## **Communicating As Christians:**

**Communicating Jesus' Way** Charles H. Kraft, 2013-06-19 This greatly expanded edition of Kraft's book *Communicating the Gospel God's Way* guides us in our attempt to understand how God seeks to communicate the gospel to unbelievers. Kraft shows that God desires His people to deliver His message through human life, not merely formulaic explanations or printed words.

**Communicating with Grace and Virtue** Quentin J. Schultze, 2020-09-01 Communications expert Quentin Schultze offers an engaging and practical guide to help Christians interact effectively at home, work, church, school, and beyond. Based on solid biblical principles and drawn from Schultze's own remarkable experiences, this book shows how to practice servant communication for a rich and rewarding life. Topics include how to overcome common mistakes, be a more grateful and virtuous communicator, tell stories effectively, reduce conflicts, overcome fears, and communicate well in a high-tech world. Helpful sidebars and text boxes are included.

**Mirror of the Heart** Charles R. Gerber, 2001 It is said that a journey of a thousand miles begins with the first step. An enduring relationship begins with the first step of effective communication. Because of the power of verbal communication, Charles Gerber urges Christians to carefully monitor their speech. He reminds us that communication can be used for either good or evil purposes. Words will ultimately reveal the heart of the speaker. Knowing the tremendous impact spoken words can have on any relationship, Gerber encourages speech that embodies New Testament teachings. Examples from Scripture of both positive and negative effects of speech clarify the picture of what godly speech should or should not be. Jesus Christ himself is examined as the greatest communicator of the Bible. Christ's teachings and conversations provide a perfect model for all Christians. Engaging anecdotes present the effects of spoken words in a variety of settings. Gerber offers concise, realistic suggestions for improving communication skills and quality in any conversation. Book jacket.

Creating Understanding Donald K. Smith, 1992 This book is built on twenty-three propositions about communication—propositions that when taken together encompass fundamental truths about human communication from a Christian perspective. *Creating Understanding* puts communications media into proper perspective. It makes meaning and understanding the focus of the effort of communication. It is committed to having the purposes of communication determine the means to be employed. This book is a foundation on which the enterprise of Christian ministry can be built or refined. It provides perspective constantly on the ways the cultural landscape is informing and affecting the communication process.

*Communication Theory for Christian Witness* Charles H. Kraft, 1991-01-01 In this revision of a long-enduring classic, Kraft draws upon faith experience and the social sciences to make pastors, preachers, missionaries, and religious educators aware of the mystery of human communication in the service of God, who calls all into communion. The question is how to communicate with these other cultures so that the message is effectively transmitted and received. How do we recognize the gaps of language, tradition, life experience that separate us and build bridges over them?

*Communicating God's Word in a Complex World* Daniel R. Shaw, Charles E. Van Engen, 2003-08-04 *Communicating God's Word in a Complex*

World reaches out to the growing number of missionaries pastors Bible translators and teachers mission and theological educators and students dealing with communicating the gospel This is increasingly difficult in today s pluralist and global contexts What was God s message and how has spreading that message changed through the generations The answer to that question requires a hermeneutical process that seeks to understand the biblical text and the context in which it was originally presented R Daniel Shaw and Charles Van Engen say that contemporary proclaimers of God s word can model their approach after that of the writers of scripture who reinterpreted and restated their received texts for their audiences Thus Gospel communication is impacted by the way humans know God This in turn is informed by contexts Communicating God s Word in a Complex World draws lessons from the biblical authors themselves as a guide for how best to present God s message

**Biblical Communication Skill Christians Need to Know** Dr Chris,2023-09-30 This book emphasizes the importance of effective communication and motivation to inspire positive change Encouraging others to see the benefits of a shift in perspective or behavior is crucial in achieving successful outcomes By presenting a clear and captivating vision of the end result individuals are more likely to embrace the change and adopt a positive attitude Taking the time to support and acknowledge others efforts builds confidence and encourages them to strive for higher achievements Surrounding oneself with like minded optimistic individuals creates a winning team that propels everyone to reach their full potential On the contrary neglecting this principle may lead to a negative environment and hinder progress Understanding the power of motivation and fostering a great attitude within a team can lead to boundless possibilities and a pathway to success

**Authentic Communication** Tim Muehlhoff,Todd Lewis,2010-02-25 What could be more natural more human than communication But we all learn quickly enough that good communication is not always natural There is much to learn from Scripture and from the academic study of human communication In this book Tim Muehlhoff and Todd Lewis are able guides aiding us in understanding the broad field of human communication in Christian perspective

**Don't Throw the Book at Them** Harry Box,2014-09-09 Don t Throw the Book at Them addresses one of the most vital issues in contemporary missions It is a manual for cross cultural missionaries and national church leaders ministering in societies based on oral rather than written communication Harry Box is a former missionary and researcher in Papua New Guinea and among the Aborigines of Central Australia In this book he explains the distinct characteristics of oral societies how they differ from literacy oriented societies Jesus ministry to oral communicators and why effective presentation of the Christian message demands that Western Christians change their approach to orality He goes beyond case studies and analysis allowing the reader to develop a detailed plan for communication

**Culture, Communication, and Christianity**

Charles H. Kraft, 2001 Charles Kraft is a well known author educator linguist anthropologist and missiologist This book consists of his selected writings compiled over more than three decades Subjects including anthropology communication worldview ethnolinguistics hermeneutics and contextualization are dealt with as they relate to Christianity and Kraft s unique perspective Kraft s personal story and an exhaustive bibliography of his personal writings from 1961 2000 are included This book is of extraordinary value to those who desire to study Christianity culture and communication and the interplay between all three

*Communicating Christ Cross-culturally* David J. Hesselgrave, 1991 As an unparalleled introduction to missionary communication this thoroughly indexed book examines world views cognitive processes linguistic forms behavioral patterns social structures communication media and motivational sources

**Contemporary Christian Communications, Its Theory and Practice** James F. Engel, 1979

**Christian Communication Reconsidered** John Bluck, 1989 Much of the literature on Christian communication deals with it without reference to the fast changing world of communication as such The argument of this book is that skills without understanding and technique without theology are of little value from back cover

**Media in Church and Mission** Viggo Sogaard, 1993 Summarizing the Dimensions of Christian Communication Too many today are borrowing uncritically from the world of secular marketing and seem to be blithely unaware that the gospel is not a consumer product to be sold persuasively to a waiting world There is a great temptation to be so focused on felt needs that the gospel ceases being the narrow way and becomes instead a broad way to human fulfillment Unless real caution is exercised masses are attracted and churches become filled with those to whom Christianity is only a veneer over an otherwise secular life S gaard succeeds in driving home the sometimes forgotten point that strategies no matter how skillfully they are conceived are destined to failure unless it is fully recognized that the Holy Spirit is the ultimate persuader There is in short a mysterious interworking between strategies and the ministry of the Holy Spirit An imbalance on either side of this equation is untenable The majority of the chapters offer practical insights into how such media as audio cassettes radio film and television can if properly used play an important role in conversion and spiritual growth But the author never loses sight of the fact that the single most important medium is face to face communication in the context of the local Christian fellowship
