals to additional information on the profiled and many other communities Eden Within Eden will appeal to students and scholars of communal studies and Pacific Northwest history as well as to general readers interested in these subjects

**Yearbook of German-American Studies** ,2004     *Histoire transnationale de l'utopie littéraire et de l'utopisme* Vita Fortunati,2008
